## ACTIVITIES AND SUMMARY REPORT OF THE BUDGET COMMITTEE

DECEMBER 7, 1984.—Committed to the Committee of the Whole House on the State  
of the Union and ordered to be printed

Mr. JONES, of Oklahoma, from the Committee on the Budget,  
submitted the following

### R E P O R T

#### I. SUMMARY OF COMMITTEE JURISDICTION AND ACTIVITY DURING THE 98TH CONGRESS

In accordance with the provisions of Public Law 93-344, the Congressional Budget and Impoundment Control Act of 1974, the Committee on the Budget considered and reported two concurrent resolutions on the budget. An additional budget resolution (H. Con. Res. 280) was considered, but not reported, and served as the Committee's substitute amendment to H. Con. Res. 282, the Committee reported First Budget Resolution for Fiscal Year 1985. Final action on these resolutions was taken on the following dates: the First Budget Resolution for Fiscal Year 1984, June 23, 1983; the First Budget Resolution for Fiscal Year 1985, October 1, 1984. Following recent precedent, the first budget resolution for both fiscal year 1984 and fiscal year 1985 contained a section providing that if Congress did not adopt a second budget resolution for such fiscal year by the following October 1, the spending and revenue levels in such first budget resolution would become binding. Therefore, it was not necessary for the Committee on the Budget to report a second budget resolution for either fiscal year 1984 or fiscal year 1985. However, section 4(c) of the conference substitute accompanying H. Con. Res. 280 (H. Rept. 98-1079) provides for termination of the "automatic second budget resolution" provision (section 4(a)) when Congress completes action on a subsequent budget resolution for fiscal year 1985 pursuant to section 304 or 310 of the Congressional Budget Act of 1974. The final versions of the adopted budget resolutions are reprinted in Part II of this report.

In developing the resolutions on the budget, the Committee considered numerous potential budgetary concepts and approaches, with a particular view toward significantly reducing the enormous current and projected budget deficits. In that regard, the Committee heard extensive testimony on the state of the economy, the probable fiscal and economic impact of the President's budget proposals, the requirements and resources of state and local governments, and national economic priorities. The Committee also requested and received detailed reports from all House and Joint Committees containing their views and estimates regarding appropriate levels of spending for programs within their jurisdiction (Views and Estimates of Committees of the House, March 1984, CP-6), and reports from the Congressional Budget Office (on fiscal policy and national priorities) and the Joint Economic Committee (on recommendations as to the fiscal policies which would be appropriate to achieve the goals of the Employment Act of 1946).

Also, in conformity with instructions contained in H. Con. Res. 91, the Committee on the Budget reported to the House the Omnibus Budget Reconciliation Act of 1983 (H.R. 4169, H. Rept. 98-425). The bill passed the House (amended) on October 25, 1983 and the Senate on April 5, 1984 (P.L. 98-270). Similarly, pursuant to reconciliation instructions contained in H. Con. Res. 280, as passed by the House, the Committee introduced the Omnibus Budget Reconciliation Act of 1984 (H.R. 5394, described in the Committee's oversight report entitled "Efforts to Reduce the Federal Deficit", H. Rept. 98-673). The reconciliation bill passed the House on April 12, 1984, and subsequently passed the Senate as an amendment to H.R. 4170, the Tax Reform Act of 1984 (H. Rept. 98-432, October 21, 1983, supplemental report filed by the Committee on Ways and Means on March 5, 1984, Part II). The conference report on H.R. 4170 (H. Rept. 98-861), the Deficit Reduction Act of 1984, was agreed to by the House and Senate on June 27, 1984 (P.L. 98-369). This measure contained the revenue provisions assumed in the First Budget Resolution for Fiscal Year 1984 (H. Con. Res. 91), with the spending reductions and revenue increases assumed in H. Con. Res. 280, the First Budget Resolution for Fiscal Year 1985.

In addition to the matters within the legislative jurisdiction of the Committee, the Budget Committee is charged with certain oversight responsibilities. Chief among these are: (1) review of the operations and activities of the Congressional Budget Office; (2) study of off-budget agencies; (3) study of tax expenditures; and (4) study of additional budget reform proposals.

During the Ninety-eighth Congress, the Committee on the Budget and its Task Forces conducted the following hearings and meetings in exercising its legislative and oversight responsibilities.

#### MISCELLANEOUS PROVISIONS

SEC. 4. No bill or resolution providing new discretionary budget authority or new spending authority described in section 401(c)(2)(C) of the Congressional Budget Act of 1974, for fiscal year 1984, which exceeds the appropriate allocation of new discretionary budget authority or new spending authority described in section 401(c)(2)(C) of the Congressional Budget Act shall be enrolled in the House of Representatives, and no bill or resolution providing new budget authority or new spending authority described in section

401(c)(2)(C) of the Congressional Budget Act of 1974, for fiscal year 1984, which exceeds the appropriate allocation of new budget authority or new spending authority described in section 401(c)(2)(C) of the Congressional Budget Act shall be enrolled in the Senate, until after the Congress has completed action on the second concurrent resolution on the budget required to be reported under section 310 of such Act or until October 1, 1983, whichever occurs first.

SEC. 5. (a) If Congress has not completed action by October 1, 1983, on the concurrent resolution on the budget required to be reported under section 310(a) of the Congressional Budget Act of 1974 for the 1984 fiscal year, then this concurrent resolution shall be deemed to be the concurrent resolution required to be reported under section 310(a) of such Act, for the purposes of section 311 of such Act.

(b) Section 311(a) of the Congressional Budget Act of 1974, as made applicable by subsection (a) of this section, shall not apply to bills, resolutions, or amendments within the jurisdiction of a committee, or any conference report on any such bill or resolution, if—

- (1) the enactment of such bill or resolution as reported;
- (2) the adoption and enactment of such amendment; or
- (3) the enactment of such bill or resolution in the form recommended in such conference report;

would not cause the appropriate allocation for such committee of new discretionary budget authority, new budget authority, or new spending authority as described in section 401(c)(2)(C) of the Congressional Budget Act of 1974 made pursuant to section 302(a) of such Act for fiscal year 1984 to be exceeded.

(c) The provisions of this section shall cease to apply when Congress completes action on a subsequent concurrent resolution on the budget for fiscal year 1984 pursuant to section 304 or 310 of the Congressional Budget Act of 1974.

SEC. 6. Monetary Policy.—Inasmuch as—

(1) there is a need for coordination between fiscal and monetary policy,

(2) actual and projected budget deficits have placed a heavy burden on monetary policy,

(3) any reduction in the budget deficit brought about by this budget resolution will reduce pressures on monetary policy,

(4) there is a need for vigorous economic growth consistent with reasonable price stability,

(5) the Banking and Budget Committees of the respective Houses require information regarding the Federal Reserve's monetary policy and the economic assumptions consistent with that policy, and

(6) the Budget Committees are, therefore, interested in the recommendations of the Banking Committees of the respective Houses with respect to such information,

the House Committee on Banking, Finance and Urban Affairs, and the Senate Committee on Banking, Housing, and Urban Affairs are requested to report to their respective bodies, no later than September 30, 1983, a resolution expressing the sense of the Congress as to (A) the coordination of the Federal reserve's monetary policy with the fiscal policy reflected in this budget resolution and the appropriate information regarding the economic assumptions and

goals of the Federal Reserve System, (B) the appropriate information to implement this policy coordination including, but not limited to, the effects of the Federal Reserve's monetary policy on the economy, and (C) any other matters pertaining to the Federal Reserve's execution or congressional oversight of monetary policy, as the above Committees deem appropriate.

SEC. 7. It is the sense of the Congress that, in light of budget restraint, limited resources, and the need to foster economic growth, the House Committee on Armed Services should initiate a thorough review of military retirement programs which constitute a major sector of the defense budget and should recommend changes which would result in reduced spending under these programs.

SEC. 8. It is the sense of the Congress, the President and the Congress, through the appropriations process, should limit the on-budget new direct loan obligations of the Federal Government to an amount not to exceed \$38,150,000,000 in fiscal year 1983 and \$31,000,000,000 in fiscal year 1984; off-budget new direct loan obligations to an amount not to exceed \$16,100,000,000 in fiscal year 1983 and \$16,900,000,000 in fiscal year 1984; new primary loan guarantee commitments to an amount not to exceed \$99,600,000,000 in fiscal year 1983 and \$101,700,000,000 in fiscal year 1984; and new secondary loan guarantee commitments to an amount not to exceed \$68,250,000,000 in fiscal year 1983 and \$68,250,000,000 in fiscal year 1984. It is further the sense of the Congress that the President and the Congress should limit total Federal Financing Bank origination of direct loans guaranteed by other Federal agencies to \$15,000,000,000, in fiscal year 1983 and \$15,500,000,000 in fiscal year 1984, and Federal Financing Bank purchases of certificates of beneficial ownership from Federal agencies to \$12,050,000,000 in fiscal year 1983 and \$13,950,000,000 in fiscal year 1984. It is further the sense of the Congress that direct borrowing transactions of Federal agencies should be, to the maximum extent possible, restricted to the Federal Financing Bank.

SEC. 9. It is the sense of the Congress and the budgets of Federal agencies initiating Federal Financing Bank purchases of certificates of beneficial ownership and originations of guaranteed loans should include the budget authority and outlays resulting from the transactions. The Congress recommends that the committees with jurisdiction over the Federal Financing Bank Act of 1973 consider expeditiously legislation to require that the budgetary impact of such Federal Financing Bank transactions be included in the budgets of the initiating agencies beginning with the fiscal year 1985 budget.

#### GENERAL PROVISIONS

SEC. 2. (a) For fiscal years 1985, 1986, and 1987, any revenues raised by legislation enacted on or after March 15, 1984, shall only be used to reduce the Federal budget deficits for such fiscal years except to the extent that such legislation earmarks all or any part of such revenues for specific spending programs.

(b) For fiscal years 1985, 1986, and 1987, increased funding would be appropriate if authorizations are enacted for education programs, environmental protection, health research activities, and such specific low-income programs as employment initiatives for disadvantaged youth, public works jobs for community renewal, increased funding for Aid to Families with Dependent Children and the state component of the Supplemental Security Income program in order to ensure that the purchasing power of recipients is maintained, increased funding for Title XX of the Social Security Act, and an increase in the earned income tax credit, pursuant to subsection (a) above, if sufficient outlay reductions or new revenues are also enacted to ensure that the legislation is deficit neutral.

#### ADMINISTRATIVE SAVINGS

SEC. 3. It is the sense of the Congress that the executive branch shall achieve as much of the \$153.2 billion in savings as if feasible, but in no case less than \$2 billion over fiscal years 1985 through 1987 which have been recommended by the President's Private

Sector Survey on Cost Control and which can be achieved through administrative action within that branch of Government. It is further the sense of the Congress that the President should report to Congress each year, in conjunction with the annual budget submission, on the progress made in achieving the savings required by this section, and that the budget submission for fiscal year 1986 should contain information regarding such administrative savings as have already been achieved.

#### AUTOMATIC SECOND BUDGET RESOLUTION

SEC. 4. (a) Effective October 1, 1984, this concurrent resolution shall be deemed to be the concurrent resolution on the budget for fiscal year 1985 required to be reported under section 310(a) of the Congressional Budget Act of 1974, for the purposes of the prohibitions contained in section 311 of such Act.

(b) Section 311(a) of the Congressional Budget Act of 1974, as made applicable by subsection (a) of this section, shall not apply to bills, resolutions, or amendments within the jurisdiction of a committee, or any conference report on any such bill or resolution, if—

- (1) the enactment of such bill or resolution as reported;
- (2) the adoption and enactment of such amendment; or
- (3) the enactment of such bill or resolution in the form recommended in such conference report;

would not cause the appropriate allocation for such committee of new discretionary budget authority or new spending authority as described in section 401(c)(2)(C) of the Congressional Budget Act of 1974 made pursuant to section 302(a) of such Act for fiscal year 1985 to be exceeded.

(c) The provisions of this section shall cease to apply when Congress completes action on a subsequent concurrent resolution on the budget for fiscal year 1985 pursuant to section 304 or 310 of the Congressional Budget Act of 1974.

#### SECTION 302 (B) FILLING REQUIREMENT

SEC. 5. (a) It shall not be in order in the House of Representatives to consider any bill or resolution, or amendment thereto, providing—

- (1) new budget authority for fiscal year 1985;
  - (2) new spending authority described in section 401(c)(2)(C) of the Congressional Budget Act first effective in fiscal year 1985;
- or

(3) direct loan authority, primary loan guarantee authority, or secondary loan guarantee authority for fiscal year 1985; within the jurisdiction of any committee which has received an allocation pursuant to section 302(a) of the Congressional Budget Act of discretionary budget authority or new spending authority, as described above, for such fiscal year, unless and until such committee makes the allocation or subdivisions required by section 302(b) of the Congressional Budget Act, in connection with the most recently agreed to concurrent resolution on the budget.

(b) The prohibition contained in subsection (a) shall not apply until twenty-one days of continuous session, as defined in section

1011(5) of the Impoundment Control Act of 1974, after Congress completes action on this concurrent resolution.
