

FIRST CONCURRENT RESOLUTION ON THE BUDGET, FISCAL YEAR 1981

MAY 23, 1980.—Ordered to be printed

Mr. GIAIMO, from the committee of conference,
submitted the following

CONFERENCE REPORT

[To accompany H. Con. Res. 307]

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the concurrent resolution (H. Con. Res. 307) setting forth the congressional budget for the United States Government for the fiscal years 1981, 1982, and 1983 and revising the congressional budget for the United States Government for the fiscal year 1980, having met, after full and free conference, have been unable to agree on a conference report because the conference decisions have changed certain budget figures outside the scope of conference. As set forth in the accompanying Joint Explanatory Statement, the conferees do propose a congressional budget incorporated in a further amendment for the consideration of the two Houses.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the concurrent resolution (H. Con. Res. 307) setting forth the congressional budget for the United States Government for fiscal years 1981, 1982, and 1983 and revising the congressional budget for the United States Government for fiscal year 1980 report that the conferees have been unable to agree. This is a technical disagreement, necessitated by the fact that in some instances the conference decisions include figures which (for purely technical reasons) would fall outside the range between the corresponding House and Senate provisions.

It is the intention of the conferees that the managers on the part of the House will offer a motion in the House to recede and concur in the Senate amendment to the House-passed resolution with an amendment (in the nature of a substitute) consisting of the language agreed to in conference. Upon the adoption of such amendment in the House, the managers on the part of the Senate will offer a motion in the Senate to concur therein.

The managers on the part of the House and the Senate submit the following joint statement in explanation of the action agreed upon by the managers:

The substitute language which is to be offered as described above (and which should be considered the language of the concurrent resolution as recommended in the conference report for purposes of section 302(a) of the Congressional Budget Act of 1974)—hereinafter in this statement referred to as the "conference substitute"—is as follows:

RECONCILIATION

SEC. 8. Pursuant to section 310 of the Budget Act: (a) Not later than June 16, 1980, the House Committee on Appropriations shall report legislation reducing spending for fiscal year 1980 contained in laws or in reported bills or resolutions within its jurisdiction by \$3,000,000,000 in budget authority and \$1,000,000,000 in outlays; and

(b) Not later than June 16, 1980, the Senate Committee on Appropriations shall report legislation reducing spending for fiscal year 1980 contained in laws within its jurisdiction by \$3,000,000,000 in budget authority and \$1,000,000,000 in outlays.

GENERAL PROVISIONS

SEC. 9. (a) No bill or resolution providing—

- (1) new budget authority for fiscal year 1981, or*
- (2) new spending authority described in section 401(c)(2)(C) of the Budget Act first effective in fiscal year 1981—*
which exceeds the appropriate allocation or subdivision made pursuant to section 302 of such Act shall be enrolled until after Congress has completed action on the second concurrent resolution on the budget required to be reported under section 310 of such Act, and on any reconciliation legislation required by such resolution. Action on such resolution should be completed not later than August 28, 1980.

(b) Subsection (a) shall not apply to bills and resolutions for which a conference report has been filed in either House prior to final adoption by both Houses of this resolution.

SEC. 10. (a) No bill or resolution which would reduce Federal revenues in fiscal year 1981 by more than \$100,000,000 shall be enrolled until after Congress has completed action on the second concurrent resolution on the budget required to be reported under section 310 of the Budget Act, and on any reconciliation language required by such resolution. Action on such resolution should be completed not later than August 28, 1980.

(b) After Federal revenues for fiscal year 1981 have been reduced by enacted bills and resolutions totaling \$100,000,000, no other bill or resolution which would reduce revenues in such fiscal year shall be

enrolled until after Congress has completed action on the second concurrent resolution on the budget, and on any reconciliation legislation required by such resolution. Action on such resolution should be completed not later than August 28, 1980.

(c) Notwithstanding subsection (a) of this section, a resolution adopted under section 402 of the Crude Oil Windfall Profit Tax of 1980 (26 U.S.C. 1) which has the effect of reducing revenues shall be enrolled.

SEC. 11. There is established a Congressional Federal Credit Budget for fiscal year 1981.

(a) The appropriate levels of total Federal credit activity for fiscal year 1981 are:

(1) New direct loan obligations, \$63,900,000,000;

(2) New primary loan guarantee, commitments, \$79,600,000,000.

(b) It is the sense of the Congress that the President and the Congress, through the appropriations process, should limit in fiscal year 1981 the off-budget lending activity of the Federal Government to a level not to exceed \$25,800,000,000; the on-budget lending activity to a level not to exceed \$38,100,000,000; and new primary loan guarantee commitments to a level not to exceed \$79,600,000,000.

SEC. 12. It is the sense of the Senate that due to the extreme rate of inflation in the U.S. economy, the possible inflationary effects of Federal regulations and legislation shall be carefully monitored as part of this program of fiscal restraint. Inflationary effects should therefore be a prime consideration in developing both regulations and legislation. In order to coordinate the aggregate economic impact of regulations with Federal fiscal policy, it is the sense of the Senate that the President should implement a "zero net inflation impact" policy for the Federal regulations promulgated in the remainder of fiscal year 1980 and fiscal year 1981. This policy will require the President to keep an accounting for fiscal years 1980 and 1981 of all new regulations which have a significant, measurable cost to the economy. The aggregate net increase in costs or price effects of new regulations would have to be offset by modifications to existing regulations which reduce the costs or price effects by at least that amount in fiscal years 1980 and 1981, as well as subsequent fiscal years. The cost-saving modifications need not affect the same area of economic activity as the cost-inducing regulations. The President should institute an exemption procedure to assure the promulgation of regulations necessary to avert any imminent threat to health and safety.

It is also the sense of the Senate that the Director of the Congressional Budget Office should issue a periodic "inflation scorekeeping" report which shall contain an estimate of the positive or negative inflationary effects, wherever measurable, of legislation enacted to date in the current session of Congress. The report shall also indicate for each bill, promptly after it is reported by a committee of Congress, whether:

1. It is judged to have no significant positive or negative impact on inflation;

2. It is judged to have a positive or negative inflationary impact on the amount specified in terms of both dollar amounts and change in the consumer price index;

3. It is judged likely to have a significant positive or negative impact on inflation, but the amount cannot be determined immediately.

SEC. 13. Congress calls upon the President to review current inflation measures used for indexing Federal programs, as well as other indexing alternatives, to report to Congress by November 30, 1980, those conclusions and recommendations resulting from this review, and to reflect those conclusions in the President's budget and legislative proposals for fiscal year 1982.

SEC. 14. It is the sense of the Congress that the President should direct agencies not to increase the rate of obligation of fiscal year 1980 budget authority in advance of anticipated rescission actions.

ECONOMIC ASSUMPTIONS

STATEMENT ON REVENUES

The managers do not prejudice the judicial or legislative outcome of the oil import fee. Thus the revenues from an oil import fee are not included in this resolution. If the oil import fee is collected, the 1980 deficit will be reduced by \$3.1 billion and \$10.0 billion will be available in 1981 for a tax reduction only.

The managers anticipate that the revenue committees of the House and Senate will proceed with hearings and markup of a tax reduction bill within the context of this balanced budget, but that tax cut will depend upon the availability of a surplus equal to the amount of the tax cut.

BUDGET AGGREGATES FOR FISCAL YEAR 1981

REVENUES

The House Resolution provided revenues of \$613.8 billion in fiscal year 1981 and to achieve that level provided that legislation should increase revenues on a net basis by \$4.3 billion. The projected \$10.3 billion of revenues associated with the President's oil import fee was reserved to fund a tax reduction of an equivalent amount in fiscal year 1981.

The Senate Resolution included revenues of \$613.2 billion in fiscal year 1981.

The Conference substitute provides revenues of \$613.8 billion in fiscal year 1981. This includes a net amount of \$4.2 billion of revenues from new legislation.

BUDGET AUTHORITY

The House resolution provided budget authority of \$694.6 billion. The Senate amendment provided budget authority of \$688.2 billion.

The conference substitute provides budget authority of \$697.2 billion.

OUTLAYS

The House resolution provided outlays of \$611.8 billion. The Senate amendment provided outlays of \$613.1 billion.

The conference substitute provides outlays of \$613.3 billion.

SURPLUS

The House resolution provided for a surplus of \$2.0 billion. The Senate amendment provided for a surplus of \$0.1 billion.

The conference substitute provides for a surplus of \$0.5 billion.

PUBLIC DEBT

The House resolution provided for a public debt level of \$926.8 billion. The Senate amendment provided for a public debt level of \$927.7 billion.

The conference substitute provides for a public debt level of \$934.4 billion.

CREDIT BUDGET

The House resolution provided \$60.6 billion for new direct loan obligations and \$79.6 billion for new commitments to guarantee loan principal. The Senate amendment provided \$63.9 billion for new direct loan obligations and \$77.0 billion for new primary loan guarantee commitments.

The conference substitute provides \$63.9 billion for new direct loan obligations and \$79.6 billion for new primary loan guarantee commitments.

The Senate Resolution contained a sense of the Congress' provision calling upon the President and the Congress to limit, through the appropriations process, the on and off budget credit activity of the Federal government in 1981 to levels specified in the Resolution. The House Resolution did not contain such a provision. The Conference substitute contains the general text of the Senate provision, with the credit totals agreed upon by the managers on the part of the two Houses.

The Senate Resolution also contained a provision requiring that the authority for direct loans or loan guarantees provided in new legislation would be effective only to such extent or in such amounts as are contained in appropriation Acts. The House Resolution did not con-

tain such a provision. The Conference substitute does not contain the Senate provision.

The conferees strongly express their desire to limit total Federal credit activity. The Conference substitute includes recommendations on the appropriate level of direct loan obligations and new primary loan guarantee commitments, as well as sense of the Congress language regarding limitations on lending activity. The Budget Committees are currently working with other committees with appropriate jurisdiction of both Houses to perfect enforcement procedures for legislation which authorizes new lending activity.

The conferees note the rapid influx of refugees into the country, the civil disturbances in Florida, the eruption of Mount St. Helens in Washington State and flooding in Louisiana and elsewhere. At the present time it is uncertain whether these amounts are sufficient to meet the needs of these and other areas impacted by recent disasters. Should additional assistance for these and other Presidentially-declared disasters be found necessary in a manner consistent with the Congressional budget process, it is the intent of the managers that such assistance be provided.

The conference substitute assumes an additional \$0.1 billion of budget authority and \$0.1 billion of outlays for anticipated costs related to the recent influx of refugees.

The Conferees are very concerned about the rapid growth of costs in the Trade Adjustment Assistance program. In the President's January budget, fiscal year 1980 costs of the program were estimated at \$0.381 billion. The program is now projected to cost \$1.44 billion—a 275 percent increase since January.

In a recent study, the General Accounting Office found serious problems in the design and effectiveness of the Trade Adjustment Assistance program. The Conferees believe that reforms to reduce costs are urgently needed in the program.

The Conferees urge the appropriate committees to evaluate program modifications and/or alternatives which will better assist displaced workers to make the transition to other employment where their skills and experience are needed.
