Declares that it shall not be in order in either the House or the Senate during FY 1982 and FY 1983 to consider any bill, resolution, or amendment, except proposed legislation reported in response to reconciliation instructions, authorizing new direct loan obligations or new loan guarantee commitments unless that bill, resolution, or amendment also provides that the authority to make or guarantee such loans shall be effective only to such extent or in such amounts as are contained in appropriation Acts, except for agricultural price supports in operation on January 1, 1982.

Prohibits any bill or resolution providing new budget authority for fiscal year 1983 or providing new

spending authority in excess of the reconciliation proposals of a committee from being enrolled until Congress has completed action on the Second Budget Resolution for that fiscal year.

Permits the authorizing of legislation for spending financed by certain trust funds.

Declares that it is the sense of Congress that if Congress acts to restore fiscal responsibility and reduces projected budget deficits in a substantial and permanent way, then the Federal Reserve Open Market Committee shall reevaluate its monetary targets in order to assure that they are fully complementary to a new and more restrained fiscal policy.

Declares that it is the sense of Congress that concurrent resolutions on the budget should reflect the full range of fiscal activities of the Federal Government.

States that if Congress has not completed action by October 1, 1982, on the Concurrent Resolution on the Budget required for FY 1983, then this concurrent resolution shall be deemed to be the concurrent resolution required under the Budget Act.

Makes it out of order in either House to consider any bill or resolution or amendment providing new budget authority for FY 1983 or new spending authority first effective in FY 1983 within the jurisdiction of any of its committees unless and until such committee makes the allocations or subdivisions required by the Budget Act in connection with the most recently agreed to concurrent resolution on the budget.

Declares that after the Congress has completed action on the concurrent resolution on the budget for FY 1983, and, if a reconciliation bill or resolution, or both, for such fiscal year are required to be reported, after that bill has been enacted into law or that resolution has been agreed to, it shall not be in order in either the House or the Senate to consider any bill, resolution, or amendment providing authority in excess of established levels for new direct loan obligations, new primary loan guarantee commitments, or new secondary loan guarantee commitments for FY 1983.

Requires the joint explanatory statement accompanying the conference report on this resolution to include an estimated allocation of the appropriate levels of total new direct loan obligations, and new primary and secondary loan guarantee commitments.

Requires each committee of each House, as soon as practicable after this resolution is agreed to, to subdivide among its subcommittees the allocation of new direct loan obligations and new primary and secondary loan guarantee commitments allocated to it in the joint explanatory statement accompanying the conference report on this resolution.

Declares that such requirements shall not be applicable to agricultural price supports and related programs in operation on January 1, 1982.

Declares that it is the sense of Congress that reductions in Federal employment should be accomplished through attrition.
