MESSAGE TRANSMITTING THE BUDGET

To the Congress of the United States:

I have the honor to transmit herewith the Budget of the United States for the fiscal year ending June 30, 1934. The appropriations herein recommended for the fiscal year 1934 have been reduced by about \$830,000,000 below the appropriations for the current fiscal year, which reduction is offset by about \$250,000,000 of unavoidable increases in items not subject to administrative control, making a net reduction of about \$580,000,000.

The following tabulation summarizes the estimates of appropriations (a) as contained in the body of the Budget and (b) as modified by the further recommendations contained in this Message, compared with the appropriations made by the Congress for the current fiscal year:

¹ After deducting \$1,968,000, Economy Act savings.

The appropriations which I recommend be made for the fiscal year ending June 30, 1934, as shown above, total \$4,218,808,344, and are predicated upon the enactment of legislation, which I hereby recommend, providing (a) for a temporary reduction in the rate of pay of Federal personnel, to be applied to all civil employees prior to the application of the provisions of Title I of Part II of the act making appropriations for the Legislative branch of the Government for the fiscal year ending June 30, 1933, and for other purposes (the continuation of which for another year is submitted in the body of the Budget), effecting an additional saving of \$55,000,000, and (b) amending certain laws providing for benefits to veterans, producing a further saving of \$127,000,000. I recommend that this legislation be in the language appended to this Message.

EXPENDITURES

The appropriations made for any fiscal year control the obligations which may be incurred during that year, but do not accurately reflect the expenditures of the year, as many expenditures are made in liquidation of obligations of a prior year and out of the prior year's appropriation, while many obligations incurred during the year are liquidated in a subsequent year.

Expenditures, therefore, while based upon the appropriations available must be separately estimated. The following tabulation summarizes the expenditures contemplated during the fiscal year 1934 under appropriations (a) as recommended in the body of the Budget and (b) as modified by the further recommendations contained in this Message, compared with the estimated expenditures for the current fiscal year:

The total expenditure in 1934 is increased above the normal carry-over of funds from prior appropriations by \$110,000,000 from the 1933 appropriations for construction as contained in the Emergency Relief and Construction Act, in opposition to which appropriations I presented my views to the last Congress. This unusual carry-over accounts for the major difference between reduction of appropriations and reduction of expenditures.

EXPENDITURES AND RECEIPTS

The following tabulation summarizes the estimated expenditures and receipts for the fiscal years 1934 and 1933 compared with the actual expenditures and receipts for 1932. The expenditures for 1934 are predicated upon the appropriations for that year recommended above and the receipts for 1934 upon existing revenue laws:

	1934	1933	1932
Total payable from Treasury.....	\$3,790,425,200	\$4,268,888,400	\$5,006,590,305
Deduct public-debt retirements.....	534,070,300	498,153,400	412,629,750
Total other expenditures.....	3,256,354,900	3,770,735,000	4,593,960,555
Receipts.....	2,949,162,713	2,624,256,693	2,121,228,006
Excess of expenditures.....	307,192,187	1,146,478,307	2,472,732,549

From this tabulation it will be seen that, in spite of the large reduction in expenditures, the revenues under existing laws are expected

to fall short of providing sufficient money to avoid a further increase in the public debt in the fiscal year 1934 by about \$307,000,000.

To meet this situation I recommend—

(a) That the Federal tax on gasoline, which is effective only until June 30, 1933, be continued until June 30, 1934, producing about \$137,000,000 additional revenue in the fiscal year 1934, and

(b) That the manufacturers' excise taxes now imposed on certain articles be extended and in part replaced by a general uniform tax (excluding food). I have been advised that the annual yield of such a general tax, at a 2¼ per cent rate, would be approximately \$355,000,000.

The additional \$492,000,000 of revenue produced in this way will not only make possible the replacements referred to above but will also avoid a further increase in the public debt during the fiscal year 1934. The details of these recommendations will be presented by the Secretary of the Treasury.

CONTINUANCE OF CERTAIN ECONOMY PROVISIONS

In arriving at the amounts of the estimates of appropriations contained in this Budget for the Executive branch of the Government, I have predicated my action on a continuance during the fiscal year 1934 of certain sections or parts of sections of the so-called Economy Act of June 30, 1932, which, by the terms of that act, are now limited in their application to the fiscal year 1933. The recommendation for the continuance of these sections of the Economy Act will be found in the general provisions which have been incorporated in the chapter of this Budget pertaining to the Post Office Department. These provisions have been inserted in that chapter for the reason that it has been the general policy of Congress to include in the consolidated act making appropriations for the Treasury and Post Office Departments general provisions which are to have application to all departments and establishments.

The provisions of section 110 of the Economy Act, which deal with the impounding of funds unexpended by reason of the operation of the provisions of Title I of that act are not, of course, recommended for continuance as the savings which will result from the continuance during 1934 of the provisions of this title have been taken into consideration in framing the estimates of appropriations for 1934, including the permanent appropriation estimates. With regard to the permanent specific appropriations there is included in the recommendations a provision that these appropriations shall be reduced for 1934 in an amount which represents the savings which will be made therefrom by the continuance of the provisions of the Economy Act.

I am recommending the retention of so much of section 202 as precludes administrative promotions, but do not recommend the continuance of that portion of said section, nor of section 203, which

for the current fiscal year requires the written authorization or approval of the President for the filling of vacant positions. This is a detail of administrative responsibility which should be restored to the heads of the departments and establishments where it has uniformly rested in the past. The estimates of appropriations for 1934 provide only for the personnel needed under the existing organizational set-up. If vacancies occur which are not necessary to be filled I am confident that we can rely upon the heads of the departments and establishments to see that they are not filled. I feel that we are weakening the responsibility which should devolve upon and be intrusted in the heads of the departments and establishments by requiring the Chief Executive to authorize or approve in writing the filling of any vacancies which may occur in their personnel.

The reductions in the estimates of appropriations contained in this Budget which are due to the recommendation that certain provisions of the Economy Act be continued in force during 1934 amount to \$97,398,000. This is exclusive of the estimates of appropriations for the Legislative branch of the Government which do not, of course, reflect the savings which would result from the continuance in 1934 of these provisions of the Economy Act. The Budget and Accounting Act of 1921 provides that the estimates for the Legislative branch of the Government shall be presented to the Congress without Executive revision. If these provisions of the Economy Act are continued in effect during 1934 they would automatically reflect a reduction in the estimates of appropriations for the Legislative establishment of approximately \$1,968,000.

MOTOR VEHICLES

The provisions which have appeared annually in the separate appropriation acts relating to the purchase, use, and general maintenance of passenger-carrying automobiles have been consolidated and appear as section 3 of the Post Office Department chapter of this Budget, in language which makes the provision applicable to the appropriations for all of the Executive departments and independent establishments for the fiscal year 1934. The adoption of a general provision will assure uniformity and avoid the necessity of carrying individual restrictions of this nature in each of the appropriation acts.

VETERANS' ADMINISTRATION

The appropriations recommended for the Veterans' Administration for 1934 amount to \$931,078,000, after deducting the savings to be accomplished by the legislation recommended above. The appropriations for 1933 total \$1,020,464,000. Without the savings now recommended above the appropriations for 1934 would exceed \$1,060,000,000. About \$21,000,000 of each of these amounts represents the cost of the

civil-service retirement and disability fund which is administered by the Veterans' Administration. Deducting this amount gives a cost for care of veterans for 1934 of \$932,956,000 as against \$999,464,000 for 1933. This would indicate a decrease of about \$66,500,000, but the Veterans' Administration will require an additional amount of about \$16,250,000 for military and naval insurance during the current fiscal year, so that the real decrease in cost for 1934 under 1933 is about \$82,750,000.

The principal items of decrease are the \$127,000,000 to be accomplished by the legislation mentioned above, and decreases in construction and in general administration. These decreases are partially offset by increases in military and naval insurance, and in military and naval compensation.

RETIREMENT FUNDS

The actuarial revaluation of the Civil Service Retirement and Disability Fund so as to cover the changes made by the act of May 29, 1930, has not been completed. Pending the completion of this revaluation the estimates for the financing of the Government's liability to the fund is presented in the same amount as has been appropriated for each of the last two years, namely, \$20,850,000.

With regard to the Foreign Service Retirement and Disability Fund the actuarial valuation shows that a Federal contribution of \$427,000 will be required for the fiscal year 1934 to maintain the solvency of the fund. The Government's liability to the fund was increased by the act approved February 23, 1931, but there has been no change in the existing statutory authorization that appropriations to meet the Government's liability should at no time exceed the total of the contributions of the Foreign Service officers and accumulated interest thereon. Under existing law there is no authorization for an appropriation for 1934 in excess of \$292,700, so that this Budget contains an estimate in that amount only.

SHIPPING BOARD

No direct appropriation for the Shipping Board shipping fund was made for 1933, the operating costs for that year being met by the authority granted by Congress to utilize balances and reserves on hand. In addition to recommending a continuance of this authority for 1934, the estimate for the shipping fund contained in this Budget provides for a direct appropriation of \$2,875,000. The requirements of the Shipping Board shipping fund to meet its operating costs is dependent upon the lines of vessels which it may operate and each line which is sold operates to reduce the amount needed. Where the sale of lines by the Shipping Board is conditional upon the private operators receiving an ocean mail contract from the Post Office Department the board should be in a position to transfer to that

department the savings which are reflected in the operating costs. For this purpose a provision has been incorporated in the estimates of appropriations for the Shipping Board to permit of the transfer of not exceeding \$4,000,000 to the Post Office Department to be available only for meeting the cost in 1934 of ocean mail contracts entered into by that department under the provisions of the Merchant Marine Act of 1928 for service upon steamship lines which may be sold by the Shipping Board.

PUBLIC WORKS

Speaking generally of public works, this program is well in advance of the country's immediate need by virtue of the vast appropriations made for this purpose as a means of increasing employment. The authorization of large programs of self liquidation works to be financed by the Reconstruction Finance Corporation provides aid to employment upon an even larger scale without burden upon the taxpayers. For this reason the estimates for public works generally for 1934 show a marked reduction below the appropriations for 1933.

FEDERAL-AID HIGHWAY SYSTEM

The authorization for appropriations for the Federal-aid highway system expires with the current fiscal year, 1933, and the unappropriated balance of the authorizations amounts to \$51,560,000. This Budget contains an estimate of appropriation of \$40,000,000 of this balance, this being the amount which will be required for expenditure in 1934 in the absence of any further legislative authorization for appropriation. I earnestly recommend to the Congress that there be no further grant of legislative authority for appropriation for Federal-aid highways until the financial condition of the Treasury justifies such action. The annual program of Federal aid for the highway system was increased from \$75,000,000 to \$125,000,000 beginning with the fiscal year 1931, and has been materially further advanced within the last two years by the appropriation of \$80,000,000 made in the Emergency Construction Appropriation Act of December 20, 1930, and the appropriation of \$120,000,000 contained in the Emergency Relief and Construction Act of July 21, 1932. I am not unmindful that these emergency appropriations, amounting to \$200,000,000, represent advances only and that under the provisions of the acts making them the entire amount, less the \$15,000,000, returnable to the United States from the authorization for 1933, is eventually to be reimbursed to the United States by deductions from the apportionments which may be made to the States under any future authorizations that may be granted for carrying out the Federal Highway Act. I do not, however, view this as a commitment which of itself necessitates further authorization for Federal appropriations until such time as the financial condition of the Treasury justifies such action.

BUILDINGS

The Federal public building program authorized by the act of May 25, 1926, is progressing satisfactorily and the activities under it have been of material assistance in the relief of the unemployed. The program involves a total expenditure for all purposes of approximately \$700,000,000, of which \$190,000,000 is for land and buildings in the District of Columbia.

In furtherance of the provisions of the enabling legislation 817 projects have been specifically authorized at limits of cost aggregating \$470,717,000. On October 31, last, 254 of these projects had been completed, 400 projects were under contract either in whole or in part, and 110 projects were being processed toward the contract stage, the drawings therefor having been completed. In accordance with provisions of the Legislative Appropriation Act for the fiscal year 1932, original limits of cost were reduced 10 per cent for over two hundred projects not under contract on July 1, 1932. Further savings have been made as a result of the decline in price of materials and it is estimated that of the \$470,717,000 specifically authorized for the 817 projects, at least \$40,000,000 will be saved and all of them completed within \$430,000,000.

In carrying on the program, including additional land in the District of Columbia, obligations aggregating \$378,804,417.52, were incurred to October 31, last, and \$261,278,065.75 actually expended.

The funds available for expenditure in the fiscal year 1933 amount to \$134,053,401.19. It is expected that this amount, together with the \$60,000,000 included in the estimates for 1934 now transmitted, will all be spent in the fiscal years 1933 and 1934.

These activities under the building program were increased to a marked degree by the appropriation of \$100,000,000 for public buildings contained in the Emergency Relief and Construction Act of 1932, which was approved on July 21, 1932. This act stipulated that the projects undertaken under the emergency appropriation should be selected from those to which funds authorized under the regular public building program had been allocated. After a comprehensive survey of applicable conditions about 410 projects have been selected and plans have been laid to proceed with the work to the end that practically all of the funds appropriated will be obligated in the fiscal years 1933 and 1934.

No provision is made for additional projects in the Budget now transmitted, other than estimates aggregating \$2,505,000 for miscellaneous projects not coming within the purview of the regular building program, as I do not deem further building at this time in the public interest.

RIVERS AND HARBORS AND FLOOD CONTROL

The estimate for the annual appropriation for the maintenance and improvement of existing river and harbor works contained in this Budget is \$39,388,129, a reduction from the comparable amount of the regular annual appropriation for 1933 of \$20,161,871. The emergency appropriations made last July for public works, with a view to increasing employment, contained \$30,000,000 for rivers and harbors, which is in addition to the annual appropriation of \$60,000,000 for 1933. Adding the estimate of appropriation for 1934 to the two appropriations for the current fiscal year will provide \$129,388,129 for the two years, or an average of nearly \$65,000,000 per year, and if there be included with these appropriations the amount of cash on hand June 30, 1932, the cash availability for river and harbor works during the fiscal years 1933 and 1934 totals approximately \$149,445,000, or an average of \$74,722,000 per year. Because of a reduction in the cost of labor and materials for work of this character the value of the work of river and harbor improvement which can be accomplished during the fiscal years 1933 and 1934 with the funds available would represent an increase of from 15 to 40 per cent, or between \$171,862,000 and \$209,223,000 at 1929 costs.

For flood control the 1934 estimates of annual appropriations provide \$19,653,424 for the Mississippi River and its tributaries and \$768,480 for the Sacramento River, reductions of \$12,066,576 and \$207,520 from comparable amounts provided in the regular annual appropriations for 1933. In addition to the regular annual appropriation of \$32,000,000 for the fiscal year 1933, there was provided \$15,500,000 for flood-control work on the Mississippi River and its tributaries by the relief act approved July 21, 1932. Adding the estimate of appropriation for 1934 to the two appropriations for the current fiscal year will provide \$67,153,424 for flood control on the Mississippi for the two years, or an average of over \$33,500,000 per year, and if the cash on hand on June 30, 1932, be included the cash availability for the two years is approximately \$85,523,000, or an average of \$42,761,000 per year. In value of work these amounts will produce an increase of between 15 and 40 per cent over the work which could have been secured with the same amounts at 1929 costs, due to the reduction which has taken place in the cost of this character of work.

The total of the estimates contained in this Budget for rivers and harbors (including maintenance and operation of Dam No. 2, Muscle Shoals) and flood control is \$71,255,217, of which \$49,935,313 is for rivers and harbors and \$21,319,904 for flood control. The total of \$71,255,217 includes \$10,868,500 to meet requirements under authorizations of law covering permanent specific and indefinite appropriations, advances, and contributions for rivers and harbors, and flood-control work.

PANAMA CANAL

For maintenance and operation of the Panama Canal and the sanitation and civil government of the Canal Zone this Budget provides for a total of \$13,106,404, after deducting \$471,718 to cover reductions based upon a continuation in 1934 of certain provisions of the Economy Act. This gives \$13,578,122 to be used for purposes of comparison with the 1933 appropriation of \$11,146,661, and indicates a net increase in 1934 of \$2,431,461. However, it is to be noted that the Budget estimate for 1933 was reduced by \$3,500,000 and the amount appropriated supplemented to the same extent by a provision in the act reading "and such sums, aggregating not to exceed \$3,500,000, as may be deposited in the Treasury of the United States as dividends by the Panama Railroad Co. in excess of 10 per centum of the capital stock of such company." While this resulted in a facial reduction in the estimate as submitted in the Budget for 1933, it did not affect any saving, as it reduced by a corresponding amount the dividends which otherwise would have been paid into the Treasury by the Panama Railroad Co. Therefore, from the standpoint of availability of funds, the 1934 estimate is \$1,068,539 below the appropriations for 1933.

TREASURY DEPARTMENT

The estimates of appropriations for the Treasury Department as presented in this Budget, aside from interest on the public debt and public-debt retirements from ordinary receipts, are \$85,166,000 less than the appropriations for 1933. Excluding the amount of deductions predicated on a continuance of certain sections of the Economy Act, which amount to approximately \$8,000,000, and taking into consideration that an additional amount of about \$40,000,000 will be required in 1933 for refunding taxes illegally collected, the net decrease, aside from the public-debt items, amounts to approximately \$37,160,000.

The principal decrease is \$148,000,000 in the items for construction of new Federal buildings. This decrease is made possible by reduced expenditure requirements amounting to \$48,000,000 under the regular public-building program and the fact that the Emergency Relief and Construction Act of 1932 provided \$100,000,000 for public buildings, which is available during 1933 and subsequent years. Among the other decreases are \$5,700,000 for customs administration, due largely to reimbursable items resulting from the decline in customs receipts; \$1,084,000 in the Coast Guard items; and \$753,000 under the Bureau of Engraving and Printing due to reduced production program.

On the increase side the main items, excluding those pertaining to the public debt, are \$68,000,000 for refunding taxes illegally collected, for which no direct appropriation was made for the current fiscal year, and \$7,715,000 for the Office of the Supervising Architect, which is

made up principally of items having to do with the operation and maintenance of the large number of Federal buildings which will be completed during 1934, the remodeling and enlarging of old buildings, and the increase in force and related expenses, both in Washington and in the field, incident to the enlarged construction program.

With regard to public-debt transactions the estimate under the permanent appropriation for 1934 for interest on the public debt shows an increase of \$85,000,000 in excess of the appropriation for 1933. There is also an increase of \$37,266,843 for public-debt retirements from ordinary receipts, consisting of the cumulative sinking fund, additional sinking-fund requirements to carry into effect the provisions of section 308 of the Emergency Relief and Construction Act of 1932, receipts from foreign governments to be applied to debt retirements, and retirements from franchise-tax receipts from Federal reserve banks.

NATIONAL DEFENSE

Excluding all items of a nonmilitary nature the estimates of appropriations contained in this Budget for national defense under the War and Navy Departments amount to \$586,447,000 as compared with appropriations of \$632,466,000 for 1933, which indicates a decrease of \$46,019,000. To obtain a proper basis for comparison, however, there should be deducted \$16,996,000, which represents the deductions made in the 1934 estimates predicated upon a continuance during that fiscal year of certain provisions of the Economy Act. On this comparable basis the decrease is slightly more than \$29,000,000.

With regard to the War Department the net decrease is \$18,215,000, which results from a large number of items of increase and decrease. The principal item of decrease is Army construction, for which \$17,414,000 was appropriated in 1933 and for which no similar item is included in this Budget. Construction under the Army housing program has progressed to such a stage that a postponement of further construction can be made at this time without detriment to the Army. Other decreases which merit mention here are \$3,590,000 in arming, equipping, and training the National Guard, effected principally by the inclusion in the estimate of appropriation of a provision temporarily suspending existing law so as to permit a reduction in the number of armory drills paid for by the United States from 48 to 24, and \$1,592,000 for citizens' military training camps, made possible by a reduction of the number of trainees to be ordered to such camps. The principal increase is \$4,483,000 for subsistence of the Army, which is due to the fact that the appropriation for 1933 was supplemented by \$5,435,000 of excess stock and funds accumulated from prior year appropriations—no similar assets being available for 1934. There is also an increase of \$1,243,000 for transportation of the Army, required principally for the procurement of

trucks and ambulances and the transportation of Army supplies and its personnel and baggage.

Provision is made in these estimates for average active strengths of 12,000 commissioned officers, 883 warrant officers, and 118,750 enlisted men of the Regular Army, and 6,500 enlisted men of the Philippine Scouts; for an actual average strength of 185,000 officers and men of the National Guard; for the training of 16,722 members of the Organized Reserves for varying periods; for the enrollment and instruction of 127,565 students in the Reserve Officers' Training Corps units in schools and colleges, and the training of 7,200 of this number in 30-day camps; and for 30 days' attendance at citizens' military training camps of 13,000 trainees. The estimates for 1934 make provision for the adequate maintenance and operation of Army Air Corps activities and for the procurement of 375 new airplanes, which will give the Air Corps a total of 1,537 airplanes, on hand and on order on June 30, 1934, leaving a shortage of only 111 in the approved program of 1,648 airplanes for the Regular Army.

For the Navy Department the net decrease in the estimates for 1934 from the appropriations for 1933 is \$10,807,000. There is a reduction of \$12,554,000 for ordinary maintenance and operating expenses; \$10,240,000 for public works projects, and \$9,450,000 in the amount for modernization of battleships. Offsetting these reductions, totaling \$32,244,000, is an increase of \$21,437,000 for construction of new vessels.

The items for ordinary maintenance and operation provide for maintaining during the fiscal year 1934 an average of 79,700 enlisted men of the Navy, the same as provided for 1933, and an average of 13,600 enlisted men of the Marine Corps as compared with an average of 15,343 men provided for 1933.

The estimate of \$4,400,000 included in this Budget for modernization of battleships is sufficient to complete work on two battleships and to carry forward work on the other ship now in dock.

For construction of new vessels the 1934 estimates total \$38,845,000. This sum, together with the amount of \$5,000,000 to be transferred to this account from the naval supply account fund and an estimated balance of \$9,525,000 to be carried over from 1933, will make available for 1934 a total of \$53,380,000. This amount is ample to continue work at a normal rate of progress on all vessels now under way, and, in addition, on one 8-inch cruiser to be laid down in January, 1933, another such cruiser to be laid down in January, 1934, and four destroyers to be laid down in the first half of the fiscal year 1934. The amount appropriated for 1933 for construction of new vessels was \$18,063,000. In addition, \$7,000,000 was authorized to be transferred from other appropriations and a balance of \$37,817,000 was carried over from 1932, making a total availability for 1933 of \$62,880,000. While the estimates for vessel construction for 1934

are about \$21,000,000 in excess of the appropriation for 1933, the availability for 1934 will be some \$9,500,000 less than the availability for 1933. This difference is largely accounted for in the estimated savings due to the continuation of provisions of the Economy Act and the anticipated reduction in labor costs.

The present schedule of wages for per diem employees of the Naval Establishment has been in effect since January 1, 1929. A provision of the Economy Act prohibits a reduction in such wage rates during the fiscal year 1933. This provision is not recommended for continuation through 1934.

A total decrease of \$4,576,000 in the cost of national defense is reflected in this Budget by the inclusion in the Post Office Department chapter of a general provision suspending, for the fiscal year 1934, the reenlistment allowance or "bonus" to enlisted men. There is certainly at this time no necessity of the military service which justifies the payment of a cash bonus to men for reenlisting in the service.

UNEXPENDED BALANCES

Following the policy which I have uniformly pursued and which has had the concurrence of the Congress, I am not recommending that the requirements for 1934 be met in part by a reappropriation or extension of the availability of unexpended balances of appropriations for the fiscal year 1933 except in those cases in which moneys appropriated for a specific nonrecurring project remain unexpended and it is necessary to continue the availability of the funds for the same purpose or purposes for which originally appropriated.

CONCLUSION

Notwithstanding the large reduction in expenditures estimated for the current fiscal year below those in the fiscal year 1932 and the increased revenues anticipated during this year under the revenue laws enacted at the last session of Congress, a large excess of expenditures with consequent increase in the public debt is anticipated for the current fiscal year.

Such a situation can not be continued without disaster to the Federal finances. The recommendations herein presented to the Congress for further drastic reductions in expenditures and increased revenues will serve to prevent a further increase in the public debt during the fiscal year 1934 only if Congress will refrain from placing additional burdens upon the Federal Treasury.

I can not too strongly urge that every effort be made to limit expenditures and avoid additional obligations not only in the interest of the already heavily burdened taxpayer but in the interest of the very integrity of the finances of the Federal Government.

HERBERT HOOVER.

DECEMBER 5, 1932.

APPENDIX

TEXT OF LEGISLATION RECOMMENDED IN THE "MESSAGE TRANSMITTING THE BUDGET"

"COMPENSATION REDUCTION OF FEDERAL EMPLOYEES"

"During the fiscal year ending June 30, 1934—

"(a) The compensation for each civilian office, position, or employment in any branch or service of the United States Government or the government of the District of Columbia is hereby reduced as follows: Compensation at an annual rate of \$1,000 or less shall be exempt from reduction; and compensation at an annual rate in excess of \$1,000 shall be reduced by eleven per centum of the amount thereof in excess of \$1,000.

"(b) The term 'compensation' shall be defined and computed as provided in subsections (b) and (c) of section 104 of Part II of the act entitled 'An act making appropriations for the Legislative branch of the Government for the fiscal year ending June 30, 1933, and for other purposes,' approved June 30, 1932, in so far as such subsections are applicable to any civilian office, position, or employment.

"(c) In the case of a corporation the majority of the stock of which is owned by the United States, the holders of the stock on behalf of the United States, or such persons as represent the interest of the United States in such corporation, shall take such action as may be necessary to apply the provisions of subsection (a) herein to offices, positions, and employments under such corporation and to officers and employees thereof.

"(d) The reduction provided herein shall not apply to any office, position, or employment the amount of compensation of which is expressly fixed by international agreement; any office, position, or employment the compensation of which is paid under the terms of any contract in effect on the date of the enactment of this act if such compensation may not lawfully be reduced; any office the compensation of which may not, under the Constitution, be diminished during the term of office; any office, position, or employment the compensation for which is adjustable to conform to the prevailing local rate for similar work, but the wage board or other body charged with the duty of making such adjustment shall take such action as may be necessary to make such adjustment effective July 1, 1933; nor to any office, position, or employment the compensation for which is derived from assessments on banks and/or is not paid from the Federal Treasury."

NOTE.—The reductions to be accomplished by the foregoing legislation amount in all to approximately \$55,382,000. This pertains to all of the appropriation items which make provision for personal services. A statement will be made available to the proper committees of Congress showing the amount of the reduction which pertains to each appropriation item.

“PROVISIONS AFFECTING VETERANS’ ADMINISTRATION

“(a) Income limitations: Notwithstanding the provisions of law in effect at the date of enactment of this act, except as to those persons who have attained the age of sixty-five years, or those persons who served in the active military or naval forces and who actually suffered an injury or contracted a disease in line of duty as a result of and directly attributable to such service, or those persons who, in accordance with the World War Veterans’ Act, 1924, as amended, or the laws granting military or naval pensions, are temporarily totally disabled or permanently and totally disabled as a result of disease or injury acquired in, or aggravated by, active military or naval service, or those persons who while in the active military or naval service engaged in actual combat with, were under actual fire of, or served in the zone of active hostilities against, the armed forces of the enemy in any war in which the United States was engaged, no allowance, compensation, retired pay, pension, hospitalization or domiciliary care under the War Risk Insurance Act, as amended, the World War Veterans’ Act, 1924, as amended, the laws governing the granting of Army and Navy pensions, the laws governing the granting of domiciliary care by the Veterans’ Administration, or the Emergency Officers’ Retirement Act of May 24, 1928, shall be payable or granted to any person whose net income as defined by the Administrator of Veterans’ Affairs, was \$1,500 or over, if single, and \$3,500 or over, if married, for the year preceding the enactment of this act or the year preceding the filing of application for benefits, whichever is the later. The minimum amounts above specified shall be increased by \$400 for each person dependent upon the applicant during the period prescribed. Such benefits shall not be paid or granted during any year following that in which the net income plus allowance for dependents exceeds the prescribed amounts: *Provided*, That irrespective of the income for a preceding year, upon submission of proof satisfactory to the administrator of reduction in income during the current year below the amounts specified herein, when prorated monthly, such benefits as may otherwise be authorized shall be allowable from the date of administrative determination. Payments of Government insurance, allowance, compensation, retired pay, or pension shall not be considered as income within the provisions of this section. The Secretary of the Treasury is hereby directed upon request, to transmit to the administrator a certificate containing the information required by the administrator to carry out the purposes of this section affecting each person who is applying for or receiving such allowance, compensation, retired pay, pension, hospitalization, or domiciliary care, and such certificate shall be conclusive evidence of the facts stated therein. As to allowance, compensation, retired pay or pension being paid, or hospitalization or domiciliary care being furnished, at the date of enactment of this act, this section shall

take effect six months after such date, and no continuance or granting of allowance, compensation, retired pay, pension, hospitalization, or domiciliary care shall thereafter be authorized except in accordance herewith. As to pending claims and claims filed after the date of enactment of this act, the provisions of this section shall take effect on such date: *Provided*, That this section shall not apply to such persons as are entitled to benefits described in this section on account of the death of any person who served in the active military or naval service.

“(b) Disability allowance: Notwithstanding the provisions of law in effect at the date of enactment of this act, no disability allowance under the World War Veterans’ Act, 1924, as amended, shall be payable to any former soldier, sailor, or marine who is not totally and permanently disabled under the laws and regulations governing the payment thereof: *Provided*, That payment of disability allowance to those former soldiers, sailors, or marines in receipt thereof at the date of enactment of this act shall continue until the first day of the third calendar month following the month during which this act is enacted but no continuance or granting of disability allowance shall thereafter be authorized except in accordance with this section.

“(c) Veterans in institutions: The first two paragraphs of subdivision (7) of section 202 of the World War Veterans’ Act, 1924, as amended (U. S. C., Supp. V, title 38, sec. 480), are hereby amended to read as follows:

“Effective as of the first day of the third calendar month following the month during which this amendatory act is enacted, where any person shall have been maintained as an inmate of the United States Soldiers’ Home, or of any National or State Soldiers’ Home, or of Saint Elizabeths Hospital, or maintained by the Veterans’ Administration in an institution or institutions, for a period of thirty days or more, the compensation, pension, allowance, or retired pay under the Emergency Officers’ Retirement Act of May 24, 1928, shall thereafter not exceed \$20 per month so long as he shall thereafter be maintained: *Provided*, That if such person has a wife, a child or children, or dependent parent or parents, the difference between the \$20 and the amount to which the veteran would otherwise be entitled except for the provisions of this subdivision may be paid to the wife, child or children, and dependent parent or parents in accordance with regulations prescribed by the administrator.

“All or any part of such compensation, pension, allowance, or retired pay under the Emergency Officers’ Retirement Act of May 24, 1928, of any mentally incompetent inmate of such institution may, in the discretion of the administrator, be paid to the chief officer of said institution to be properly accounted for and to be used for the benefit of such inmate: *Provided, however*, That in any case where the estate of such mentally incompetent veteran without dependents, derived from funds paid under the War Risk Insurance Act, as amended, the

World War Veterans' Act, 1924, as amended, the laws governing the granting of Army and Navy pensions, or the Emergency Officers' Retirement Act of May 24, 1928, equals or exceeds \$3,000, payment of compensation, pension, allowance, or retired pay shall be discontinued until the estate is reduced to \$3,000, and this proviso shall apply to payments due or accruing prior or subsequent to the date of enactment of this amendatory act: *Provided further*, That if such person shall recover his reason and shall be discharged from such institution as competent, such sum shall be paid him as is held in trust for him by the United States or any chief officer of an institution as a result of the laws in effect prior and/or subsequent to the enactment of this amendatory act: *Provided further*, That if in the judgment of the administrator a mentally incompetent person without dependents, receiving compensation, pension, allowance, or retired pay under the Emergency Officers' Retirement Act of May 24, 1928, requires institutional care for his mental condition and his guardian or other person charged with his custody refuses to accept or permit the continuance of the institutional care offered or approved by the administrator, compensation, pension, allowance, or retired pay under the Emergency Officers' Retirement Act of May 24, 1928, payable, shall not exceed \$20 per month so long as the need for such institutional care shall continue. The administrator in his discretion, upon showing of proper treatment in a recognized reputable private institution, may waive the reduction provided by this subdivision.

"All pensioners who are or may, from the date of enactment of this amendatory act, become inmates of the naval home at Philadelphia, Pennsylvania, a naval hospital, the United States Soldiers' Home, Washington, District of Columbia, or of the Veterans' Administration homes, or of Saint Elizabeths Hospital shall have the pension to which they are entitled paid to them directly or to their guardians in case they be insane or otherwise incompetent and under guardianship, except as to payments made to the chief officer of an institution as provided in the preceding paragraph of this section, provided that from and after the enactment of this amendatory act the payment of pensions in all cases where pensioners are under guardianship may be made to the legal guardians of such persons without submission of vouchers.'

"(d) Arrested tuberculosis: That paragraph 3 of section 202(7) of the World War Veterans' Act, as amended (U. S. C., title 38, sec. 480), is hereby amended by adding at the end thereof the following proviso:

"*Provided further*, That the compensation of not less than \$50 per month shall be terminated effective six months after the approval of this amendatory act or five years after the effective date of the award of \$50 per month, whichever is the later.'

“(e) Emergency officers’ retired pay: In the administration of the act of May 24, 1928, entitled ‘An act making eligible for retirement, under certain conditions, officers and former officers of the Army, Navy, and Marine Corps of the United States, other than officers of the Regular Army, Navy, or Marine Corps, who incurred physical disability in line of duty while in the service of the United States during the World War’ (U. S. C., Supp. V, title 38, secs. 581 and 582), no officer or former officer shall receive retired pay thereunder, unless he served as a member of the Military or Naval Establishment between April 6, 1917, and November 11, 1918, inclusive, and within such period actually contracted a disease or suffered an injury in line of duty as the result of and directly attributable to such service, or unless he served a period of ninety days or more between April 6, 1917, and November 11, 1918, inclusive, and actually contracted a disease or suffered an injury in line of duty as the result of and directly attributable to service between November 12, 1918, and July 2, 1921, inclusive, and unless he has been or is found by the former Veterans’ Bureau or the Veterans’ Administration to be not less than 30 per centum permanently disabled as a result thereof prior to May 24, 1928, or within one year thereafter, in accordance with the rating schedule and amendments promulgated pursuant to subdivision (4) of section 202 of the World War Veterans’ Act, 1924, as amended (U. S. C., title 38, sec. 477), in force at that time, and unless he is found by the Veterans’ Administration to be not less than 30 per centum permanently disabled at the time of the enactment of this act under such rating schedule as amended and in effect at the date of the enactment of this act: *Provided*, That no person shall be retired without pay except in accordance with the foregoing provisions of this section, except that the degree of disability required for retirement without pay shall be less than 30 per centum and more than 10 per centum permanent disability.

“The Veterans’ Administration is hereby authorized and directed to review all claims heretofore filed under the Emergency Officers’ Retirement Act of May 24, 1928, and to remove from the rolls of retired emergency officers the names of such officers as are not found to be entitled to retirement under the first paragraph of this section. The Administrator of Veterans’ Affairs is further authorized and directed to cause to be certified to the Secretary of War, or the Secretary of the Navy, as the case may be, the names of those officers who are removed from the rolls, and the Secretary of War and the Secretary of the Navy are hereby authorized and directed to drop from the emergency officers’ retired list and the Army and Navy registers the names of such officers. Payment of emergency officers’ retired pay, in the case of any officer whose name is removed from the rolls or transferred to the list of those retired without pay by reason of the provisions of this section, shall cease on the first day of the

third calendar month following the month during which certification or transfer is made, as the case may be. The Administrator of Veterans' Affairs is hereby authorized and directed to transfer the name of each officer removed from the rolls of those entitled to emergency officers' retired pay, to the compensation rolls of the Veterans' Administration and to pay, commencing with the first day of the third calendar month following the month during which certification is made by the administrator of the name of the officer removed from the rolls, as herein provided, compensation in accordance with the provisions of the World War Veterans' Act, 1924, as amended, notwithstanding that no previous application for compensation has been made.

"The review of all claims authorized and directed under the second paragraph of this section shall be final, except for one reconsideration. No rerating or review shall thereafter be authorized in such claims.

"After the expiration of one year following the enactment of this act no review, appeal, or other consideration shall be authorized in connection with any claim for emergency officers' retirement upon which a decision has at any time been rendered by the Veterans' Administration or Bureau.

"No person shall be entitled to benefits under the provisions of this section, except he shall have made valid application under the provisions of the Emergency Officers' Retirement Act of May 24, 1928.

"All provisions of the Emergency Officers' Retirement Act of May 24, 1928, in conflict with or inconsistent with the provisions of this section are hereby modified and amended to the extent herein specifically provided and stated as of the date of enactment, May 24, 1928.

"(f) Repeal of per diem allowances: Section 203 of the World War Veterans' Act, 1924, as amended (U. S. C., Supp. V, title 38, sec. 492), is hereby amended to read as follows:

"SEC. 203. That every person applying for or in receipt of compensation for disability under the provisions of this title and every person applying for treatment under the provisions of subdivisions (9) or (10) of section 202 hereof, shall, as frequently and at such times and places as may be reasonably required, submit himself to examination by a medical officer of the United States or by a duly qualified physician designated or approved by the administrator. He may have a duly qualified physician designated and paid by him present to participate in such examination. For all examinations he shall, in the discretion of the administrator, be paid his reasonable traveling and other expenses. If he shall neglect or refuse to submit to such examination, or shall in any way obstruct the same, his right to claim compensation under this title shall be suspended until such neglect, refusal, or obstruction ceases. No compensation shall

be payable while such neglect, refusal, or obstruction continues, and no compensation shall be payable for the intervening period.'

"(g) Limitation of retroactive benefits: Section 205 of the World War Veterans' Act, 1924, as amended (U. S. C., title 38, sec. 494), is hereby amended to read as follows:

"'SEC. 205. The Veterans' Administration may at any time review a claim for benefits under this act, or the laws governing the granting of Army and Navy pensions, and in accordance with the facts found and the law applicable, award, end, diminish, or increase allowance, compensation, or pension, but no allowance, compensation, or pension shall be awarded as a result of such review for any period more than six months prior to date of administrative determination. Where the time for appeal prescribed by regulations has expired a claimant may make application for review upon the evidence of record at the time of the last adjudicatory action but no allowance, compensation, or pension, or increased allowance, compensation, or pension, as a result of such review, shall be awarded for any period more than six months prior to date of application. No review of any claim shall be made except as provided herein. Except in cases of fraud participated in by the beneficiary, no reduction in allowance, compensation, or pension shall be made retroactive, and no reduction or discontinuance of allowance, compensation, or pension shall be effective until the first day of the third calendar month next succeeding that in which such reduction or discontinuance is determined. The proviso in the paragraph under the heading "Pension Office" in the act entitled "An act making appropriations to supply further urgent deficiencies in the appropriations for the fiscal year ending June 30, 1894, and for prior years, and for other purposes," approved December 21, 1893 (U. S. C., title 38, sec. 56), is hereby repealed.'

"(h) Transfer from compensation to pension rolls: The first paragraph of section 200 of the World War Veterans' Act, 1924, as amended (U. S. C., Supp. V, title 38, sec. 471), is hereby amended by striking out the period at the end thereof and inserting in lieu thereof a colon and the following:

"'Provided further, That where no active military or naval service was rendered between April 6, 1917, and November 11, 1918, no compensation shall be payable for disability or death resulting from injury suffered or disease contracted during active service in an enlistment entered into after November 11, 1918, or for aggravation or recurrence of a disability existing prior to examination, acceptance, and enrollment for service, when such aggravation was suffered or contracted in, or such recurrence was caused by, the active military or naval service in an enlistment entered into after November 11, 1918: *Provided further*, That the Administrator of Veterans' Affairs is hereby authorized and directed to transfer to the general pension rolls for the Regular Establishment the names of those persons in

receipt of compensation who, by reason of the enactment of this amendatory act, are no longer entitled to compensation, and to pay such persons pension in accordance with the rates provided for their disabilities under the general pension laws, but this transfer shall not take effect until six months following the date of the enactment of this amendatory act: *Provided further*, That this act, as amended, and the laws governing the granting of Army and Navy pensions shall not be construed to deny the right of any person to receive pension on account of active military or naval service subsequent to November 11, 1918: *Provided further*, That the provisions of section 602 of the World War Veterans' Act, 1924, as amended, shall not be construed to authorize the payment of compensation contrary to the provisions of this amendatory act.'

"(i) Testimony in suits upon insurance claims: The first paragraph of section 19 of the World War Veterans' Act, 1924, as amended (U. S. C., Supp. V, title 38, sec. 445), is hereby amended by striking out the period at the end thereof and inserting in lieu thereof a colon and the following:

"*'Provided further*, That in any suit tried under the provisions of this section the court shall not receive, admit, or entertain the testimony of any person whose statement has not been submitted to the United States Veterans' Bureau or the Veterans' Administration prior to the denial of the claim sued upon, and the date of issuance of the letter of disagreement required by this section shall be the date of denial of the claim, except that if in a preliminary proceeding prior to trial of the claim sued upon, it is shown by the plaintiff to the satisfaction of the court that relevant and material testimony is available from any person whose statement has not been submitted to the United States Veterans' Bureau or the Veterans' Administration prior to the denial of the claim sued upon, the court shall stay all proceedings in the suit until the statement of such person is submitted to the Administrator of Veterans' Affairs, who shall cause the claim to be immediately reviewed, and in case the administrator allows such claim, the suit shall be dismissed but if the administrator disallows the claim, such person may be a witness in the trial of the cause: *Provided further*, That the last preceding proviso shall apply to all suits pending on the date of the enactment of this amendatory act against the United States under the provisions of the War Risk Insurance Act, as amended, or this act, as amended.'

"(j) Revival of Government insurance restricted: Sections 305 and 309 of the World War Veterans' Act, 1924, as amended (U. S. C., Supp. V, title 38, secs. 516, 516b), are hereby repealed as of the date of their enactment, and notwithstanding the provisions of section 602 of the World War Veterans' Act, 1924, as amended (U. S. C., title 38, sec. 571), no additional payments shall be made under such sections or the third proviso of section 408 of the War Risk Insurance Act, as

amended, except to those persons actually receiving payments on the date of enactment of this act, or in those claims where, prior to the date of the enactment of this act, it has been determined by the Veterans' Administration that all or part of the insurance is payable under such sections and the interested person or persons entitled thereto have been informed of such determination: *Provided*, That where a beneficiary receiving insurance payments under such sections dies and there is surviving a widow, child or children, or dependent mother or father, of the veteran, the remaining unpaid installments shall be paid to the following permitted class of beneficiaries in the following order of preference: (1) To the widow of the veteran if living at date of death of the beneficiary; (2) if no widow, then to the child or children of the veteran, share and share alike; (3) if no wife child or children, then to the dependent mother of the veteran; (4) if no wife, child or children, or dependent mother, then to the dependent father of the veteran, but no payments under this proviso shall be made to the heirs or legal representatives of any beneficiaries in the permitted class who die before receiving the monthly installments to which they are entitled and the remaining unpaid installments shall be paid to the beneficiary or beneficiaries in the order of preference prescribed in this proviso."

NOTE.—The reductions to be accomplished by the legislation recommended above pertain to appropriations for the Veterans' Administration as follows:

Salaries and expenses.....	\$2,300,000
Army and Navy pensions.....	11,241,000
Military and naval compensation.....	107,479,000

Total reductions.....	-----	-----	-----	-----	-----	-----	-----	-----	—37,830,671

The total reduction of \$37,830,671 includes \$1,938,462 due to reductions predicated on continuing, during the fiscal year 1934, certain provisions of the economy act, leaving a further reduction of \$35,892,209, the details of which are as follows:

EXECUTIVE OFFICE

Annual appropriations:

There is an increase of \$6,180 to obviate the necessity for administrative furloughs during 1934.

AMERICAN BATTLE MONUMENTS COMMISSION

Annual appropriation:

Appropriations made for the commission are available until expended. Total authorization is \$5,022,866.93, of which \$4,500,000 is for construction activities. Total amount thus far appropriated for all purposes is \$4,875,000. Total expenditures for all purposes to June 30, 1932, were \$4,148,476.27. The amount approved for 1934 will enable the commission to complete its construction program and leave a balance for necessary nonconstruction activities during that year.

ARLINGTON MEMORIAL BRIDGE COMMISSION

Annual appropriation:

There is a reduction of \$40,000, made possible by putting off certain construction work which it is believed may be temporarily deferred without loss to the Government.

BOARD OF MEDIATION

Annual appropriations:

There is a reduction of \$4,135, which is accounted for by a saving of \$10,000 in rental of office quarters, the board having been assigned space in a Government-owned building, and an increase of \$5,865 in order to eliminate administrative furloughs during 1934. For "Salaries and expenses, arbitration boards" and "emergency boards" provision has been included for continuing during the fiscal year 1934 the unexpended balances of prior appropriations.

BOARD OF TAX APPEALS

Annual appropriations:

There is an increase of \$40,000, due to an increase of \$30,090 to obviate the necessity for administrative furloughs for 1934, and an increase of \$10,300 for miscellaneous expenditures. There is a reduction of \$390 for personal services.

BUREAU OF EFFICIENCY

Annual appropriations:

There is a decrease of \$150 for printing and binding.

CHICAGO WORLD'S FAIR CENTENNIAL CELEBRATION COMMISSION

Annual appropriation:

No estimate is submitted for 1934, as it is believed the amount appropriated for the celebration in 1933 will be sufficient to carry it to completion.

CIVIL SERVICE COMMISSION

Annual appropriations:

The Personnel Classification Board was transferred to the Civil Service Commission October 1, 1932, under authority of the economy act. In order that comparison may be made between full-year appropriations and Budget estimates, the expenditures of both activities for 1932, the appropriations for 1933, and the estimates for 1934, were consolidated. This synopsis, therefore, relates to the combined estimates of the two establishments.

There is an increase of \$28,884 in the total estimates, which involves a decrease of \$98 in the estimate for "Salaries, Civil Service Commission," an increase of \$19,000 for travel, and an increase of \$9,982 for contingent expenses. While the change in the total is small, changes occurring within some of the estimates are considerable. For instance: In the salaries estimate above mentioned, the amount for personal services is reduced \$111,435, and the number of employees, 39. This reduction slightly exceeds the amount shown for administrative furloughs for 1933 under this estimate. There is a reduction of \$38,800 for personal services in the estimate for the commission's field force, this reduction equaling the amount of administrative furloughs shown in the appropriation set-up for 1933. In the estimate for salaries and expenses, examination of presidential postmasters, there is a reduction of \$4,090, which is likewise the amount of the administrative furloughs carried under this appropriation item for 1933. No funds are included in any estimate for 1934 to offset administrative furloughs for 1933.

COMMISSION OF FINE ARTS

Annual appropriations:

The increase of \$1,975 includes increases as follows: Travel, \$1,117; miscellaneous expenses, \$175; personnel, \$683. This increase in personnel will eliminate administrative furloughs.

EMPLOYEES' COMPENSATION COMMISSION

Annual appropriations:

There is an increase of \$50,000 in the compensation fund to enable the commission to take care of increases in the number of claims filed and to provide for the increased cumulative cost of death and permanent disability claims, and an increase of \$18,500 for personnel which will eliminate the necessity for administrative furloughs.

Permanent appropriations:

There is an increase of \$1,000 under the commission's trust fund which it is anticipated will be received and invested during the fiscal year 1934.

FEDERAL BOARD FOR VOCATIONAL EDUCATION

Annual appropriations:

This estimate provides an increase of \$19,500 for the promotion of vocational education in Puerto Rico and of \$3,540 for general miscellaneous expenses of the board.

FEDERAL FARM BOARD

Annual appropriations:

For administrative expenses of the board \$800,000 of the unexpended balances of prior appropriations was con-

tinued available for 1933. For 1934 the estimate provides for continuing the availability of \$1,000,000, making an increase of \$200,000 to eliminate the necessity for administrative furloughs.

The reduction of \$40,000,000 is caused by the omission for 1934 of that amount which was appropriated for 1933 for the distribution of Government-owned wheat and cotton.

FEDERAL HOME LOAN BANK BOARD

Annual appropriation:

For the fiscal year 1933 the act creating the board authorizes an appropriation of \$300,000, of which \$250,000 was appropriated for salaries and expenses.

Permanent appropriation:

For the fiscal year 1934 and subsequent years the act authorized the board to levy semiannually upon Federal home loan banks an assessment sufficient for the payment of its estimated expenses for the ensuing half year, which constitutes a permanent indefinite appropriation.

FEDERAL OIL CONSERVATION BOARD

Annual appropriation:

The estimate provides an increase of \$1,252 for the general miscellaneous expenses of the board.

FEDERAL POWER COMMISSION

Annual appropriations:

There is an increase of \$500 for printing and binding. Within the salaries and expenses estimate there is an increase of \$13,178 for personal services, and an increase of \$433 to obviate the necessity for administrative furloughs during 1934, which two increases are offset by a decrease of \$13,611 involving eight of the nine items listed under "Other expenditures."

Permanent appropriation:

The increase of \$9,000 provides for additional payments to States under the Federal water power act.

FEDERAL RADIO COMMISSION

Annual appropriations:

The estimate for 1934 involves changes as follows: Decrease in personnel of \$28,707, in rents of \$13,567, and an increase of \$10,000 for printing and binding. The decrease in personnel and rents is due to the transfer of the Radio Division, Department of Commerce, to the commission on July 20, 1932, by Executive Order No. 5892 under the authority contained in sections 511 to 514, inclusive, of the legislative appropriation act for the fiscal year 1933, approved June 30, 1932.

FEDERAL RESERVE BOARD

Permanent appropriation:

The increase of \$38,543 represents an increase in the estimated expenditures of the board, which are met by assessments on the Federal reserve banks.

FEDERAL TRADE COMMISSION

Annual appropriations:

The decrease of \$261,500 in the estimate for salaries and expenses includes a reduction of \$42,147 for miscellaneous expenses and a reduction of \$219,353 for personal

services, due to the practical completion of certain major investigations undertaken in compliance with congressional resolutions. There is also a reduction of \$10,000 in the estimate for printing and binding.

GENERAL ACCOUNTING OFFICE

Annual appropriations:

The estimate involves a decrease of \$12,620 in personnel and an increase of \$5,000 for contingent expenses, making a net reduction of \$7,620.

GEORGE ROGERS CLARK SESQUICENTENNIAL COMMISSION

Annual appropriation:

This commission was created by the act of May 23, 1928, for the purpose of completing the construction of a permanent memorial in the West of the Revolutionary War. The authorization for the project is \$1,500,000, of which \$1,400,000 has been appropriated.

GEORGE WASHINGTON BICENTENNIAL COMMISSION

Annual appropriation:

No estimate is submitted for 1934. The appropriation for 1933 of \$200,000, together with an unexpended balance of \$160,768 from previous years, will enable the commission to carry to completion its work incident to the celebration of the George Washington Bicentennial.

INTERSTATE COMMERCE COMMISSION

Annual appropriations:

There is an increase of \$549,794, which is made up of the following increases and decreases: Increases—To obviate the necessity for administrative furloughs during 1934, \$753,163; travel, \$95,652; miscellaneous objects of expenditure, \$37,861. There is a net decrease for personal services of \$336,882. A drastic reduction occurs in valuation of property of carriers, the amount for personal services being reduced \$482,158.

Permanent appropriations:

The estimate for the general railroad contingent fund is reduced \$400,000.

MOUNT RUSHMORE NATIONAL MEMORIAL COMMISSION

Annual appropriation:

This commission was created by the act of February 25, 1929, to carry on to completion the carving of a memorial on Rushmore Mountain in the Black Hills of South Dakota to commemorate the foundation, expansion, preservation, and unification of the United States.

The authorization for the purpose was \$250,000 of which amount \$185,000 has been appropriated. No estimate is presented for 1934 but the Budget continues the availability of the unexpended balances of the appropriations for the fiscal years 1932 and 1933.

NATIONAL ADVISORY COMMITTEE FOR AERONAUTICS

Annual appropriation:

The increase of \$1,000 is for printing and binding.

OFFICE OF PUBLIC BUILDINGS AND PUBLIC PARKS OF THE NATIONAL CAPITAL

Annual appropriations:

The increase of \$400,567, includes increases as follows: Personal services, \$300,000; development of the Mall, \$100,000; printing and binding, \$1,000; Mount Vernon Highway police, \$10,500. There is a decrease of \$10,933 in miscellaneous expenditures.

The increase shown for personal services is explained as follows: \$76,110, due to the acquisition for maintenance and operation of the Hurley-Wright Building, the building at 1800 E Street NW., and the new Public Health Service Building; \$115,107, to obviate during 1934 the necessity for administrative furloughs as shown in the estimate for salaries and for general expenses; and \$108,783 to provide funds for employees now carried in the general expenses appropriation because of a reduction in the salaries appropriation for 1933. The increase allowed for the Mount Vernon Highway police force is required in order to furnish better protection for the new highway and protection to additional landscape improvements. The \$100,000 allowed for the development of the Mall is for the construction of a parkway in connection with the enlarging of the Capitol Grounds under the provisions of the act of March 4, 1929. The Mall project was started during 1932 with an appropriation of \$100,000, but no appropriation was made for it for 1933. The increase of \$1,000 for printing and binding is to provide for an increased quantity of record forms made necessary by the taking over of additional buildings, and to permit printing in lieu of mimeographing where the latter is the more expensive process.

PUBLIC BUILDINGS COMMISSION

Annual appropriation:

The reduction of \$8,025 represents the amount of the legislative furlough for 1934.

SMITHSONIAN INSTITUTION

Annual appropriations:

There are increases as follows: For printing and binding, \$27,578; for supplies and materials, \$5,000; for purchase of electric current, \$3,000; for equipment, \$3,000; for miscellaneous expenses, \$717. There is a net decrease of \$740 for personnel.

Permanent appropriation:

The appropriation of \$60,000 is a permanent specific appropriation for payment of a fixed interest charge on a fund deposited with the Treasury.

SUPREME COURT BUILDING COMMISSION

Annual appropriation:

This appropriation is available until expended. The amount authorized to be appropriated for construction is \$9,740,000. Under this authorization there has been appropriated to date \$6,250,000. In addition appropriations have been made for site to the amount of \$1,768,741.

TARIFF COMMISSION

Annual appropriations:

While there is no increase in the total estimate, there is an increase of \$4,898 for personal services and a corresponding decrease in travel expenses.

UNITED STATES GEOGRAPHIC BOARD

Annual appropriations:

There is an increase of \$742 for personnel to eliminate the necessity for administrative furloughs and of \$100 for miscellaneous expenses.

UNITED STATES SHIPPING BOARD AND MERCHANT FLEET CORPORATION

Annual appropriations:

There is a decrease of \$3,352 in the salaries and expenses estimate of the Shipping Board, which includes

a decrease of \$2,352 for personal services, a decrease of \$200 for communication service, and a decrease of \$800 for equipment.

The amount allowed for the Merchant Fleet Corporation is \$3,000,000 less legislative furloughs. No estimate for the corporation was included in the 1933 Budget, as the corporation had sufficient funds on hand for its operations during 1933. The amount approved for 1934, as above stated, supplemented by funds which it is anticipated will be available for 1934 from receipts for that year, will be necessary for operations during 1934. The cost of operations of the Merchant Fleet Corporation will decrease from year to year to the extent to which it is able to dispose of its vessels to private concerns. For the purpose of encouraging such disposition of vessels, new language has been inserted in the estimate for 1934 providing that certain funds of the corporation may be transferred to the Post Office Department to meet the cost in the fiscal year 1934 of foreign-mail contracts entered into by that department under the provisions of the merchant marine act of 1928 for service upon steamship lines which may be sold by the United States Shipping Board subsequent to December 1, 1932.

Total increases.....									+40,512,834

The total gross increase is \$47,166,120. Deducting \$6,653,286, predicated on continuing, during the fiscal year 1934, certain provisions of the economy act, leaves a net increase of \$40,512,834, the details of which are as follows:

Annual appropriations:

ADMINISTRATION, MEDICAL, HOSPITAL, AND DOMICILIARY SERVICES

The estimate for this purpose for 1934 is \$110,538,514. This appropriation covers the expenses of operation of all hospitals, homes, and regional offices and the administrative expenses of the Veterans' Administration, including the travel of beneficiaries and patients, the reimburse-

ment for and payment of burial claims, and the furnishing of clothing to patients in hospitals and members of homes who are financially unable to procure such clothing for themselves.

The basis for determining the amount of the estimate is the operation of 71 hospitals and 13 homes, involving the operation of an average of 44,511 Veterans' Administration hospital beds and 23,952 Veterans' Administration domiciliary beds during the fiscal year 1934. In addition to these beds provision is made for the use and payment for an average of 8,493 beds in hospitals operated by the Army, Navy, the Public Health Service, and the Interior Department, as well as 2,248 beds in State and civil hospitals. This is a total average of 79,204 hospital and domiciliary beds for the fiscal year 1934.

This estimate also provides for the operation of other activities of the Veterans' Administration, involving the administration of benefits for compensation, pension, disability allowance, insurance, employees' retirement, and other miscellaneous matters, including the travel of beneficiaries and patients for the purpose of bringing the veterans from their homes to various points where medical examinations are made to determine their degree of disability and need for hospitalization, and to send those in need of treatment to hospitals and return them to their homes. These various expenses cover veterans of all wars and in some instances, such as domiciliary care and pensions, persons who are members of the Military Establishment in times of peace.

The net increase of \$1,280,000 is entirely for the operation of additional hospitals and homes now under construction or to be constructed and placed in operation prior to June 30, 1934. It is expected that 24,124,213 days of hospital and domiciliary relief will be rendered in 1934, which is 1,653,085 days in excess of 1933, or an increase of approximately 7 per cent, whereas the net increase in cost of operation of these facilities is approximately $1\frac{1}{10}$ per cent.

PRINTING AND BINDING

The estimate of \$150,000 for this purpose is the same as the amount appropriated for the fiscal year 1933.

MILITARY AND NAVAL COMPENSATION

This estimate of \$396,048,200 is \$40,710,000 in excess of the appropriation for 1933. This appropriation covers payment of disability compensation, disability allowance, death compensation, and emergency officers' retirement pay. All of these benefits are payments resulting from service during the World War and are still in the ascendency. Based upon experienced trends to date, it is expected that these various payments will increase in the following numbers and amounts between the dates of June 30, 1933, and June 30, 1934:

Type of benefit	Number of additional awards	Net increased expenditures
Disability compensation.....	34,348	\$18,027,286
Disability allowance.....	101,920	20,996,089
Death compensation.....	5,073	1,818,276
Emergency officers' retirement.....	—72	—131,651
Total net increase.....	141,269	40,710,000

ARMY AND NAVY PENSIONS

The amount estimated under this heading, \$219,930,000 is \$5,920,000 less than the appropriation for 1933. This appropriation covers payment of pensions to veterans of all wars and members of the peace-time Military Establishment, including dependents, under the general pension laws.

The decrease under this item is occasioned principally by the advancing age and constantly increasing death rate among the Civil War veterans and their dependents.

MILITARY AND NAVAL INSURANCE

The estimate of \$134,000,000 for 1934 for this purpose is \$17,000,000 in excess of the appropriation for 1933. However, a supplemental appropriation will be required for the fiscal year 1933 in the approximate amount of \$16,256,978. Taking this into consideration the total estimated requirements for 1933 compared with the appropriation estimate for 1934 indicates a net increase of only \$743,022.

This appropriation covers payments arising from what were known as war-risk insurance contracts. Payments are made under these contracts for death or permanent total disability incurred as the result of World War service or from other causes subsequent to the war and prior to July 2, 1927, this latter date being the limitation provided by law after which all insurance in this form was automatically terminated unless the insurance had matured by reason of death or permanent total disability.

HOSPITAL AND DOMICILIARY FACILITIES AND SERVICES

This appropriation covers the procurement of additional hospital and home facilities, subject to prior recommendation of the Federal Board of Hospitalization, and the approval of such recommendation by the President.

The amount of \$5,000,000 estimated for 1934 is the unappropriated amount of \$20,877,000 authorized by the act of March 4, 1931 (46 Stat., 1550). Public Resolution No. 3 (47 Stat., 2), authorized the contract obligation of the entire amount of the authorization act, and since the entire amount will be obligated prior to the close of the fiscal year 1933, the appropriation of the remaining \$5,000,000 is required to meet the necessary disbursements under these contracts.

STATE AND TERRITORIAL HOMES FOR DISABLED SOLDIERS AND SAILORS

The estimate of \$735,120 for 1934 for this purpose is \$13,120 in excess of the appropriation for 1933. The appropriation for 1933 was based upon an expected average of 6,017 members and during July, 1932, the membership averaged 5,739. It appears that the estimate for 1933 is substantially correct and that the average membership for 1934 will be slightly higher based upon experienced trends. The average membership for 1934 is estimated at 6,126.

The law provides for reimbursement to the States on the basis of \$120 per person annually for veterans eligible to admission in the Veterans' Administration homes but who are cared for in State homes maintained for similar purposes. Certain States have increased the capacities of their homes and as the World War veterans advance in age an increased membership in State homes may naturally be expected.

ADJUSTED-SERVICE CERTIFICATE FUND

The estimate of \$100,000,000 under this heading for 1934 is in the same amount as the appropriation for 1933. This estimate is based upon the anticipated loans and losses during the fiscal year 1934 rather than an actuarial calculation of the amount necessary to amortize, under accepted insurance principles, in 20 years from date of issuance or on the prior death of the veteran, the number of adjusted-service certificates issued to date. The necessity for this departure from procedure was manifested upon the passage of the act of February 27, 1931, authorizing loans amounting to 50 per cent of the face value of each certificate and the payment of such loans from the adjusted-service certificate fund.

ADJUSTED-SERVICE AND DEPENDENT PAY

This appropriation covers payment of the amounts due under the World War Adjusted Compensation Act in cases where such benefits are not to be covered by the issuance of an adjusted-service certificate. Sections 401, 601, 603, and 608 of the act specify the types of payments to be made from this appropriation. Except for one appropriation of \$12,000,000, this item has never been included previously in an annual bill. The first appro-

priation in the amount of \$26,629,398 was contained in the deficiency act approved December 5, 1924. The next appropriation of \$12,000,000 was included in the annual act approved March 3, 1925. These amounts were supplemented by appropriations of \$3,000,000 and \$3,926,000 by the deficiency act approved March 26, 1930, and Public Resolution No. 3, approved December 21, 1931, respectively. This latter appropriation was to cover estimated expenditures through June 30, 1933, and when submitting this estimate it was stated that in the future the necessary amounts would be requested in the annual bill.

Estimated expenditures during the fiscal year 1934, based upon current payments and experienced trends amount to \$2,670,000. However, these payments and trends also indicate an expected expenditure during 1933 of \$2,415,000 as compared to an approximate amount of \$2,250,000 available, indicating the need for an additional \$165,000. Since this appropriation has always been treated as a permanent appropriation this anticipated shortage for 1933 has been included in the 1934 estimate and provision made for immediate availability of the entire amount. This makes the total estimate for 1934 \$2,835,000.

CIVIL SERVICE RETIREMENT AND DISABILITY FUND

The estimate of \$20,850,000 is for financing the Government's contribution to the fund in accordance with law.

Although the act of May 29, 1930, changed the basis upon which the contribution is made, the actuarial valuation and survey of the fund, to determine the proper amount now due as an annual contribution, has not as yet been completed. Pending an accurate determination of this question the estimate for 1934 is submitted in the same amount as the appropriation for 1933.

Permanent appropriation:

UNITED STATES GOVERNMENT LIFE INSURANCE TRUST FUND

This estimate of \$70,890,000 for 1934 is \$775,000 less than the amount included in the 1933 Budget for similar purposes. This item is merely an estimate of withdrawals from the Treasury to meet losses, loans, and investment of premium receipts from the Government life-insurance policyholders. This fund is self-sustaining from such sources and requires no Federal appropriation.

Total reductions.....									—199,068,327

The total reduction of \$199,068,327 includes \$3,564,190 due to reductions predicated on continuing, during the fiscal year 1934, certain provisions of the economy act, leaving a further reduction of \$195,504,137, the details of which are as follows:

Annual appropriations:

OFFICE OF THE SECRETARY

This increase of \$35,214 is due to increases amounting to \$86,360 and to decreases amounting to \$51,146. The principal increase is \$75,500 for miscellaneous expenses of the department for additional fuel, electricity, moving, and equipment incidental to the completion of additional wings of the department's extensible building now under construction. The principal decreases are \$20,646 in the item of salaries, office of the Secretary, due to reorganization of the supply activities and \$25,000 for rent of buildings in the District of Columbia in anticipation of the completion of additional wings to the extensible building.

OFFICE OF INFORMATION

The decrease of \$27,297 includes a decrease of \$25,000 for printing and binding.

OFFICE OF EXPERIMENT STATIONS

The decrease of \$44,797 involves total reductions of \$52,000. There are two increases due to existing legislation; \$2,000 and \$5,000, respectively, for the experiment stations of the Territories of Hawaii and Puerto Rico. The principal decreases are \$20,000 in the item for the Federal experiment station in Puerto Rico and \$2,000 for the Hawaii station. There is also a decrease of \$30,000 due to an item in the 1933 appropriation act for expenses incidental to the closing of the insular stations in Alaska, Guam, and Virgin Islands, which does not appear in the 1934 estimate.

OFFICE OF EXTENSION SERVICE

The decrease of \$12,846 involves a decrease of \$14,715 in the item for agricultural exhibits at fairs and an increase of \$1,869 in other items.

WEATHER BUREAU

The decrease of \$204,603 includes reductions of \$92,568 for general weather service and research, \$4,200 for horticultural protection, and \$107,835 for supplying information regarding weather conditions to aviation.

BUREAU OF ANIMAL INDUSTRY

The decrease of \$83,568 includes a decrease of \$75,270 in the item for meat inspection as a result of the retirement of employees where places will not be filled and including differences in salaries of retired employees and present incumbents.

BUREAU OF DAIRY INDUSTRY

The net decrease of \$19,803 involves a decrease of \$20,000, which represents the amount appropriated in 1933 for completing the construction of a nutrition laboratory at the Beltsville, Md., experiment station of the bureau. This item was not included in the 1934 estimates.

BUREAU OF PLANT INDUSTRY

The decrease of \$69,535 includes decreases of \$29,185 for investigations relating to cereal crops, \$11,905 for forage crops and diseases, \$10,462 for sugar plant investigations and \$7,950 for western irrigation agriculture.

FOREST SERVICE

The net decrease of \$27,785 involves a decrease of \$131,244 for protection and general administration of the national forests, and an increase of \$125,800 for planting work on the national forests. This increase is to provide necessary labor to plant the nursery stock which will accumulate during the fiscal year 1933.

BUREAU OF CHEMISTRY AND SOILS

The decrease of \$3,313 involves a decrease of \$3,900 on account of the transfer of three watchmen to the office of the Secretary. There was also transferred to the bureau the sum of \$587 from the appropriation, miscellaneous expenses, Department of Agriculture.

BUREAU OF ENTOMOLOGY

The decrease of \$29,822 includes a decrease of \$4,775 for investigations relating to fruit and shade tree insects, \$4,400 for forest insects, \$10,390 for cereal and forage insects and \$5,820 for household and stored-products insects.

BUREAU OF BIOLOGICAL SURVEY

The decrease of \$156,270 involves a decrease of \$4,810 for studies of the food habits of birds and animals, \$14,478 for the purchase of lands for the upper Mississippi River wild life refuge, \$9,000 for maintenance of the Bear River migratory bird refuge and \$118,000 for the acquisition of sites for migratory bird conservation refuges.

BUREAU OF PUBLIC ROADS

In the absence of a Federal-aid highway program authorizing appropriations for the fiscal year 1934, the estimate of \$39,814,387 represents the estimated amount which will be required during 1934 to finance projects approved under existing authorizations.

BUREAU OF AGRICULTURAL ENGINEERING

The decrease of \$28,603 is in the item for agricultural engineering investigations.

BUREAU OF AGRICULTURAL ECONOMICS

The decrease of \$70,133 includes decreases of \$11,430 for research concerning the marketing and distribution of farm products, \$6,657 for crop and livestock estimates, \$27,990 for foreign competition and demand, \$9,408 for market news service, and \$7,500 for enforcement of the standard container, hamper, and produce agency acts.

BUREAU OF HOME ECONOMICS

The decrease of \$4,724 is in the item for investigations.

BUREAU OF PLANT QUARANTINE

The net increase of \$39,501 involves an increase of \$25,000 for preventing the spread of the pink bollworm of cotton, \$75,000 for preventing the spread of the gipsy and brown-tail moths, and \$25,000 for preventing the

spread of the Japanese beetle. The principal decreases are \$8,590 for preventing the spread of the date scale, \$6,525 for preventing the spread of the thurberia weevil, and \$69,900 for preventing the spread of the European corn borer.

ENFORCEMENT OF THE GRAIN FUTURES ACT

The decrease of \$4,168 is a general reduction.

FOOD AND DRUG ADMINISTRATION

The decrease of \$1,530 involves an increase of \$10,000 for the enforcement of the food and drugs act and a decrease of a like amount for the enforcement of the milk importation act. There was also transferred to the administration the sum of \$670 from the appropriation "Miscellaneous expenses, Department of Agriculture."

FOREST ROADS AND TRAILS

The construction of forest highways and forest development roads is authorized by the Federal Highway Act approved November 9, 1921, and under the provisions of this act Congress has, from time to time, authorized appropriations in advance of the fiscal year in which funds are required. The last authorization for the construction of these roads was for the fiscal year 1933, and all funds authorized to be appropriated for the construction

of forest development roads has been appropriated. The amount appearing in the Budget for 1934 is therefore for the construction of forest highways and is a part of the balance of the amount authorized to be appropriated in previous years. The decrease of \$2,365,000 for the construction of roads and trails is in the item for forest development roads and is due to the absence of an authorization for an appropriation to carry on this work after June 30, 1933.

Permanent appropriations:

EXTENSION SERVICE

The estimate for the permanent appropriation for cooperative agricultural extension work for the fiscal year 1934 provides an increase of \$10,000 for the Territory of Puerto Rico in accordance with the act approved March 4, 1931.

FOREST SERVICE

This decrease of \$435,000 is due to estimated decreases in national-forest receipts. Payments from such receipts in 1934 show an estimated decrease of \$300,000 to States and Territories; \$15,000 in estimated payments to school funds, Arizona and New Mexico; and an estimated decrease of \$120,000 for the construction of roads and trails for States.

¹ Exclusive of Radio Division, transferred to Federal Radio Commission.

The total net reduction of \$6,850,085 involves a reduction of \$2,108,617 predicated on continuing, during the fiscal year 1934, certain provisions of the economy act, and a further net reduction of \$4,741,468, the details of which are as follows:

Annual appropriations:

OFFICE OF THE SECRETARY

A decrease of \$98,200 in the appropriations for the office of the Secretary involves an increase of \$40,000 for the item of salaries to obviate the necessity of imposing the administrative furlough, and reductions of \$13,200 in contingent expenses and \$125,000 in printing and binding.

AERONAUTICS BRANCH

A reduction of \$1,006,430 involves an increase of \$165,240 for aircraft in commerce and a decrease of \$1,171,670 for air-navigation facilities in comparison with appropriations made for 1933. However, an appropriation transfer of \$150,000 to aircraft in commerce from air-navigation facilities, made in 1933 under authority contained in section 317 of the Legislative Appropriation Act for 1933, reduces the 1934 increase in aircraft in commerce actually to \$15,240 and the reduction in air-navigation facilities actually to \$1,021,670.

The \$15,240 increase in aircraft in commerce is to provide for repair or replacement of airplanes and accessories.

The \$1,021,670 reduction in air-navigation facilities has been made possible by excluding any provision for additional construction in 1934, a saving of \$150,400 in present operating cost which will be brought about by the installation and relocation of improved and more economical facilities, and a further saving of \$371,000 which will result from changing approximately 1,800 miles of the present 19,500 miles of lighted airways to provide only for day flying.

BUREAU OF FOREIGN AND DOMESTIC COMMERCE

An increase of \$232,900 includes increases of \$176,500 for activities especially concerned with foreign trade, \$80,000 for the promotion of domestic commerce, \$50,000 for district office service, and \$10,000 for bureau salaries. The amount for allowances for quarters, heat and light in the foreign commerce service is reduced by \$83,600. The increase for the bureau involves increases of \$85,590 for travel, \$35,000 for miscellaneous supplies, \$156,310 to eliminate the administrative furlough of employees necessary in the current year, and a reduction of \$44,000 for rentals.

BUREAU OF THE CENSUS

An increase of \$1,212,875. The 1933 appropriation provides funds for the last six months of the fiscal year, the first half year operating costs being defrayed from the remaining balance of appropriations for the Fifteenth Decennial Census. The increase over the appropriation for 1933 is for operation of the bureau for the full year 1934.

BUREAU OF NAVIGATION AND STEAMBOAT INSPECTION

An increase of \$101,875. This involves an additional \$8,900 in the item salaries, shipping service, an additional \$83,190 in the item salaries, steamboat inspection

service, both increases to eliminate in 1934 the administrative furloughs necessary in 1933, increases of \$6,900 for enforcement of navigation laws, \$4,560 in the item load lines and admeasurement, \$2,000 for preventing overcrowding of passenger vessels, and reductions of \$3,667 for contingent expenses and \$308 for minor items.

BUREAU OF STANDARDS

An increase of \$188,720 for the Bureau of Standards is for the purpose of eliminating the 1933 administrative furloughs.

BUREAU OF LIGHTHOUSES

A decrease of \$4,015,280. This is largely due to the appropriation of \$3,810,000 in the emergency relief and construction act of 1932. The remaining decrease of \$205,280 includes reductions of \$115,500 in general expenses, \$116,780 in salaries of keepers, \$18,000 in salaries of employees on vessels, \$50,000 in aids to navigation, and increases of \$4,000 in the item bureau salaries and \$70,000 in the item Lighthouse Service salaries, both to eliminate the 1933 administrative furloughs, and \$21,000 for retired pay.

COAST AND GEODETIC SURVEY

A decrease of \$1,239,813. Eliminating the appropriation of \$1,250,000 in the emergency relief and construction act of 1932, there is an actual increase of \$10,187 for current requirements, involving increases of \$1,000 for the Coast Pilot, \$5,000 for magnetic work, \$39,062 for Federal boundary and State surveys, \$6,000 for repairs to vessels, \$12,752 for pay of commissioned officers, \$46,600 in the item for office salaries to eliminate the administrative furloughs necessary in 1933, \$7,180 for general expenses, and reductions of \$45,500 for party expenses, Atlantic coast, \$56,000 for party expenses, Pacific coast, \$2,500 for tides, currents, etc., and \$3,407 for pay of personnel on vessels.

BUREAU OF FISHERIES

A decrease of \$56,790. This involves increases of \$11,000 in the item bureau salaries and \$30,000 in the item maintenance of vessels, to eliminate the administrative furloughs necessary in 1933 and to procure additional materials urgently needed; and decreases of \$50,000 for the propagation of food fishes, principally in the items for travel, repairs, and equipment; \$9,500 for inquiries regarding food fishes; \$13,290 for fishing industries, principally in travel and equipment; and \$25,000 for seal and salmon fisheries, incident to reduction in travel, counting weirs, and materials.

PATENT OFFICE

An increase of \$5,000 in the contingent expense appropriation covering various miscellaneous items.

BUREAU OF MINES

A decrease of \$80,325. This involves increases of \$1,545 for salaries and expenses and \$730 for mining investigations in Alaska, and decreases of \$26,025 for investigating mine accidents, \$1,920 for mine rescue cars and stations, \$7,180 for testing fuel, \$10,970 for mineral mining investigations, \$14,000 for oil and gas investigations, \$9,940 for experiment stations, \$3,110 for care of buildings, Pittsburgh, \$7,090 for helium investigations, and \$2,365 for economics of mineral industries.

Permanent appropriations:

BUREAU OF NAVIGATION AND STEAMBOAT INSPECTION

An increase of \$1,000. This is the amount of estimated expenditure for payment of claims from a trust fund recently established in the Treasury, by direction of the Comptroller General, consisting of unclaimed wages and funds derived from the sale of unclaimed effects of seamen.

BUREAU OF MINES

An increase of \$13,000. This is estimated costs incident to the sale of gas and other by-products, after extraction of helium at the Amarilla, Tex., helium plant, properly payable from a special fund recently established in the Treasury, by direction of the Comptroller General, consisting of receipts from such sales.

The total reduction of \$23,134,555.35 includes \$1,718,615 due to reductions predicated on continuing, during the fiscal year 1934, certain provisions of the economy act, leaving a further reduction of \$21,415,940.35, the details of which are as follows:

Annual appropriations—

OFFICE OF THE SECRETARY

The net increase of \$54,480 is occasioned by increases of \$53,780 on account of the consolidation under this

head of the purchasing division of the Bureau of Indian Affairs and of \$10,000 on account of printing and binding needs of the department; and by decreases of \$2,200 through the retirement of a clerk in the office of the solicitor, \$5,000 on account of lower cost of supplies, and \$1,620 for one less position and \$480 for lower travel expenses of the Board of Indian Commissioners.

GENERAL LAND OFFICE

The net increase of \$105,000 is made up by increases of \$75,000 for surveying and \$35,000 for protecting the

public domain and \$5,000 for contingent expenses of the land offices, and by decreases of \$5,000 for general expenses of the Washington office and \$5,000 for salaries and commissions of registers.

BUREAU OF INDIAN AFFAIRS

The net decrease of \$1,016,977.35, exclusive of an item of \$1,000,000 for construction of roads on Indian reservations contained in the emergency relief and construction act, 1932, is occasioned by the following increases amounting to \$197,820 and decreases in the amount of \$1,214,797.35:

Increases: Salaries, \$12,820; general expenses, \$92,000; expenses in probate matters, \$8,000; and general support and administration, \$85,000.

Decreases: Indian lands, \$174,497.35; industrial assistance and advancement, \$45,000; development of water supply, \$10,000; irrigation and drainage, \$92,800; education, \$619,000; conservation of health, \$123,500; and roads and bridges, \$150,000.

BUREAU OF RECLAMATION

The net increase of \$683,500 for reclamation projects, exclusive of the Boulder Canyon project, results from increases of \$2,000 for the Orland, \$1,100,000 for the Owyhee, \$4,500 for the Riverton, and \$3,000 for the Shoshone projects, and decreases of \$5,000 for the Boise, \$142,000 for the Minidoka, \$16,000 for the Milk River, \$25,000 for the Carlsbad, \$21,000 for the Rio Grande, \$72,000 for the Klamath, \$145,000 for the Yakima projects.

The 1934 estimate of \$10,000,000 for the Boulder Canyon project represents a decrease of \$13,000,000 below the 1933 appropriations of \$23,000,000 which latter amount includes \$10,000,000 in the emergency relief and construction act, 1932. It is expected that a 1933 unexpended balance of approximately \$10,000,000 will be carried forward for expenditure in 1934.

GEOLOGICAL SURVEY

The increase of \$399,000 is made up as follows: Salaries, \$15,000; topographic surveys, \$184,000 (of which \$150,000 is the offsetting amount of an unexpended 1932 balance that was continued available for 1933); geologic surveys, \$40,000; fundamental research, \$10,000; volcanologic surveys, \$5,000; Alaskan mineral resources, \$5,000; gaging streams, \$70,000; classification of lands, \$10,000; printing and binding, \$20,000; geologic and topographic maps, \$15,000; and mineral leasing, \$25,000.

NATIONAL PARK SERVICE

Of total appropriations of \$10,640,620 for 1933, \$3,140,620 was available for administration, protection, and improvement of the various national parks and monuments, and \$7,500,000 was available for the construction of roads and trails, of which latter amount \$3,000,000 was contained in the Emergency Relief and Construction Act, 1932. The 1934 estimate of \$5,123,840 represents a decrease of \$5,516,780, of which amount \$5,064,300 is due to a curtailed program of construction of roads and trails and \$452,480 to a reduced program of construction of other improvements in the parks and monuments.

OFFICE OF EDUCATION

The net decrease of \$10,000 is due to an increase of \$40,000 for personnel and a decrease of \$50,000 for the investigation of teacher training.

GOVERNMENT IN THE TERRITORIES

The net decrease of \$87,610 is occasioned by an increase of \$7,000 for care of an increased number of insane patients of Alaska and by decreases of \$46,000 and \$47,000, respectively, for biennial expenses of the territorial legislatures of Alaska and Hawaii, and of \$300 for reindeer work and \$1,310 in connection with the construction of roads, bridges, and trails in Alaska.

THE ALASKA RAILROAD

The decrease of \$200,000 is made possible by the contemplated use in 1934 of unexpended balances in this amount from appropriations for previous years, which balances automatically carry forward into succeeding years.

TEMPORARY GOVERNMENT FOR THE VIRGIN ISLANDS

The net decrease of \$2,000 results from increases of \$15,000 for the operation of the agricultural experiment station and \$15,000 for repair of roads and administration buildings and the development of small industries and decreases of \$5,613 for administrative expenses and \$7,032 and \$19,355, respectively, in the amounts recommended for defraying the deficits of the governments of the municipality of St. Thomas and St. John and of the municipality of St. Croix.

ST. ELIZABETHS HOSPITAL

The decrease of \$63,053 is due to reduced cost of subsistence supplies. The estimate contemplates a per capita rate of \$1.70 per day for an estimated number of 1,800 patients in 1934.

An item is included which would provide for the use of an unexpended balance of not to exceed \$250,000 of a 1932 appropriation for construction of a male receiving building for the purpose of beginning in 1934 the construction of a female receiving building at a total cost of not to exceed \$750,000.

COLUMBIAN INSTITUTION FOR THE DEAF, HOWARD UNIVERSITY, FREEDMEN'S HOSPITAL

Except for the reductions predicated on continuing for 1934 certain provisions of the economy act, the 1934 estimates for these institutions are in the same amounts as the appropriations for 1933.

Permanent appropriations:

GENERAL LAND OFFICE

The net decrease of \$151,500 is largely accounted for by an increase of \$250,000 in the estimate of payments to the States from receipts from oil and gas royalties, and a decrease of \$375,000 in the estimate of the amount available in the Oregon and California land grant fund for payment in lieu of taxes to certain counties in the States of Oregon and Washington.

BUREAU OF INDIAN AFFAIRS

Decreases of \$1,800,000 in the estimate of expenditures from "Miscellaneous trust funds of Indian tribes," and of \$400,000 in the estimate of expenditures from "Indian moneys, proceeds of labor," together with small increases or decreases in the estimates of expenditures from other funds, account for the net decrease of \$2,195,000.

NATIONAL PARK SERVICE

The increase of \$200,000 in the estimate under the heading "National Park Service donations" is due to donations to be made by the city and county of San Francisco, pursuant to the act of December 19, 1913.

GOVERNMENT IN THE TERRITORIES

The decrease of \$5,000 is in the item "Public schools, Alaska, fund," expenditures from which are regulated by receipts.

THE ALASKA RAILROAD

There is an increase of \$22,700 in the estimate of expenditures from the "Alaska Railroad, special fund," which fund represents the operating revenues of the railroad, together with certain reimbursements and special deposits.

ST. ELIZABETHS HOSPITAL

The net increase of \$210,000 arises from a decrease of \$5,000 in the estimate of expenditures under the heading "Personal funds of patients, St. Elizabeths Hospital," and an increase of \$215,000 in the estimate of expenditures under the heading "Pension money, St. Elizabeths Hospital." The total estimate of \$295,000 under the latter heading includes a contemplated expenditure of \$250,000 for replacement of boilers and remodeling of the power plant at the hospital.

Total reductions.....									—913,513

The total reduction of \$913,513 is made up of a reduction of \$3,247,933 predicated on continuing, during the fiscal year 1934, certain provisions of the economy act, and a net increase of \$2,334,420, the details of which are as follows:

Annual appropriations:

OFFICE OF THE ATTORNEY GENERAL

The increase of \$177,500 under this caption is made up as follows:

For salaries, Department of Justice, there is an increase of \$126,000 to provide for the maintenance of the existing organization without resorting to administrative furloughs. Other increases for the office of the Attorney General are for books from \$7,500 to \$9,000, contingent expenses from \$80,000 to \$85,000, printing and binding from \$300,000 to \$340,000, and traveling and miscellaneous expenses from \$10,000 to \$15,000.

BUREAU OF PRISONS

For salaries and expenses, Bureau of Prisons, there is an increase of \$15,200, of which \$13,760 is to maintain the present personnel without administrative furloughs and \$1,440 for an additional clerk.

MISCELLANEOUS OBJECTS, DEPARTMENT OF JUSTICE

The increase of \$46,260 under this caption is made up as follows:

An increase of \$7,400 is recommended for protecting interests of the United States in customs matters, which consists of \$4,400 for an additional attorney, \$3,500 for travel expenses, and \$500 for expert witnesses. The increase of \$25,000 for examination of judicial offices is to maintain the present organization and avoid administrative furloughs. The net increase of \$13,860 for enforcement of antitrust laws is made up of increases of \$5,560 for personnel with fixed salaries, \$6,050 for attorneys

with compensation to be determined upon completion of service and \$2,500 for traveling expenses, and a decrease of \$250 in rents.

JUDICIAL

The net increase of \$124,060 under this caption is made up as follows:

The increase of \$13,276 for salaries, Supreme Court, includes \$7,230 to avoid administrative furloughs and \$6,046 for temporary employees; and miscellaneous expenses, Supreme Court, is increased from \$15,000 to \$16,644. For salaries of circuit, district, and retired judges, there is a net increase of \$76,000 predicated on an addition of \$91,500 to the pay roll of retired judges and an estimated saving of \$15,500 through lapses in the salaries of active judges. For salaries and expenses, United States Court of Customs and Patent Appeals, there is an increase of \$1,300 in personal services; and for printing and binding for this court an increase of \$1,200 is requested. For salaries and expenses, United States Customs Court, there is an increase of \$15,000, consisting of \$12,300 for personal services and \$2,700 for expenses; while printing and binding for this court shows a decrease of \$1,000.

For the purpose of avoiding administrative furloughs an additional \$12,640 will be required for salaries, Court of Claims; and an amount of \$5,000 is requested for repairs to buildings, Court of Claims, which is an increase of \$1,000 over the amount appropriated for this purpose in 1933. Salaries and expenses of commissioners, Court of Claims, is increased \$3,000, consisting of \$220 to avoid administrative furloughs and \$2,780 for travel expenses.

UNITED STATES COURTS

The net increase of \$1,218,500 under this caption is made up as follows:

The following increases are recommended for the United States courts: Salaries, fees and expenses of marshals, a net increase of \$75,000, made up of an increase of \$115,610 for personnel and a decrease of \$40,610 in travel expenses; salaries and expenses of district attorneys, \$250,000 for personnel; salaries and expenses of clerks, \$205,000 for personnel; fees of commissioners, \$100,000; fees of jurors and witnesses, \$450,000; pay of bailiffs, etc., \$25,000; miscellaneous expenses of the courts, \$100,000; supplies for the courts, \$15,000; and books for judicial officers, \$15,000.

A decrease from \$75,000 to \$73,500 is recommended for rent of court rooms, as it is anticipated that space will be available in new Federal buildings to accommodate some of the activities now in rented quarters.

PENAL AND CORRECTIONAL INSTITUTIONS

The net increase of \$47,100 under this caption is made up as follows:

The increase of \$241,082 for medical and hospital service is due principally to the establishment of the Public Health Service at the United States Southwestern Reformatory, El Reno, Okla., the United States Hospital for Defective Delinquents, Springfield, Mo., and Federal jails at Milan, Mich., and Sandstone, Minn.

For the cost of operation at United States penitentiary, Leavenworth, Kans., there is a net decrease of \$25,000, made up of an increase of \$45,360 in personnel and a reduction of \$73,995 in maintenance, a net decrease of \$28,635 at the main prison, and an increase of \$18,600 in personnel and a reduction of \$14,965 in maintenance, a net increase of \$3,635 at the annex prison; at United

States penitentiary, Atlanta, Ga., a net decrease of \$33,000 made up of an increase of \$38,640 in personnel and a reduction of \$71,640 in maintenance; at United States penitentiary, McNeil Island, Wash., an increase of \$12,400 in maintenance; at United States Northeastern Penitentiary an increase of \$117,260, consisting of \$28,560 in personnel and \$88,700 in maintenance; at Federal Industrial Institution for Women, a net increase of \$2,536, made up of an increase of \$2,600 in personnel for the employment of an engineer and a reduction of \$64 in maintenance; at United States Industrial Reformatory, a net decrease of \$33,950 made up of an increase of \$26,880 in personnel and a reduction of \$60,830 in maintenance; at United States Southwestern Reformatory, a net increase of \$19,545, made up of an increase of \$54,920 in personnel and a decrease of \$35,375 in maintenance; at United States Hospital for Defective Delinquents, a net increase of \$71,760, made up of an increase of \$96,416 in personnel and a reduction of \$24,656 in maintenance. Federal jails, maintenance, providing for the operation of jails at New York, N. Y., New Orleans, La., El Paso, Tex., Milan, Mich., and Sandstone, Minn., contains a net increase of \$33,000. There is a reduction of \$389,839 for prison camps, construction and maintenance, which is more than offset by items of \$246,251 for Federal Correctional Camp, Eustis, Va., and \$242,601 for Federal Reformatory Camp, Petersburg, Va., for which it is proposed to appropriate separately beginning with 1934; the camps provided for under prison camps, construction and maintenance, are Fort Bragg, N. C., Fort Riley, Kans., Fort Lewis, Wash., Maxwell Field, Ala., and a new camp the location of which has not yet been selected. For operating the National Training School for Boys, Washington, D. C., there is a net decrease of \$5,000, made up of an increase of \$5,000 in personnel to provide for medical and hospital treatment by the Public Health Service and a reduction of \$10,000 in maintenance.

There are items for building projects, of \$179,000 for completing the construction of the United States Industrial Reformatory, a decrease of \$342,000 from the amount appropriated in 1933 for continuing this work; \$285,000 for continuing the construction of the United States Hospital for Defective Delinquents, a decrease of \$183,000 from the amount appropriated in 1933 for the same purpose; and \$68,000 for constructing and equipping a kitchen and bakery at the National Training School for Boys; for repairs and improvements at Leavenworth, \$5,400, a decrease of \$2,600 from the amount appropriated in 1933; and for the development of a water system at McNeil Island, \$36,000, with the ultimate cost not to exceed \$85,000.

Probation system, United States courts, is increased \$48,020, consisting of \$26,780 for personnel and \$21,240 for expenses. For support of United States prisoners, from which is paid the maintenance of Federal prisoners confined in State, county, and municipal institutions, there is an increase of \$445,000.

Appropriations made in 1933 for which no additional funds are requested in 1934 are \$520,000 for construction of United States Southwestern Reformatory which it is contemplated will be completed with the funds on hand; \$500 for construction of Federal jails; \$76,000 for new heating plant, remodeling and equipping laundry building, and improvements on account of fire hazards at National Training School for Boys; \$32,000 for construction of kitchen and dining room on farm at McNeil Island; and \$8,500 for repairs and improvements at Atlanta.

Permanent appropriations:

Beginning with the fiscal year 1934, there is included in the Budget an item for trust funds, covering personal funds of inmates and commissary and welfare funds at the several penal and correctional institutions, which are

deposited in the Treasury and advanced to disbursing clerks of the institutions on approved requisitions. The estimated amount for 1934 is \$800,000, consisting of \$550,000 for funds and unclaimed funds of prisoners and \$250,000 for commissary funds.

The total net increase of \$468,575 involves a reduction of \$1,040,585 predicated on continuing, during the fiscal year 1934, certain provisions of the economy act, and a gross increase of \$1,509,160 the details of which are as follows:

Annual appropriations:

OFFICE OF THE SECRETARY

A gross increase of \$22,500 consisting of \$8,000, salaries, office of the Secretary; \$4,500, contingent expenses; and \$10,000, printing and binding, for the purpose of eliminating in 1934 the administrative furloughs which it will be necessary to apply in the current year; the payment for punching machines from the appropriation for contingent expenses, to comply with a decision of the Comptroller General, heretofore paid from other appropriations of the department, and to meet the coming year needs of the department for printing and binding.

BUREAU OF LABOR STATISTICS

A gross increase of \$10,000 for the purpose of eliminating in 1934 the administrative furloughs which must be applied in the current year.

BUREAU OF IMMIGRATION

A gross increase of \$1,450,000 to detain and deport aliens illegally in the country who are being apprehended in increasingly large numbers and whose presence here is undesirable and a social and economic menace to the welfare of the nation. In addition to the increasing number of apprehensions, an element of increasing per capita cost of their disposal is the greater proportionate number who must be transported to distant points. The estimate contemplates continuation of the return of destitute aliens to their native lands, upon application, as authorized in section 23 of the act of February 5, 1917, and eliminating in 1934 the application of the administrative furlough provision of the economy act.

EMPLOYMENT SERVICE

A gross increase of \$26,660 to enable this service to function on the same basis as was contemplated in the 1933 Budget.

GENERAL STATEMENT

In connection with the total amounts appearing in the above table, it is proper to state that additional funds were made available by the appropriation acts for the fiscal year 1933 and by balances of continuing appropriations carried forward from the prior fiscal year, resulting in a total availability for 1933 of about \$388,000,000. Of this amount approximately \$10,000,000 will not be expended due to the provisions of the economy act, about \$17,000,000 will be carried forward to the fiscal year 1934, and about \$5,000,000 will not be obligated. The total expenditure for 1933 is estimated at \$356,000,000. The above total estimate for 1934, increased by amounts to be made available and the cash carry-over of continuing appropriations from the fiscal year 1933, will make available for 1934 a total of about \$333,000,000. It is estimated that about \$330,000,000 will be expended during that fiscal year.

In general, the estimates for 1934 provide for operating the fleet under the approved force operating plan and schedule of employment, maintaining the same enlisted strength of the Navy as for the present year, a reduction in the enlisted strength of the Marine Corps to an average of 13,600 men; completing the modernization of the

Mississippi and New Mexico, and continuing work on the Idaho; continuing at a normal rate of progress work on ships now under construction; to commence work on one 8-inch cruiser to be laid down in January, 1933, another such cruiser to be laid down in January, 1934, and four destroyers to be laid down during 1934; the commissioning of newly constructed vessels as they may be completed during 1934, and to provide for continuation of public works projects in progress of construction, but no new projects are provided for.

The decrease of \$10,900,000 in the estimates for 1934 compared with the appropriations for 1933 involves decreases of \$12,675,000 in the current and ordinary operating expenses, \$10,240,000 for public works, \$9,450,000 for modernization of battle ships, and an increase of \$21,437,000 for Increase of the Navy. These figures are exclusive of the decrease of \$8,357,815 due to the continuation of certain provisions of the economy act during the fiscal year 1934. The principal reductions pertaining to ordinary maintenance and operating expenses are due to the reduction in enlisted strength of the Marine Corps, and a reduction in the estimated amounts that will be required for labor based on the assumption that the wages of navy yard employees will be fixed by wage boards for 1934 as contemplated by the act approved July 16, 1862.

Annual appropriations:

OFFICE OF THE SECRETARY

The net decrease of \$411,195 is chiefly due to transfer of items from the appropriation "Miscellaneous Expenses" (Pay, Miscellaneous) to appropriations under other bureaus or offices.

BUREAU OF NAVIGATION

The increase of \$27,891 is chiefly due to the establishment of the new appropriation "Training, Education, and Welfare," under which several old appropriations have been consolidated and to which items from appropriations of other bureaus or offices have been transferred. Under the estimate for organizing the Naval Reserve, funds have been included to provide for restoration of the 15-day training cruise which was suspended during the fiscal year 1933, but a reduction is made in the amount contemplated for pay for drills.

BUREAU OF ENGINEERING

The decrease of \$1,395,450 involves a reduction in labor costs and curtailment of the program for alterations in the nature of improvements, and an increase in funds for the purpose of completing purchase of certain radio control patents.

BUREAU OF CONSTRUCTION AND REPAIR

The decrease of \$1,518,400 is due principally to a reduction in labor costs and reductions in the schedule of alterations and repairs in the nature of improvements of vessels.

BUREAU OF ORDNANCE

The reduction of \$1,028,300 is principally due to reduction in labor costs and amounts required for maintenance of stations.

BUREAU OF SUPPLIES AND ACCOUNTS

The reduction of \$1,250,357 is due principally to reduction in labor costs, reduction in the cost of rations and a reduction in the amount to be transferred from the clothing fund, and involves increases on account of additional commissioned personnel due to the commissioning of excess Naval Academy graduates and increases in the retired and fleet reserve lists.

BUREAU OF MEDICINE AND SURGERY

The decrease of \$164,705 is due principally to a reduction in labor costs.

BUREAU OF YARDS AND DOCKS

The decrease of \$1,609,351 is due principally to reduction in labor costs and the deferment of maintenance and

repair work not absolutely essential, and a reduction in the amount for public works. The reduction of \$10,000,000 under emergency construction is due to the non-recurring item of that amount contained in the emergency relief and construction act of 1932.

BUREAU OF AERONAUTICS

The reduction of \$3,300,570 is due partly to a reduction in labor costs and partly to a reduction in the amounts required for maintenance and operation of aircraft and air stations. The 1933 appropriation contained an item of \$1,450,000 to complete the second rigid airship, thus no funds are required for this purpose during 1934.

NAVAL ACADEMY

The reduction of \$421,979 is due principally to a reduction in labor costs and to a reduction in the number of professors required on account of a less number of midshipmen at the academy.

MARINE CORPS

The reduction of \$1,307,437 is due chiefly to a reduction in the average enlisted strength of the Marine Corps to 13,600 men for the fiscal year 1934, and to a reduction in the cost of rations and labor.

MODERNIZATION OF BATTLESHIPS

The reduction of \$9,450,000 is due to the reduced requirements for the fiscal year 1934 for this purpose and also to a reduction in labor costs.

INCREASE OF THE NAVY

The increase of \$21,437,000 is necessary in order to carry forward work on ships now underway and those to be later laid down as stated above. In arriving at the amount necessary for this purpose the balance to be carried forward from the fiscal year 1933 was taken into consideration as well as a considerable reduction in the estimated expenditures for labor.

SALARIES, NAVY DEPARTMENT

The reduction of \$57,280 is due to a reduction in the number of civilian personnel required in the department here in Washington.

CONTINGENT AND MISCELLANEOUS EXPENSES

The reduction of \$114,000 is due principally to a non-recurring item of \$110,000 contained in the appropriation for 1933 for the astrographic laboratory at the Naval Observatory.

The reduction of \$58,000,000 in the amount of the postal deficiency payable from General Treasury funds is the result of a total reduction of \$81,811,514 in the Budget estimates for 1934 compared with appropriations for 1933, as offset by a reduction of \$23,811,514 in the estimated postal expenditures payable from postal revenues.

The Budget estimates for the fiscal year 1933 were based upon anticipated revenues during that year of \$656,000,000, an increase of approximately 5 per cent over the estimated revenues of the preceding year, whereas notwithstanding the increases in postal rates provided for in the revenue act of 1932, it is not expected that the postal revenues for the fiscal year 1933 will exceed \$600,000,000. This marked decrease in postal receipts reflects the continued depression in business activities which has prevailed since the estimate was made.

The decrease in postal receipts has served to reduce postal expenditures, but not at a rate comparable with the decrease in revenues. The expenditures for the fiscal year 1933 were estimated at \$811,000,000 at the time the Budget for that year was compiled, and appropriations subsequently made by Congress amounted to \$806,104,675. The expenditures for the fiscal year 1933 are now estimated at \$734,000,000, a reduction of \$72,104,675 below the amount appropriated by Congress. Approximately \$48,250,671 of these reductions, however, represents amounts withheld under the provisions of the economy act, leaving \$23,854,004 as the reduction in expenditures attributable to decreased business.

The estimates of appropriation required for the fiscal year 1934 aggregate \$724,293,161.

After allowing for probable unexpended appropriation balances, and after providing for reductions in appropriations predicated on continuing certain provisions of the

economy act, the cost of maintaining the Postal Service during the fiscal year 1934 is estimated at \$722,000,000. This is \$12,000,000 below the estimated expenditures for the fiscal year 1933, notwithstanding an anticipated increase in revenues during 1934 of \$25,000,000. This reduction in expenditures is believed to be justified by the assumption that the force of employees on the rolls in 1934, although materially reduced, will still be sufficient to care for the anticipated increase in business.

The total reduction in Budget estimates for 1934 of \$81,811,514 includes \$47,235,631 due to reductions predicated on continuing during the fiscal year 1934 certain provisions of the economy act, leaving a further reduction of \$34,575,883, the details of which are as follows:

POST OFFICE DEPARTMENT, WASHINGTON, D. C.

Decrease of \$303,835 due to reduction in clerical force, to transfer of custody of the Washington City Post Office Building to the Treasury Department, and to reduced printing requirements.

POSTAL SERVICE FIELD OPERATIONS

UNDER THE POSTMASTER GENERAL

A decrease of \$26,000, due principally to a reduction in requirements for transportation of equipment and supplies by freight, express, or motor transportation.

UNDER THE CHIEF INSPECTOR

A decrease of \$10,000 due to reduction in travel.

UNDER THE FIRST ASSISTANT POSTMASTER GENERAL

A net decrease of \$17,901,305, due almost entirely to reduction in volume of mail to be handled. Decreases have been made in the following items:

Compensation to postmasters.....	\$1, 151, 250
Compensation to assistant postmasters.....	131, 825
Clerks, first and second class post offices.....	8, 612, 325
Clerks, contract stations.....	50, 000
Clerks, third-class post offices.....	100, 000
Miscellaneous items, first and second class post offices.....	50, 000
Carfare and bicycle allowance.....	80, 000
City-delivery carriers.....	3, 869, 000
Special-delivery fees.....	725, 000
Rural Delivery Service.....	3, 231, 000

An increase of \$100,000 for village delivery service is for the purpose of maintaining this service at its present strength, the appropriations for 1933 having been augmented by the transfer of a like amount from another appropriation.

UNDER THE SECOND ASSISTANT POSTMASTER GENERAL

A net decrease of \$13,018,418, also due very largely to reduction in volume of mail to be handled, other causes being specifically noted.

Decreases have been made in the following items:

Star route service, Alaska.....	\$10, 000
Power boat service.....	10, 000
Railroad transportation and mail messenger service.....	10, 000, 000
Railway Mail Service, salaries.....	1, 830, 000
Railway postal clerks, travel allowances.....	200, 000
Railway Mail Service, miscellaneous expenses (principally due to reduction in amount paid for rents on removal of railway mail activities to new Federal buildings).....	100, 000
Foreign mail transportation.....	1, 245, 600
This item includes \$1,241,535 to cover increased cost of the ocean mail service due to placing in service larger and faster vessels required under Merchant Marine Act contracts. The reduction on account of decreased volume of mail to be handled is therefore approximately \$2,500,000.	
Balances due foreign countries.....	200, 000
Indemnities, international mail.....	5, 000

An increase of \$540,000 for contract air mail service is for the purpose of maintaining on an annual basis routes now in operation and does not include any funds for extensions or expansion of the service as now existing.

Increase of \$5,000 for traveling expenses in the Railway Mail Service in furtherance of a closer supervision of road service.

UNDER THE THIRD ASSISTANT POSTMASTER GENERAL

A decrease of \$600,000, including a reduction of \$400,000 for manufacturing postage stamps and stamped paper, due to an excessive stock of and decreased requirements for postage stamps and more favorable prices under a new contract for stamped envelopes, and a reduction of \$200,000 in the item for indemnities, domestic mail, due to drop in mailings.

UNDER THE FOURTH ASSISTANT POSTMASTER GENERAL

A net decrease of \$2,716,325, due to reduced mailings and other causes specifically noted, as follows:

Stationery.....	\$50, 000
Post Office equipment and supplies.....	350, 000
Shipment of supplies.....	10, 000
Labor-saving devices.....	30, 000
Mail bags and equipment.....	450, 000
Rent, light, and fuel (due to securing more favorable terms in leasing post-office quarters and removal to new Government-owned buildings).....	1, 100, 000
Vehicle service (due also to decreased requirements for new motor trucks).....	733, 825

An increase of \$8,000 for the pneumatic-tube service in New York City, to provide for extension of tubes into the new parcel-post building in that city.

Total reduction.....									—686,166

The total reduction of \$686,166 is made up of a reduction of \$723,890 predicated on continuing, during the fiscal year 1934, certain provisions of the economy act, and a net increase of \$37,724, the details of which are as follows:

Annual appropriations:

OFFICE OF THE SECRETARY OF STATE

The net decrease of \$20,450 under this caption is made up as follows:

There are decreases for salaries, Department of State, of \$30,540, and for printing and binding of \$10,000; the increase of \$5,000 in contingent expenses is for the purchase of an automobile for official use of the Secretary of State to replace the present one, which was purchased in 1929; passport agencies contains a net increase of \$5,000, which is made up of a decrease of \$3,600 in permanent personnel due to the closing of the passport agency at Seattle, Wash., and increases in temporary personnel of \$8,150 and expenses of \$450.

For collecting and editing official papers of the Territories of the United States there is recommended for use during the fiscal year 1934 the unexpended balances of appropriations heretofore made for this purpose, together with an additional appropriation of \$9,158. The organic act providing for this project authorizes a total appropriation of \$125,000 with a restriction that not more than \$50,000 shall be appropriated for any one year, and thus far two appropriations of \$15,000 each have been made.

FOREIGN INTERCOURSE

The net increase of \$1,275 under this caption is made up as follows:

It is proposed to consolidate contingent expenses, foreign missions, and contingent expenses, United States consulates, under the title "Contingent expenses, Foreign Service," and to combine expenses of Foreign Service officers with transportation of Foreign Service officers. No increase in funds is requested in either item for the fiscal year 1934.

For salaries, Foreign Service officers, there is an increase of \$243,750 to provide for a complement of 755 officers at the current rates of pay and avoid administrative furloughs. A decrease is recommended for relief and protection of American seamen from \$15,000 to \$8,000. Emergencies arising in the Diplomatic and Consular Service is increased from \$130,000 to \$200,000.

There are included in the Budget for 1934, \$50,000 for post allowances to Foreign Service officers and \$50,000 for representation allowances to diplomatic missions and consulates, for which no appropriations were made in 1933.

Foreign Service retirement and disability appropriated fund is reduced from \$416,000 to \$292,700, the latter figure being the maximum amount permitted under section 26 (a) of the act of February 23, 1931, which provides that in no event shall the aggregate total appropriations exceed the aggregate total of the contributions of the Foreign Service officers theretofore made and accumulated interest thereon.

There is a reduction for office and living quarters, Foreign Service, from \$1,800,000 to \$1,517,825, which includes not to exceed \$628,525 for allowances for living quarters, including heat, fuel, and light, predicated on 50 per cent of the maximum that may be allowed under the regulations of the Department of State.

INTERNATIONAL OBLIGATIONS, COMMISSIONS, BUREAUS,
AND SO FORTH

The net increase of \$50,989 under this caption is made up as follows:

Beginning with the fiscal year 1934 it is proposed to consolidate the following appropriations under the title "Contributions, quotas, etc., to international agencies": Annual expenses of Cape Spartel Light, Coast of Morocco; International Bureau of Weights and Measures; International Bureau for Publication of Customs Tariffs; International Prison Commission; Pan American Union; International Bureau of Permanent Court of Arbitration; Bureau of Interparliamentary Union for Promotion of International Arbitration; International Commission on Annual Tables of Constants, etc.; International Institute of Agriculture at Rome, Italy; Pan American Sanitary Bureau; International Office of Public Health; International Radiotelegraphic Convention; Payment to Government of Panama under treaty of November 18, 1903; International Council of Scientific Unions; International Hydrographic Bureau; Foreign Hospital at Cape Town; International Trade-Mark Registration Bureau; International Bureau for Protection of Industrial Property; Gorgas Memorial Laboratory; American International Institute for the Protection of Childhood; International Statistical Bureau at The Hague; International Road Congress; International Map of the World on Millionth Scale; Convention Relating to Liquor Traffic in Africa; and International Technical Committee of Aerial Legal Experts. For these several activities a total of \$586,628.60 is recommended for 1934 as compared to \$557,359.89 for 1933, being a net increase of \$29,268.71, which is made up of increases for Pan American Union of \$208.80; for Bureau of Interparliamentary Union for Promotion of International Arbitration of \$2,468.23; for Pan American Sanitary Bureau of \$37.41; and for Gorgas Memorial Laboratory of \$10,000; a decrease for Cape Spartel and Tangier Light, Coast of Morocco, of \$43.50; and estimates for the following items which were not appropriated for in 1933; International Prison Commission, \$5,000; International Commission on Annual Tables of Constants, \$500; International Institute of Agriculture at Rome, Italy, \$5,400; International Council of Scientific Unions, \$5,042.77; International Road Congress, \$600; and Convention Relating to Liquor Traffic in Africa, \$55.

Section 510 of the economy act, as well as the current annual appropriation act for the Department of State, abolished the International Water Commission, United States and Mexico, American section, and provided that the powers, duties, and functions of such section should be exercised by the International Boundary Commission, United States and Mexico, American section. The latter act appropriated \$70,000 for the International Boundary Commission and reappropriated

for use of that commission \$70,000 of the unexpended balances of appropriations of the International Water Commission, making \$140,000 available for the use of the International Boundary Commission during the current fiscal year. While the Budget for 1934 contains an increase of \$60,000 in direct appropriations for the International Boundary Commission, the amount recommended for 1934 is actually \$10,000 less than the amount available for 1933.

There is an increase of \$17,265 for International Boundary Commission, United States and Canada and Alaska and Canada, which includes \$7,600 for wages and \$5,700 for subsistence of temporary field hands, \$2,810 for traveling expenses, and \$1,155 for miscellaneous expenses. Waterways treaty, United States and Great Britain, contains an increase of \$12,955, composed of \$7,500 for salaries of commissioners, \$2,300 for stenographic reporting, \$2,735 for travel expenses, and \$420 for other items; provision is also made for continuing the studies of damage from fumes of the smelter at Trail, British Columbia, and the proper apportionment of waters from certain rivers on the Canadian boundary. An increase of \$6,500 is recommended for International Fisheries Commission, consisting of \$4,400 for chartering a vessel for 120 days and \$2,100 for temporary personnel on this vessel.

An amount of \$95,000 is recommended for participation by the United States in the Seventh International Conference of American States, to be held at Montevideo, Uruguay, beginning in December, 1933, and lasting about six weeks. The first conference was convened by the Government of the United States at Washington under authority of the act of May 24, 1888, and subsequent conferences were held from time to time in pursuance of appropriations made by Congress. The seventh conference, however, is based on the convention signed February 20, 1928, relating to the organization of the Pan American Union, section 2 of which provides that the international conferences of American States shall meet at periodic intervals and that the governing board of the Pan American Union shall determine the date on which they shall meet, provided that in no case shall a longer period than five years lapse between conferences except in case of force majeure. This convention was ratified by the Senate of the United States on February 28, 1931, and has been ratified by some but not all of the other signatory governments.

There is a further decrease of \$170,000 in the amount recommended for 1934, in view of the fact that the following appropriations for 1933 will not appear in the Budget for 1934: \$80,000 for the International Radiotelegraph Convention, Madrid, Spain, \$50,000 for the General Claims Commission, United States and Panama, and \$40,000 for the Fourteenth Annual Convention of the French Veterans of the World War, District of Columbia.

JUDICIAL

There is an increase of \$6,000 for salaries and expenses, United States Court for China, for the purpose of maintaining the court without having to resort to administrative furloughs.

Total reductions.....									—85,166,040

The estimates for the Treasury Department show a total net reduction of \$85,166,040, which includes \$8,096,324 due to reductions predicated on continuing, during the fiscal year 1934, certain provisions of the economy act, leaving a further reduction of \$77,069,716, the details of which are as follows:

Annual appropriations:

DIVISION OF SUPPLY

A decrease of \$1,370 for salaries, due to reduction in personnel.

A decrease of \$70,000 for printing and binding, due to continuing reduced allowance for 1933.

GENERAL SUPPLY COMMITTEE

An increase of \$10,000 in salaries and expenses, principally for additional personnel in connection with definite quantity purchases and occupation of enlarged quarters in new Government warehouse.

DIVISION OF BOOKKEEPING AND WARRANTS

A decrease of \$15,200 due principally to decreased requirements in connection with handling public moneys.

PUBLIC DEBT SERVICE

A decrease of \$50,000 due to reduction in personnel, and \$70,000 in requirements for distinctive paper for United States securities due to reduction in note circulation and better prices for paper.

DIVISION OF APPOINTMENTS

A decrease of \$1,440, due to reduction in force.

CUSTOMS SERVICE

A decrease of \$205,000 in the item for collecting the customs revenue, due to decline in receipts.

FEDERAL FARM LOAN BUREAU

An increase of \$25,000 to provide for increased activities of the bureau in connection with the banks and farm loan associations under its supervision.

OFFICE OF THE TREASURER OF THE UNITED STATES

A decrease of \$19,000, due principally to reduction in force brought about by not filling vacancies.

BUREAU OF INTERNAL REVENUE

A decrease of \$150,000 as a result of reduction in travel expenses and a reduction in amount of rentals for field offices due to occupancy of new Federal buildings.

An increase of \$68,000,000 for refund of taxes illegally collected. No direct appropriation was made for this purpose in 1933, the unexpended balance at the end of the previous year having been carried forward and made available in 1933. It is anticipated, however, that an additional amount of about \$40,000,000 will be required for 1933.

BUREAU OF INDUSTRIAL ALCOHOL

A decrease of \$100,000, due to reduction in force, reduction in rentals for field offices largely as a result of moving into new Federal buildings, and other economies in the operation of the bureau.

BUREAU OF NARCOTICS

A decrease of \$10,000, due principally to reduction in force and to decrease in amount of rentals for field offices on occupancy of new Federal buildings.

COAST GUARD

A net decrease of \$1,084,845. The principal decreases are \$694,135 for pay and allowances, due to reduction in number of warrant officers and enlisted men, change in ration allowances, and projection of certain savings effected in 1933 into 1934; \$75,000 for fuel and water, due to reduced prices and decreased requirements; \$111,360 for outfits, due principally to discontinuance of 35 patrol boats and the construction of only such small boats as will be necessary for replacements; \$192,670 for rebuilding and repairing stations, due principally to elimination of rebuilding projects and reduction in repair items; and \$20,000 for contingent expenses, due to transfer of this amount for repairs to apparatus to the item "Outfits."

BUREAU OF ENGRAVING AND PRINTING

A decrease of \$753,520, due to reduction in production program.

SECRET SERVICE DIVISION

An increase of \$29,424 for suppressing counterfeiting and other crimes to provide for additional operatives taken on in 1933 by means of a transfer of funds from another Treasury Department appropriation.

PUBLIC HEALTH SERVICE

A net increase of \$173,266. The principal increases are \$220,000 for pay of personnel and maintenance of hospitals, to provide for additional facilities in new hospital buildings constructed as a part of the Federal building program, and \$55,000 for purchase of equipment for new quarantine stations. The principal decreases are \$34,984 for pay of acting assistant surgeons, due to reduction in force; \$25,000 for field investigations of public health as a result of reduction in the amount required for purchase of equipment; and \$50,000 for studies of rural sanitation to adjust service to basis of requirements for previous years.

MINT SERVICE

An increase of \$49,500 for salaries and expenses of mints and assay offices, due to the resumption of refining operations at the New York assay office, and an increase of \$2,000 for transportation of bullion and coin.

SUPERVISING ARCHITECT

The estimates provide \$60,000,000 for public-building construction under the act of May 25, 1926, which is a decrease of \$48,000,000 below the amount appropriated

under this act for 1933, and \$148,000,000 below the regular appropriation plus the \$100,000,000 appropriated in the emergency relief and construction act of 1932, approved July 21, 1932. This reduction is possible because of the fact that the appropriation under the emergency relief act is more than sufficient for current needs, and a large unexpended balance will be carried forward and available for expenditure in the fiscal year 1934. Amounts aggregating \$2,505,000 have been provided for miscellaneous public-building projects not included in the regular building program, and \$200,000 has been provided for remodeling and enlarging public buildings. The latter item was omitted from Budget estimates for the fiscal year 1933, but is now reinstated.

Other items under the Supervising Architect show a net increase of \$7,515,570, practically all of which is due to the construction and occupation of new Federal buildings under the regular public-building program and the provisions of the emergency relief and construction act. The specific items which go to make up this increase are \$100,000 for rent of temporary quarters, \$525,000 for repairs and preservation of public buildings, \$150,000 for mechanical equipment, \$340,000 for vaults and safes, \$530,000 for general expenses, \$2,780,000 for operating force, \$2,660,000 for furniture and repairs, \$833,500 for operating supplies, and \$97,120 for salaries in the Office of the Supervising Architect. There is a decrease of \$500,000 in the item for outside professional services.

Permanent appropriations:

PUBLIC DEBT SERVICE

An increase of \$87,098, principally for expenses of placing loans.

CUSTOMS SERVICE

A decrease of \$5,495,000 in reimbursable items as a result of reduced customs revenues.

OFFICE OF THE TREASURER OF THE UNITED STATES

An increase of \$134,720 in expenses incident to redemption and issue of national currency, due to increase in postage and insurance rates.

BUREAU OF INTERNAL REVENUE

A net increase of \$287,700, due principally to increases of \$25,000 for allowance or drawback on articles for export, and \$265,000 for redemption of internal-revenue stamps. There is a decrease of \$2,000 in the item for additional income tax on railroads in Alaska.

BUREAU OF INDUSTRIAL ALCOHOL

A decrease of \$60,000 for reimbursable items, due to decrease in exports of flavoring extracts and medical and toilet preparations.

¹ In addition, a \$3,000,000 contract authorization is provided.

² In addition, the appropriation act provides "and such sums, aggregating not to exceed \$3,500,000, as may be deposited in the Treasury of the United States as dividends by the Panama R. R. Co. in excess of 10 per cent of the capital stock of such company."

The total reduction of \$103,595,158 includes \$10,287,196 due to reductions predicated on continuing, during the fiscal year 1934, certain provisions of the economy act, leaving a further net reduction of \$93,307,962, the principal items of which are mentioned below.

DEPARTMENTAL ACTIVITIES

Annual appropriations:

SALARIES AND EXPENSES

Included under this head are all departmental salaries, contingent expenses, stationery, and printing and binding. The decrease for 1934 of \$89,697, net, consists of \$92,947 decrease in the amount for salaries, less an increase of \$3,250 for contingent expenses.

MILITARY ACTIVITIES

Annual appropriations:

OFFICE OF THE SECRETARY OF WAR

The only item under this head is a small fund for contingencies. The estimate for 1934 is the same as the appropriation for 1933.

GENERAL STAFF CORPS

Includes contingencies, Military Intelligence Division, General Staff, and the Army War College. The total increase of \$14,880, less \$166 reductions in miscellaneous items, gives a net increase of \$14,714, of which \$8,000 is for the Military Intelligence Division, consisting of \$5,000 for special mapping and \$3,000 for expenses of military attachés, and \$6,714 is for the Army War College for salaries. The 1933 appropriation act reduced Army War College salaries \$6,880, but it was necessary to transfer a similar sum from another appropriation of the War Department to prevent the discharge of necessary personnel.

ADJUTANT GENERAL'S DEPARTMENT

The appropriation items concerned are "Command and General Staff School, Fort Leavenworth, Kans.," and "Welfare of enlisted men." The increase of \$2,000 is for the Command and General Staff School for necessary supplies and materials.

FINANCE DEPARTMENT

Under this head provision is made for the pay and allowances of active and retired officers, warrant officers, nurses, and enlisted men of the Regular Army and the Philippine Scouts; withdrawals by enlisted men of savings deposited with the Finance Department; mileage of the Army; expenses of courts-martial; apprehension of deserters; hire of civilian employees of the Finance Department in the field; and claims for the loss and damage of personal property of Army personnel. The net decrease for 1934 in "Pay, etc., of the Army," is \$5,765,876, of which \$5,607,208 represents savings predicated on continuing during the fiscal year 1934 certain provisions of the economy act. The remainder of the net decrease, namely, \$158,668, is the result of many increases and decreases in individual items. Changes from 1933 appropriations for other items under the Finance Department consist of increases of \$63,750 in mileage, and \$29,800 for claims, and decreases of \$3,925

for expenses of courts-martial, \$2,496 in field salaries of the Finance Service, and \$200,000 in estimated withdrawals of soldiers' deposits. The Budget estimate for 1934 provides for average active strengths of 12,000 commissioned officers, 883 warrant officers, and 118,750 enlisted men of the Regular Army and 6,500 enlisted men of the Philippine Scouts.

QUARTERMASTER CORPS

This includes appropriation items for the subsistence, clothing, and transportation of the Army; furnishing of nontechnical supplies; the maintenance, repair, and operation of barracks, quarters, and other buildings and utilities; construction of buildings, utilities, and appurtenances; procurement of horses, draft and pack animals; acquisition of land; incidental expenses; rent of buildings; sewerage system at Fort Monroe, Va.; and construction and repair of hospitals. Excluding the appropriation of \$15,164,000, provided by the relief act of July 21, 1932, for emergency construction during 1933, the estimates submitted for the Quartermaster Corps show a net increase for 1934 amounting to \$4,034,798, the details of which are as follows:

Subsistence of Army: The facial increase is \$4,483,098, comparing \$11,815,498, appropriated for 1933, with \$16,298,596, estimated for 1934. However, for 1933, there was available a "carry-over" from prior years of \$5,435,166, resulting from reduced commodity prices, making the total availability for 1933 \$17,250,664. Considering this last figure, the 1934 estimate shows a reduction of \$952,068. The garrison ration for 1934 is estimated to cost an average of 33 cents.

Regular supplies of the Army: Decrease \$425,966, due almost entirely to reduced cost of forage and the maintenance of fewer animals.

Clothing and equipage: Increase, \$553,211, due to reduction in availability of usable sizes of clothing from World War stocks.

Incidental expenses of the Army: Reduction, \$14,984, due to reduced requirements.

Army transportation: Increase, \$1,243,885, net, resulting from a large number of increases and decreases, the principal increases being for the procurement of trucks and ambulances and for the transportation of Army supplies and its personnel and baggage.

Horses, draft, and pack animals: Increase \$138,375, due to the purchase of 1,472 animals as against 500 provided for in 1933.

Construction of buildings, utilities, and appurtenances at military posts: Decrease \$2,250,000, no estimate for this purpose being submitted for 1934.

Barracks and quarters: Increase \$316,736, net, due principally to a reduction in "carry-over" of \$355,525 in fuel stocks from 1931 and 1932 into 1933, on account of reduced prices, to a "carry-over" of \$107,842 from 1933 to 1934, requiring an increase in the 1934 estimate of \$247,683. The remainder of the net increase, amounting to \$69,053, is to cover increased procurement of various supplies for the operation of new buildings to be completed under the Army housing program.

Acquisition of land: No corresponding item for 1934. Decrease, \$9,557.

Construction of buildings, utilities, and appurtenances at military posts—emergency construction—relief act of July 21, 1932: No corresponding item for 1934. Decrease, \$15,164,000.

SIGNAL CORPS

Signal Service of the Army is the only appropriation item concerned. The net increase in 1934 of \$33,288 results from minor increases and decreases in a number of items and involve no material change during 1934 in the operation of the Signal Service of the Army.

AIR CORPS

The net decrease under 1933 in the amount estimated for appropriation is \$1,170,904. However, provision is made in this Budget for a contract authorization of \$3,000,000, for the procurement of new airplanes and airplane equipment, spare parts and accessories, in addition to the amount estimated for appropriation in 1934. Including this contract authorization the availability for the Air Corps in 1934 is \$1,829,096 in excess of the availability for 1933. With the amount estimated for appropriation for 1934, plus the contract authorization, provision is made for the procurement of 375 new airplanes, at a total cost of \$8,480,367, of which \$8,145,942 is chargeable to the appropriation for Army Air Corps and \$334,425 to that for the Organized Reserves. Of the \$8,480,367 for new airplanes, \$7,614,522 is exclusively for combat airplanes. It is estimated that the Air Corps of the Regular Army will have approximately 1,537 airplanes on hand or on order on June 30, 1934. The present program calls for a total of 1,648 airplanes for the Regular Army.

The 1934 estimate provides for an average of 200 flying hours per qualified airplane pilot and in addition makes provision for the maintenance and operation of Air Corps depots and stations, service tests of new airplanes, spare parts, equipment and accessories, and for research and development work on practically the same basis as that provided for the fiscal year 1933.

MEDICAL DEPARTMENT

Provides for the medical and hospital department of the Army, including hospital care of Panama Canal Zone garrisons, and the maintenance and operation (except cost of personnel) of the Army Medical Museum and Library. The net increase in 1934 amounts to \$9,523 for medical and hospital supplies.

CORPS OF ENGINEERS

Embraces items for engineer depots, school, equipment of troops, operations in the field, and military surveys and maps, heretofore appropriated for separately but consolidated in this Budget under the title "Engineer service, Army." The net increase of \$10,600 results from various small increases and decreases in the items covered by this appropriation.

ORDNANCE DEPARTMENT

Comprises appropriation items for ordnance service and supplies (including the procurement of ammunition for seacoast guns heretofore provided for under the appropriations for "Seacoast defenses"), the maintenance and operation of Rock Island Arsenal bridges, the repair of arsenals, and the development and procurement of gauges, dies, and jigs for manufacture. The net increase for 1934 is \$15,445. This small increase results from a number of increases and decreases and the substitution of new projects in the place of others to be completed during 1933.

CHEMICAL WARFARE SERVICE

Excluding savings under the 1933 economy act and similar savings proposed for 1934, the 1934 estimate is the same as the appropriation for 1933.

CHIEFS OF INFANTRY, CAVALRY, FIELD ARTILLERY, AND COAST ARTILLERY

Includes the service schools of these four branches of the Army. The net decrease in 1934 of \$1,967 results from a decrease of \$3,677 in the requirements of the Infantry School and increases in those of the Cavalry School of \$310 and of the Field Artillery School of \$1,400, respectively.

SEACOAST DEFENSES

This embraces, for the United States, insular possessions, and Panama Canal, the construction, maintenance, and repair of fixed fortifications; the procurement, installation, and maintenance of fire-control systems, searchlights, and submarine mine defenses; installation of fixed antiaircraft defenses; and the procurement and maintenance of ordnance and ordnance material. Various phases of the work are handled by the Corps of Engineers, the Signal Corps, the Coast Artillery Corps, and the Ordnance Department. The Budget decrease for 1934 amounts to \$238,799, net, divided as follows: United States, increase \$20,147; insular possessions, decrease \$134,790; and Panama Canal, decrease \$124,156. These amounts are the results of a number of increases and decreases affecting 30 objects of expenditure and fall principally in two classes—nonrecurring items and items which can be postponed.

UNITED STATES MILITARY ACADEMY

Under this head fall the pay and allowances of cadets and civilian employees, and the maintenance, operation, and repair of the academy. The net increase in 1934 is \$64,611, and is principally for maintenance and repair of building and roads. An average of 1,236 cadets is provided for.

MILITIA BUREAU

Under this head provision is made for the entire cost to the Federal Government for the equipment, maintenance, and training of the National Guard, except the pay and allowances of commissioned officers of the Regular Army and the pay of enlisted men of the Regular Army detailed as instructors. The Budget estimate for 1934 shows a net decrease below 1933 of \$3,590,032.

This net decrease results from increases and decreases in the following items: Forage, \$376,352, decrease, due to reduced prices; compensation of help, \$185,753, decrease, due to adoption of a plan of having each animal caretaker care of 12 instead of 8 animals; expenses of camps of instruction, \$1,905,627, increase, due to estimated increase of 19 per cent in camp attendance; expenses of selected guardsmen at Regular Army service schools, \$55,800, increase, to provide for an increased number of students; general expenses, equipment and instruction, \$57,792, net increase, resulting from reduction of \$8,660 for target range keepers, an increase of \$21,000 in target range construction, \$35,452 increase for gasoline, oil, and grease for training with aircraft, increasing inactive duty flying hours from 96 to 125 hours per pilot, and \$10,000 increase for correspondence courses of instruction; traveling expenses, \$21,739, decrease; pay of property and disbursing officers, \$1,500, increase; ex-

penses of sergeant instructors, \$11,550, decrease, due to a reduction of 15 in the number of sergeant instructors; pay for armory drills, \$4,652,314, decrease, due to a reduction in the number of pay drills from a minimum of 48 to a minimum of 24; and for arms, uniforms, and equipment for field service a net decrease of \$363,043, resulting from an increase of \$122,158 for Air Corps equipment, and decreases of \$246,531 for ammunition, \$105,000 for ordnance equipment, and \$133,670 for procurement of airplanes.

For 1933 provision is made for an aggregate authorized strength of 190,211 officers and men. The actual average strength is estimated at about 185,000.

ORGANIZED RESERVES

The net decrease for 1934 is \$354,166, resulting from decreases of \$615,922 in the cost of 14-day training camps; \$39,097 for Air Corps reserve officers on active duty with the Regular Army Air Corps; \$38,145 for training manuals; \$18,330 for purchase of automobiles; and increases of \$340,143 for active and inactive duty flying, and \$17,185 for more than 14 days' training. The Budget estimate makes provision for 14 days' active-duty training of 16,000 reserve officers; for detail of six months each on the General Staff of 20 such officers; for the detail on active duty for one year with tactical units of the Air Corps of the Regular Army of 272 reserve pilots; for attendance of from 6 to 12 weeks of 300 reserve officers at Regular Army service schools; and for the detail of 130 reserve officers as instructors at citizens' military training camps.

RESERVE OFFICERS' TRAINING CORPS

Decrease in 1934, \$165,169, due to a reduction in the duration of annual camps from 42 to 30 days and a reduction in subsistence allowances because of reduced commodity costs. The Budget estimate makes provision for the enrollment and instruction of 127,565 students in Reserve Officers' Training Corps units at schools and colleges and the training of 7,200 of this number in 30-day camps.

CITIZENS' MILITARY TRAINING CAMPS

Decrease in 1934, \$1,592,619, due to reduction in number of trainees at 30-day training camps from 37,500 in 1933 to 13,000 in 1934.

NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE

Provision is made under this head for quartermaster supplies and services for rifle ranges for civilian instruction; for the procurement of trophies and medals; and for ordnance equipment and ammunition for civilian rifle clubs.

The decrease in 1934 of \$2,500 is due to a reduction in the cost of medals and trophies.

Permanent appropriations:

FINANCE DEPARTMENT

Two permanent indefinite appropriations are involved—one providing for the repayment to enlisted men of the Army, upon discharge, of savings deposited with the Finance Department during their terms of enlistment, and the other being for the payment of claims of officers and men of the Army for destruction of private property. The decrease in 1934 of \$200,000 represents an estimated reduction in the funds required under the first-mentioned item.

ORDNANCE DEPARTMENT

Under this department there is one permanent appropriation which authorizes the use of not more than \$75,000 in any one fiscal year from the proceeds of sales of useless ordnance material.

NONMILITARY ACTIVITIES

Annual appropriations:

QUARTERMASTER CORPS

Under this head are included the appropriation items for cemeterial expenses, national military parks, markers, and national memorials and monuments.

The net increase for 1934 is \$30,424, all in the item for national cemeteries and due principally to improvements at Arlington National Cemetery, Va., purchase of headstones, and assumption by the Quartermaster Corps of the care of memorials erected in Europe by the Battle Monuments Commission. In general, the estimates submitted for 1934 under this title provide only for the maintenance of the various national cemeteries and monuments and national military parks in their present condition. All projects for the creation of new parks and monuments have been either suspended or postponed.

SIGNAL CORPS

This covers the maintenance and operation of the Washington (State)-Alaska Military Cable and Telegraph System, now used almost exclusively for commercial and Government civil purposes. The increase in 1934 of \$5,533, net, is due to a reduction of \$8,220 in rents and increases totaling \$13,753 for radio supplies and materials. This system is now operated principally by radio, the old cable and telegraph installation being retained as a reserve system.

CORPS OF ENGINEERS

Included in the annual appropriations under this head is the maintenance and improvement of existing river and harbor works; maintenance and operation of Dam No. 2, Muscle Shoals, Ala.; flood control on the Mississippi and Sacramento Rivers; emergency fund for flood control on tributaries of the Mississippi River; and the preservation and repair of historical fortifications.

Excluding the emergency appropriations of \$30,000,000 for improvement of rivers and harbors and \$15,500,000 for flood control on the Mississippi River and tributaries, made by the relief act approved July 21, 1932, for which there are no corresponding items for 1934, the total decrease for 1934 is \$32,475,967, arrived at as follows: \$20,161,871 for maintenance and improvement of existing river and harbor works; \$12,066,576 for flood control of the Mississippi River and tributaries; \$50,000 for emergency fund for flood control; and \$207,520 for flood control of the Sacramento River; and an increase of \$10,000 for preservation and repair of historical fortifications at San Juan, P.R.

In connection with the reduction in 1934 estimates for maintenance and improvement of existing river and harbor works and for flood control on the Mississippi River below the appropriations for 1933, the following facts should be taken into consideration:

Rivers and Harbors: Taking cash on hand June 30, 1932, of \$20,057,275, and adding thereto \$60,000,000 appropriated July 14, 1932, \$30,000,000 appropriated by the relief act of July 21, 1932, and the \$39,388,129 estimated

for 1934, makes a total of \$149,445,404 to cover expenditures for 24 months—July 1, 1932, to June 30, 1934. This provides an average monthly expenditure of \$6,226,891, or at the rate of \$74,722,702 per year. By reason of reduced costs of labor and material the amount of work which can be accomplished with this sum is from 15 to 40 per cent greater than would have been possible with a like sum prior to the fiscal year 1930. On this basis the value of the work of improvement of rivers and harbors during the fiscal years 1933 and 1934 would represent between \$171,862,214 and \$209,223,565 at 1929 costs.

Flood control: On June 30, 1932, the amount of cash on hand was \$18,369,764. Adding to this \$32,000,000 appropriated July 14, 1932, \$15,500,000 appropriated by the relief act of July 21, 1932, and the 1934 estimate of \$19,653,424, makes a total of \$85,523,188, and permits an average monthly expenditure for the 24 months—July 1, 1932, to June 30, 1934—of \$3,563,466, or at the rate of \$42,761,594 per year. The same principle as to increase in value of work due to reduced labor and material costs, as mentioned above in the case of rivers and harbors, is equally applicable to flood-control work.

Permanent appropriations:

FINANCE DEPARTMENT

Two permanent-indefinite appropriations are concerned, namely, claims for extra pay to Regular Army, war with Spain, and claims of volunteers for extra pay, war with Spain. The estimated amounts required to meet these two classes of claims in 1934 are decreased by a total of \$8,000.

QUARTERMASTER CORPS

Under this head there is one permanent appropriation which makes available the use of the interest from an endowment fund toward the preservation of the birthplace of Abraham Lincoln. This interest amounts to \$2,040 annually.

CORPS OF ENGINEERS

Falling under this head are the following permanent appropriations: Removing obstructions in Mississippi, Atchafalaya, and Old Rivers; operating snag and dredge boats on upper Mississippi, Illinois, and Minnesota Rivers; maintenance of channel, South Pass, Mississippi River; examinations and surveys at South Pass, Mississippi River; gauging waters of the Mississippi River and its tributaries; operating snag boats on the Ohio River; permanent international commission of congresses of navigation; operating and care of canals and other works of navigation; and funds contributed and advanced for river and harbor improvements and flood control.

The Budget estimate for 1934 for these purposes is \$10,868,500, an increase above 1933 of \$660,000, net, due to increases of \$250,000 for the operating and care of canals and other works of navigation; \$560,000 in funds contributed and advanced for river and harbor work and flood control; and a decrease of \$150,000 in contributed funds for flood control on the Mississippi River.

UNITED STATES SOLDIERS' HOME (DISTRICT OF COLUMBIA)

This home is supported by trust funds and the interest derived therefrom, plus certain miscellaneous receipts. The estimate of withdrawals for 1934 is the same as that for 1933.

PANAMA CANAL

Annual appropriations:

The appropriation items involved are maintenance and operation, sanitation, and civil government.

For maintenance and operation the net increase in 1934 is \$2,408,989, the result of numerous increases and decreases. The principal item of increase is \$3,000,000 for continuing the construction of the Madden Dam and the principal decrease is \$517,968 in betterments. In explanation of the increase for Madden Dam it should be noted that whereas the 1933 Budget estimate for this dam was \$4,500,000, only \$1,000,000 was appropriated, the remaining \$3,500,000 being provided for in the 1933 appropriation act by language reading, "and such sums, aggregating not to exceed \$3,500,000, as may be deposited in the Treasury of the United States as dividends by the Panama Railroad Co. in excess of 10 per cent of the capital stock of such company." As this reduced the receipts of the Treasury in the form of dividends of the Panama Railroad Co. to a corresponding amount no saving to the Government was accomplished by this provision. The amount provided in the 1934 estimates for Madden Dam is \$4,000,000. The betterments provided for in the Budget for 1934 are: Concrete wharf for Cristobal Dry Dock, \$350,000; beginning repairs to Bolivar Highway, \$100,000; municipal improvements—grading building sites, \$150,000; continuation of Corundu fill, \$128,853; continuing construction of permanent quarters for American employees, \$500,000; and widening streets on the Pacific side of the canal, including construction of a crossover to Gaillard Highway, \$50,000; total, \$1,278,853.

For sanitation of the canal and Canal Zone the estimate for 1934 is the same net amount as the appropriation for 1933.

For civil government there is a net increase in 1934 of \$22,472, the result of a number of small increases and decreases occasioned by fluctuations in annual requirements.

Total reductions.....									—4, 754, 352

¹ Includes Federal contribution of \$7,775,000.

The total reduction of \$4,754,352 includes \$2,426,095 due to reductions predicated on continuing, during the fiscal year 1934, certain provisions of the economy act, leaving a further reduction of \$2,328,257, the details of which are as follows:

Annual appropriations:

GENERAL EXPENSES

The net decrease of \$89,080 is occasioned by increases of \$6,300 and decreases of \$95,380. The former amount

provides \$5,000 for binding books, and \$1,300 for repairs to buildings, of the public library. The decreases of \$95,380 have been secured largely through the dropping of positions made vacant by retirements or other separations from the service.

CONTINGENT AND MISCELLANEOUS EXPENSES

The net increase of \$1,150 is accounted for by increases of \$5,450 for purchase and exchange of automobiles, and \$11,500 for postage (due to the increase of the letter postage rate from 2 to 3 cents), and decreases of \$10,000

for bookkeeping machines and other office appliances, \$5,000 for printing and binding, \$300 for judicial expenses, and \$500 for marking historical places.

MUNICIPAL CENTER

Postponement of construction of the first unit of the Municipal center results in a decrease of \$222,000.

STREET AND ROAD IMPROVEMENT AND REPAIR

The net decrease of \$104,370 involves the following increases and decreases: Increases—\$37,800 for widening and repaving Constitution Avenue; \$625,000 for beginning the construction, at a total cost of \$1,250,000, of a new bridge to replace the present Calvert Street Bridge; and \$512,800 in the item of gasoline tax road and street improvement and repair fund. Decreases—\$957,500 in the item of repairs to streets, etc., through its elimination as a separate item and consolidation with the item of gasoline tax road and street improvement and repair fund; \$5,000 for purchase of small areas at the intersection of streets, also consolidated with the gasoline tax road and street improvement and repair fund; \$87,500 for construction and maintenance of bridges, likewise consolidated with the gasoline tax road and street improvement and repair fund; \$25,000 for street improvements under the assessment and permit system; \$150,000 for the construction of the Benning Bridge; \$40,000 for plans for the Calvert Street Bridge; \$10,710 for salaries of the highways department, through the dropping of certain positions; and \$1,760 for salaries, and \$2,500 for expenses, of the department of trees and parking.

SEWERS

The decrease of \$274,240 is made up as follows: Personal services, \$3,240; cleaning and repairing sewers, \$5,000; main and pipe sewers, \$15,000; suburban sewers, \$110,000; assessment and permit work, \$140,000; and purchase of rights of way (through the consolidation of this item with the item for assessment and permit work), \$1,000.

REFUSE

The net increase of \$55,480 results from an increase of \$85,000 for collection and disposal of garbage, on account of full-time operation of the two new incinerators, and decreases of \$4,520 for personal services and \$25,000 for cleaning streets.

PUBLIC GROUNDS

There is a decrease of \$380 in the item for maintenance of bathing pools.

ELECTRICAL DEPARTMENT

The net decrease of \$22,500 is due to an increase of \$4,000 for additional telephone facilities for the police department, and decreases of \$10,500 for personal services and \$16,000 for street lighting.

PUBLIC SCHOOLS

The net decrease of \$169,030 for operation and maintenance of the public schools represents increases in the amount of \$247,470 and decreases amounting to \$416,500, as follows:

Increases: \$3,085 for additional personnel in the administrative and supervisory force, \$2,400 for additional personnel in the clerical force, \$500 for salary adjustments

in the department of school attendance and work permits, \$175,236 for additional personnel requirements in the teaching force, \$500 for tuition of colored deaf mutes, \$200 for salary adjustments in the community center department, \$15,740 for additional personnel for the care of new buildings and grounds, \$8,000 under the head of transportation of tubercular and crippled pupils, through the consolidation with that item of the item for maintenance of tubercular and crippled pupils, \$5,000 for manual-training tools, \$11,309 for furniture and equipment for new buildings, \$5,000 for contingent expenses, \$10,000 for textbooks and educational supplies, \$10,000 for library books and equipment for the teachers colleges, and \$500 for purchase of laboratory apparatus.

Decreases: \$1,000 for tuition of blind children, \$1,000 for compensation of teachers of Americanization schools, \$11,000 for maintenance of tubercular and crippled children (through the consolidation of this item with the item for transportation of tubercular and crippled children), \$23,000 for fuel, light, and power, \$165,000 for furniture and equipment for the Roosevelt High School, \$37,500 for repairs and improvements to buildings, \$12,500 for remodeling the Western High School laboratory, and \$165,500 for remodeling the old Business and old Cardozo High Schools.

The estimate of \$1,139,000 for buildings and grounds consists of \$937,000 for buildings and \$202,000 for grounds, as follows: Buildings—\$105,000 for an 8-room building in the vicinity of the Logan School; \$166,000 for a 10-room addition to the Deal Junior High School, including a gymnasium; \$166,000 for a 10-room addition to the Browne Junior High School, including a gymnasium; and \$500,000 for beginning the construction, at a total cost of not to exceed \$1,300,000, of a senior high school building in the Reno section. Grounds—\$67,000 for land for an addition to the Phelps School; \$25,000 for land for an addition to the Syphax School; \$110,000, together with an unexpended balance of \$75,000 for the same purpose in 1933, for additional land for a site for the Jefferson Junior High School.

METROPOLITAN POLICE

The net increase of \$64,176 is occasioned by increases of \$70,036 for salaries of officers and members of the force, \$4,450 for additional personnel requirements in the clerical force, and \$1,500 for maintenance of additional telephone facilities; and by decreases of \$500 for fuel, \$2,500 for repairs and improvements, \$6,000 for uniforms and equipment, and \$2,810 for the House of Detention.

FIRE DEPARTMENT

The net increase of \$16,100 is due to an increase of \$8,900 for pay of officers and members of the department, \$2,000 for contingent expenses, and \$12,500 for new apparatus; and to decreases of \$300 for the clerical force, \$4,000 for uniforms and equipment, and \$3,000 for fuel.

HEALTH DEPARTMENT

The decrease of \$14,860 is occasioned by the dropping of one clerk at \$1,560 in the item for personal services, and by decreases of \$3,000 in expenditures for the prevention of contagious diseases, \$9,000 for nonrecurring items in the maintenance of dispensaries, \$300 for the enforcement of the food and drug laws, and \$1,000 for the maintenance and operation of automobiles.

COURTS AND PRISONS

The decrease of \$60,730 results from reductions of \$750 for the juvenile court, \$3,600 for the police court, \$4,760 for pay of bailiffs in the Supreme Court of the District of Columbia, \$1,500 for repairs and improvements to the Supreme Court building, \$120 for care of the Court of Appeals building, \$25,000 for support of convicts, and \$25,000 for miscellaneous expenses of the Supreme Court of the District of Columbia on account of condemnation proceedings.

PUBLIC WELFARE

The net decrease of \$470,683 represents increases in the amount of \$456,017, and decreases amounting to \$926,700, as follows:

Increases: Board and care of guardianship children, \$25,000; home care for dependent children, \$9,840; maintenance of the jail, \$2,500; maintenance of the workhouse and reformatory, \$16,000; repairs and improvements at the workhouse and reformatory, \$3,500; maintenance at the National Training School for Boys, \$10,000; care and treatment of indigent patients at Central Dispensary and Emergency Hospital, \$5,000; personal services, \$3,560, and maintenance, \$2,000, at the Tuberculosis Hospital; personal services, \$35,000, and furniture and equipment, \$60,000, at the Children's Tuberculosis Sanatorium; personal services, \$7,560, maintenance, \$10,000, and repairs to buildings and grounds, \$2,500, at Gallinger Hospital; personal services, \$4,180, maintenance, \$6,000, and purchase of motor truck, \$1,200, at the District Training School; personal services, \$1,320, and maintenance, \$2,500, at the Industrial Home School for Colored Children; maintenance, \$500, at the Industrial Home School for white children; personal services, \$1,740, maintenance, \$7,500, purchase of motor truck, \$1,000, and an addition to the colored women's ward, \$12,500, at the Home for the Aged and Infirm; support of indigent insane at St. Elizabeths Hospital, \$221,117; transportation of non-resident insane, \$1,000; and payments to abandoned wives and children, \$3,000.

Decreases: Personal services, Board of Public Welfare, \$1,220; personal services at the jail, \$1,260; construction of new buildings at the workhouse and reformatory, \$15,000; personal services \$1,020, and maintenance \$1,180, at the National Training School for Girls; care and treatment of indigent patients, Children's Hospital, \$15,000, Eastern Dispensary and Casualty Hospital, \$15,000; repairs, etc., at Columbia Hospital, \$10,000; purchase of motor truck at Tuberculosis Hospital, \$700; construction of the Children's Tuberculosis Sanatorium, \$240,000; purchase of motor truck \$1,250, and construction of a contagious disease building, \$250,000, at Gallinger Hospital; repairs and improvements at the District Training School, \$3,750; furniture for dormitories at the Industrial Home School for Colored Children, \$3,750; personal services, \$1,200, and repairs and improvements, \$500, at the Industrial Home School for White Children; repairs and improvements, \$750, and addition to colored men's ward, \$11,250, at the Home for the Aged and Infirm; municipal lodging house, \$60; emergency relief for unemployed, \$350,000; temporary home for ex-soldiers, \$1,310; and Southern Relief Society, \$2,500.

MILITIA

The decrease of \$1,600 is accomplished through the consolidation into one item of the six separate items for the militia.

ANACOSTIA RIVER AND FLATS

Except for a reduction predicated upon continuing during the fiscal year 1934 certain provisions of the economy act, the estimate for reclamation and development of Anacostia Park is in the same amount as the appropriation for 1933.

PUBLIC BUILDINGS AND PUBLIC PARKS

The net decrease of \$8,945 is accounted for by a reduction of \$10,000 for personal services, public parks, and \$500 for uniforms and equipment of the park police; and by an increase of \$1,555 for pay and allowances of the park police. The estimate for general expenses, except for the reduction predicated on a continuance during 1934 of certain provisions of the economy act, is in the same amount as the appropriation for 1933, and includes \$75,000 for the improvement of Anacostia Park, \$30,000 for the improvement of the Rock Creek and Potomac connecting parkway, and \$10,000 for the erection of minor auxiliary structures.

NATIONAL CAPITAL PARK AND PLANNING COMMISSION

There is a decrease of \$7,185 in the item of salaries and expenses of the National Capital Park and Planning Commission.

NATIONAL ZOOLOGICAL PARK

The decrease of \$5,880 is occasioned by a nonrecurring item of \$5,000, and by a reduction for personal services of \$880.

WATER SERVICE

The net decrease of \$279,680 results from increases of \$294,550, and decreases of \$574,230. The increases are \$2,550 for operation of the Washington Aqueduct, \$15,000 for a 5,000,000-gallon pump at the Anacostia pumping station, \$250,000 for a water main under the Eastern Branch, from Eleventh and K Streets to Nichols Avenue and Good Hope Road SE., and \$27,000 for a water main in Foxhall Road NW., from Garfield Street to W Street. The decreases are \$150,000 for the booster pumping plant at Dalecarlia Reservoir, \$6,730 for personal services under the revenue, inspection, and distribution branches, \$19,500 for maintenance of the distribution system, \$25,000 for extension of the distribution system, \$3,000 for installation of hydrants, \$25,000 for replacing old water mains, and \$345,000 for the water main from Fifth and Upshur Streets to Georgia Avenue and Military Road NW.

Permanent appropriations:

The net decrease of \$304,500 represents increases of \$1,000 in the estimate of expenditures from the escheated estates relief fund, and \$100,000 in the estimate of expenditures from the policemen and firemen's relief fund; and the following estimates of decreases: Refunding taxes, \$20,000; Industrial Home School fund, \$500; teachers' retirement fund deductions, \$10,000; miscellaneous trust fund deposits, \$125,000; and Washington redemption fund, \$250,000.

CLASSIFICATION OF APPROPRIATIONS AND EXPENDITURES BY GOVERNMENTAL FUNCTIONS

[See Chart No. 2, Page A3, and Functional Table, Budget Statement No. 8, Page A177]

The following is a brief general outline of the character of expenditures or appropriations comprehended within each general function:

Legislative.—Those for the activities of Congress as a legislative body.

Judicial.—Those having to do with the judicial branch of the Government. They include all United States courts other than the District of Columbia courts which are included under "District of Columbia, Territorial, and other local governments."

Executive.—Those of the Executive Office; including the salary and expenses of the President and the salary of the Vice President.

General administration.—Those for administrative agencies which are of a general character and those departmental activities which can not now be allocated to specific functions.

Construction of general Government buildings, including sites.—Those for the construction of buildings for general administrative purposes in the District of Columbia and for buildings used for administrative purposes in common by various branches of the Government outside the District of Columbia.

National defense.—Those for military activities of the War Department and the naval and military activities of the Navy Department. Retired pay of officers and enlisted men is included.

Military pensions, annuities, compensation, homes and hospitals for war veterans, and life insurance claims.—Those for military pensions and other forms of compensation for past military services, construction and maintenance of hospitals and soldiers' homes, and other activities of the Veterans' Administration for the care of veterans.

Foreign relations and protection of American interests abroad.—Those for the activities of the State Department in the conduct of relations of foreign governments, local representation abroad, cooperation for settlement of international controversies, and the promotion of friendly intercourse with foreign peoples.

General law enforcement.—Those for activities having to do with the enforcement of the general laws and the administration and enforcement of special acts like the national prohibition act and the narcotic act.

Provisions for control of currency and banking.—Those connected with the regulation of currency and of banking through the office of the Comptroller of the Currency and Public Debt Service, the Federal Reserve Board, the Bureau of the Mint, and the Bureau of Engraving and Printing.

Administration of Indian affairs.—Those for the care and education of the Indian wards of the Nation.

Administration of the public domain.—Those having to do with the care and utilization of public lands, the national forests, and national parks.

Promotion and regulation of commerce and industry.—Those for activities having to do with the promotion and regulation of commerce and industry.

Promotion and regulation of aerial transportation.—Those for the promotion and regulation of commercial aerial transportation as distinguished from aerial activities in the Army, Navy, and Marine Corps, which is included under national defense.

Promotion, regulation, and operation of marine transportation.—Those for activities having to do with the preparation of charts and sailing directions, the supplying of public facilities for navigation, the provision for a merchant marine, the rescue and relief of seamen and passengers, the activities of the United States Shipping Board and Merchant Fleet Corporation, and the purchase of capital stock of the Inland Waterways Corporation.

Promotion and regulation of land transportation.—Those activities having to do with the promotion and regulation of land transportation, including the Federal control of transportation systems exercised during the World War and the payments and advances made since the termination of Federal control in the form of guaranties, as provided by the transportation act of 1920.

Postal Service.—Those for the deficiencies in postal revenues paid from the Treasury.

Promotion and regulation of agriculture.—Those for activities of the Federal Farm Board and the Department of Agriculture in the promotion of agriculture and game preservation.

Promotion and regulation of fisheries.—Those for activities connected with the propagation and distribution of food fishes, the protection of Alaska seal and salmon fisheries, and other like activities.

Promotion of labor interests.—Those for activities having to do with the compilation of labor laws and statistics, the investigation of labor questions, the improvement in housing conditions, the establishment of employment agencies, the payments made by the Employees' Compensation Commission to Government employees from the compensation fund, and other like activities.

Immigration and naturalization.—Those involved in regulating immigration, preventing importation of contract labor, the enforcement of laws against alien anarchists, deportation of aliens, care of interned aliens, and the regulation of naturalization.

Promotion of public health.—Those for activities having to do with the promotion and protection of public health, exclusive of medical activities in the Army and Navy and of the care of sick and disabled veterans under the Veterans' Administration.

Promotion of public education.—Those for activities having to do with the promotion of public education and all activities of the Federal Board for Vocational Education.

Science and research, general.—Those for activities having to do with the investigation and publication of knowledge gained and verified by exact observation; the reporting of results of investigations that have been worked out and systematized concerning some subject or group of subjects of ascertained facts. Research incident to the study of subjects, or development of matériel, necessary for the accomplishment of objects under other functional headings are not included; for example, insect research for eradication of particular pests under promotion of agriculture, development of a particular arm or weapon under national defense, etc.

Public improvements.—Those involving capital expenditures in constructing public improvements within and without the District of Columbia, other than those outlays for plant facilities and additions which, being essential to the proper performance of specific activities, are included under their respective functions. For a compilation of all outlays for public works, see Budget Statement No. 9, page A179.

District of Columbia, Territorial and other local governments.—Those for the District of Columbia and Alaska, Hawaii, and other insular possessions and such aid as is given to State governments by the Federal Government in the form of subventions, exclusive of specific grants for education, public health, construction of rural post roads, etc.

Relief expenditures.—Those for relief to American citizens abroad, contributions toward the maintenance of foreign hospitals which admit citizens of the United States, and other like welfare operations, both foreign and domestic.

Refunds, losses, and miscellaneous.—Those for repayment or refund of the whole or part of an amount or amounts previously received in payment of indebtedness to the United States, and losses, such as charges on bullion sold, recoinage of gold, silver, and minor coins, and other bullion and coinage losses; it also includes the trust funds comprising the savings system for the enlisted men of the Army, Navy, and Marine Corps.

Fixed debt charges.—Those expenditures required to be made from ordinary receipts in the redemption and purchase of outstanding bonded indebtedness. They also include the amount of interest paid on the public debt, all of which is payable from ordinary receipts. Refunding operations and additional redemptions paid from surplus and balances are not included.

Printing and binding for Congress chargeable to the foregoing appropriation, when recommended to be done by the Committee on Printing of either House, shall be so recommended in a report containing an approximate estimate of the cost thereof, together with a statement from the Public Printer of estimated approximate cost of work previously ordered by Congress within the fiscal year for which this appropriation is made.

During the fiscal year [1933] 1934 any executive department or independent establishment of the Government ordering printing and binding from the Government Printing Office shall pay promptly by check to the Public Printer upon his written request, either in advance or upon completion of the work, all or part of the estimated or actual cost thereof, as the case may be, and bills rendered by the Public Printer in accordance herewith shall not be subject to audit or certification in advance of payment: *Provided*, That proper adjustments on the basis of the actual cost of delivered work paid for in advance shall be made monthly or quarterly and as may be agreed upon by the Public Printer and the department or establishment concerned. All sums paid to the Public Printer for work that he is authorized by law to do shall be deposited to the credit, on the books of the Treasury Department, of the appropriation made for the working capital of the Government Printing Office, for the year in which the work is done, and be subject to requisition by the Public Printer.

All amounts in the Budget for the fiscal year [1934] 1935 for printing and binding for any department or establishment, so far as the Bureau of the Budget may deem practicable, shall be incorporated in a single item for printing and binding for such department or establishment and be eliminated as a part of any estimate for any other purpose. And if any amounts for printing and binding are included as a part of any estimates for any other purposes, such amounts shall be set forth in detail in a note immediately following the general estimate for printing and binding: *Provided*, That the foregoing requirements shall not apply to work to be executed at the Bureau of Engraving and Printing.

No part of any money appropriated in this Act shall be paid to any person employed in the Government Printing Office while detailed for or performing service in any other executive branch of the public service of the United States unless such detail be authorized by law (*act June 30, 1932, 47 Stat., pp. 396-397*).

[The Public Printer may continue the employment under his jurisdiction of Samuel Robinson, Congressional Record messenger, notwithstanding the provisions of any Act prohibiting his employment because of age.]

ARLINGTON MEMORIAL BRIDGE COMMISSION

Arlington Memorial Bridge—

For continuing the construction of the Arlington Memorial Bridge across the Potomac River at Washington, authorized in an Act entitled "An Act to provide for the construction of a memorial bridge across the Potomac River from a point near the Lincoln Memorial in the city of Washington to an appropriate point in the State of Virginia, and for other purposes," approved February 24, 1925 (43 Stat., p. 974), to be expended in accordance with the provisions and conditions to the said Act, **[\$340,000]** **\$294,675**, of which not exceeding \$20,000 shall be available for clerical and accounting service, including all necessary incidental and contingent expenses, printing and binding, and traveling expenses, to remain available until expended: *Provided*, That the commission may procure supplies and services without regard to section 3709 of the Revised Statutes (U. S. C., title 41, sec. 5) when the aggregate amount involved does not exceed \$50: *Provided further*, That no part of this appropriation shall be used to pay for the cost of reconstructing and paving Constitution Avenue east of Virginia Avenue, as provided in the approved project, except for such portions as

may abut upon Government-owned property, and not in excess of 40 per centum of the cost of such reconstructing and paving of that portion of the said street which so abuts (*acts Feb. 24, 1925, 43 Stat., p. 974; June 30, 1932, 47 Stat., p. 454*).

United States Shipping Board Shipping Fund—

For expenses of the United States Shipping Board Merchant Fleet Corporation during the fiscal year ending June 30, [1933] 1934, for administrative purposes, miscellaneous adjustments, losses due to the maintenance and operation of ships, including operation through an agreement to pay a lump-sum compensation, for the protection of the interests of the United States in any vessel on which the United States holds a mortgage, for the repair of ships, for the purchase, exchange, maintenance, repair, and operation of motor vehicles for official purposes only; for the payment of premiums for liability, fire, theft, property damage, and collision insurance and for other forms of insurance, including schedule and fidelity bonds, commonly carried by commercial corporations engaged in the same or a similar business, and for carrying out the provisions of the Merchant Marine Act, 1920, and amendments thereto, (a) the amount of operating funds on hand July 1, [1932] 1933, not to exceed \$50,000,000; (b) \$2,875,000, including the salaries of employees of the Fleet Corporation assigned to the Shipping Board; (c) all amounts received during the fiscal year ending June 30, [1933] 1934, other than the proceeds of sales of ships and surplus property; [(c)] (d) so much of the total proceeds of sales of ships and surplus property received during the fiscal year [1933] 1934, but not exceeding [\$1,500,000] \$1,000,000, as is necessary to meet the expenses of liquidation, including the costs incident to the delivery of vessels to purchasers, the cost of maintaining the laid-up fleet and the salaries and expenses of the personnel engaged in liquidation: *Provided*, That the unexpended balance of \$500,000 made available for experimental and research work in the Independent Offices Appropriation Act for the fiscal year 1930, [is hereby] reappropriated and made available until June 30, 1933, *is hereby continued available until June 30, 1934*, for the same purposes and under the same terms, including supervision and inspection of construction of vessels on which loans have been made from the construction loan fund: *Provided further*, That no part of these sums, (a), (b), [and] (c), and (d) shall be used for the payment of claims arising out of the construction and requisitioning of vessels; [(d)] (e) all interest earned on the funds, excepting the construction loan fund, of the United States Shipping Board Merchant Fleet Corporation is to accrue to these funds and is made available for the purposes hereinbefore set forth subject to the limitations herein established: *Provided further*, That the unexpended balances of the sums made available by the Independent Offices Appropriation Act, 1930, for reconditioning and operating ships for carrying coal to foreign ports [shall continue], *continued available for the same purposes for the fiscal year 1933, are hereby*

made available for the general purposes hereinbefore set forth for the Merchant Fleet Corporation for the fiscal year 1934: Provided, That not to exceed \$4,000,000 of the funds hereinbefore made available may be transferred to the Post Office Department and, when so transferred, shall be available only for meeting the cost in the fiscal year 1934 of foreign mail contracts entered into by that department under the provisions of the Merchant Marine Act, 1928, approved May 22, 1928, for service upon steamship lines which may be sold by the United States Shipping Board subsequent to December 1, 1932.

That portion of the special claims appropriation, contained in the Independent Offices Appropriation Act for the fiscal year 1923, committed prior to July 1, 1923, and remaining unexpended on June 30, [1932] 1933, shall continue available until June 30, [1933] 1934, for the same purposes and under the same conditions.

To enable the United States Shipping Board Merchant Fleet Corporation to operate ships or lines of ships which have been or may be taken back from purchasers by reason of competition or other methods employed by foreign shipowners or operators, there is hereby reappropriated the unexpended balance of the appropriation of \$10,000,000 made for similar purposes in the Independent Offices Appropriation Act for the fiscal year 1927: *Provided*, That no expenditure shall be made for the purposes of this paragraph from this sum without the prior approval of the President of the United States.

Not more than two passenger-carrying motor vehicles may be maintained and/or operated in the District of Columbia from the appropriations in this Act for the United States Shipping Board and the United States Shipping Board Fleet Corporation. Such vehicles shall be for the use of the officers and employees of the Shipping Board and the Fleet Corporation, under the direction of the chairman of the Shipping Board and the president of the Merchant Fleet Corporation.

No part of the sums appropriated in this Act shall be used to pay the compensation of any attorney, regular or special, for the United States Shipping Board or the United States Shipping Board Merchant Fleet Corporation unless the contract of employment has been approved by the Attorney General of the United States.

No officer or employee of the United States Shipping Board or the United States Shipping Board Merchant Fleet Corporation shall be paid a salary or compensation at a rate per annum in excess of \$10,000 except the following: One at not to exceed \$18,000, and two at not to exceed \$12,000 each.

No part of the funds of the United States Shipping Board Merchant Fleet Corporation shall be available for the rent of buildings in the District of Columbia during the fiscal year [1933] 1934 if suitable space is provided for said corporation by the Public Buildings Commission.

No part of the funds of the United States Shipping Board Merchant Fleet Corporation shall be available during the fiscal year [1933] 1934 for the purchase of any kind of fuel oil of foreign production for issue, delivery, or sale to ships at points either in the United States or its possessions, where oil of the production of the United States or its possessions is available, if the cost of such oil compared with foreign oil costs be not unreasonable.

Of the sums herein made available under the United States Shipping Board, not to exceed an aggregate of \$125,000 shall be expended for compensation of regular attorneys employed on a yearly salary basis, their clerical and legal assistants, and for fees and expenses of attorneys employed in special cases.

None of the money herein appropriated or authorized shall be used to make loans to any corporation with which the Postmaster General has made a contract for the carrying of mail under the provisions of the Merchant Marine Act of 1928, which contract has not been approved by the Comptroller General (*U. S. C., title 46, secs. 804, 805; act June 30, 1932, 47 Stat., pp. 468-469*).

United States Government Life Insurance Fund, Veterans' Administration—

SEC. 17. That all premiums paid on account of insurance converted under the provisions of Title III hereof shall be deposited and covered into the Treasury to the credit of the United States Government life-insurance fund and shall be available for the payment of losses, dividends, refunds, and other benefits provided for under such insurance, including such liabilities as shall have been or shall hereafter be reduced to judgment in a district court of the United States or in the Supreme Court of the District of Columbia. Payments from this fund shall be made upon and in accordance with awards by the director.

The bureau is authorized to set aside out of the fund so collected such reserve funds as may be required under accepted actuarial principles, to meet all liabilities under such insurance; and the Secretary of the Treasury is hereby authorized to invest and reinvest the said United States Government life-insurance fund or any part thereof, in interest-bearing obligations of the United States or bonds of the Federal farm-loan bank, and to sell said obligations of the United States or the bonds of the Federal farm-loan banks for the purposes of such fund (U. S. C., title 38, secs. 511-518, 551-576; U. S. C., Supp. V, title 38, secs. 511-516b).

Expenditures and obligations—1933, \$300; 1932, \$174,558; transferred to Department of the Interior, National Park Service, \$139,567.

[SEC. 2. In expending appropriations or portions of appropriations contained in this Act, for the payment for personal services in the District of Columbia in accordance with the Classification Act of 1923, as amended, the average of the salaries of the total number of persons under any grade in any bureau, office, or other appropriation unit shall not at any time exceed the average of the compensation rates specified for the grade by such Act, as amended: *Provided further*, That this restriction shall not apply (1) to grades 1, 2, 3, and 4 of the clerical-mechanical service, or (2) to require the

reduction in salary of any person whose compensation was fixed, as of July 1, 1924, in accordance with the rules of section 6 of such Act, (3) to require the reduction in salary of any person who is transferred from one position to another position in the same or different grade, in the same or different bureau, office, or other appropriation unit, (4) to prevent the payment of a salary under any grade at a rate higher than the maximum rate of the grade when such higher rate is permitted by the Classification Act of 1923 as amended, and is specifically authorized by other law, or (5) to reduce the compensation of any person in a grade in which only one position is allocated.]

[Sec. 3. No part of any money appropriated by this Act shall be used for purchasing any motor-propelled passenger-carrying vehicle (except busses, station wagons, and ambulances) at a cost, completely equipped for operation, in excess of \$750, except where, in the judgment of the heads of the sundry executive boards, commissions, and offices, provided for herein, special requirements can not thus be efficiently met, such exceptions, however, to be limited to not to exceed 10 per centum of the total expenditures for such motor vehicles purchased during the fiscal year, including the value of a vehicle exchanged where exchange is involved; nor shall any money appropriated herein be used for maintaining, driving, or operating any Government-owned motor-propelled passenger-carrying vehicle not used exclusively for official purposes; and "official purposes" shall not include the transportation of

officers and employees between their domiciles and places of employment except in cases of officers and employees engaged in field work the character of whose duties makes such transportation necessary and then only when the same is approved by the head of the department. This section shall not apply to any motor vehicles for official use of the Executive Office nor of the Administrator of Veterans' Affairs.]

SEC. [4] 2. That, except as hereinbefore provided, in the expenditure of appropriations in this Act the head of every bureau, agency, or independent establishment shall, unless in his discretion the interest of the Government will not permit, purchase or contract for, within the limits of the United States, only articles of the growth, production, or manufacture of the United States, notwithstanding that such articles of the growth, production, or manufacture of the United States may cost more, if such excess of cost be not unreasonable.

SEC. [5] 3. This Act hereafter may be referred to as the "Independent Offices Appropriation Act, [1933] 1934."

[Public Resolution Numbered 9, Fifty-eighth Congress, first session, approved March 14, 1904 (U. S. C., title 44, sec. 290), is hereby amended by striking out all after the resolving clause and inserting in lieu thereof the following:

"There shall be printed as soon as the manuscript can be prepared with the necessary maps and illustrations to accompany it a report on each soil area surveyed by the Bureau of Chemistry

and Soils, Department of Agriculture, in the form of advance sheets bound in paper covers, of which not more than two hundred and fifty copies shall be for the use of each Senator from the State and not more than one thousand copies for the use of each Representative for the congressional district or districts in which a survey is made, the actual number to be determined on inquiry by the Secretary of Agriculture made to the aforesaid Senators and Representatives, and as many copies for the use of the Department of Agriculture as in the judgment of the Secretary of Agriculture are deemed necessary. The total congressional and department edition shall be held for two years by the Superintendent of Documents, who shall distribute the soil surveys within the above limitations according to the requests of the said Senators, Representatives, or department, and at the expiration of the two-year period the residue of the edition shall be turned over to the Department of Agriculture" (act July 7, 1932, 47 Stat., p. 612).

Total, Office of Information, [\$1,335,800,] \$1,276,287 [of which amount not to exceed \$387,560 may be expended for personal services in the District of Columbia].

Cooperative Agricultural Extension Work—

For the purpose of paying the expenses of cooperative agricultural extension work and the necessary printing and distributing of information in connection with same, there is permanently appropriated \$480,000 for each year, \$10,000 of which is paid annually to each State which has by action of its legislature assented to the provisions of the act. There was also appropriated an additional sum of \$600,000 for the fiscal year following that in which the foregoing appropriation first became available, and for each year thereafter for seven years a sum exceeding by \$500,000 the sum appropriated for each preceding year, and for each year thereafter there is permanently appropriated the sum of \$4,100,000 in addition to the sum of \$480,000. The additional sums are allotted annually to each State by the Secretary of Agriculture and paid in the proportion which the rural population of each State bears to the rural population of all the States as determined by the next preceding Federal census, but no payment out of the additional appropriations can be made in any year to any State until an equal sum has been appropriated for that year by the legislature of such State, or provided by State, county, college, local authority, or individual contributions from within the State, for the maintenance of cooperative agricultural extension work. On May 16, 1928 (U. S. C., Supp. **[IV]** V, title 7, secs. 386-386b), this appropriation was amended to include a permanent allotment to the Territory of Hawaii of \$10,000 plus an additional sum of \$12,935.43, subject to the same terms and conditions as the original act. The permanent annual appropriation was thereby increased to \$4,602,935.43. Under the 1930 census the amount of money available to Hawaii increased by \$3,160, thereby automatically raising the total amount available under the original Smith-Lever Act by this amount. The Act of March 4, 1931, provides that the Smith-Lever Act and Acts supplementary thereto be increased without diminishing the amount now received by any State or other Territory, to carry out the provisions of this Act in the Territory of **[Porto]** *Puerto Rico*, and specifies that the appropriation for 1933 and subsequent years shall be \$50,000, *this amount to be increased by \$10,000 annually, or such part thereof as may be necessary, until the total to which Puerto Rico is entitled under the provisions of this Act is reached.* The permanent annual appropriation is thereby increased to **[\$4,656,096]** **\$4,666,096** (U. S. C., title 7, secs. 342, 343; U. S. C., Supp. V, title 7, secs. 386-386b).

BUREAU OF ANIMAL INDUSTRY

Salaries and Expenses, Bureau of Animal Industry—

For carrying out the provisions of the Act approved May 29, 1884 (U. S. C., title 7, sec. 391; title 21, secs. 112-119, 130), establishing a Bureau of Animal Industry, and the provisions of the Act approved March 3, 1891 (U. S. C., title 45, secs. 75, 76), providing for the safe transport and humane treatment of export cattle from the United States to foreign countries, and for other purposes; the Act approved August 30, 1890 (U. S. C., title 21, secs. 101-105),

providing for the importation of animals into the United States, and for other purposes; and the provisions of the Act approved February 2, 1903 (U. S. C., title 21, secs. 111-113, 120-122), to enable the Secretary of Agriculture to more effectually suppress and prevent the spread of contagious and infectious diseases of livestock, and for other purposes; and also the provisions of the Act approved March 3, 1905 (U. S. C., title 21, secs. 123-128), to enable the Secretary of Agriculture to establish and maintain quarantine districts, to permit and regulate the movement of cattle and other livestock therefrom, and for other purposes; and for carrying out the provisions of the Act of June 29, 1906 (U. S. C., title 45, secs. 71-74), entitled "An Act to prevent cruelty to animals while in transit by railroad or other means of transportation"; and for carrying out the provisions of the Act approved March 4, 1913 (U. S. C., title 21, secs. 151-158), regulating the preparation, sale, barter, exchange, or shipment of any virus, serum, toxin, or analogous products manufactured in the United States and the importation of such products intended for use in the treatment of domestic animals; and for carrying out the provisions of the Packers and Stockyards Act, approved August 15, 1921 (U. S. C., title 7, secs. 181-229); and to enable the Secretary of Agriculture to collect and disseminate information concerning livestock and animal products; to prepare and disseminate reports on animal industry; to employ and pay from the appropriation herein made as many persons in the city of Washington or elsewhere as he may deem necessary; to purchase in the open market samples of all tuberculin, serums, antitoxins, or analogous products, of foreign or domestic manufacture, which are sold in the United States, for the detection, prevention, treatment, or cure of diseases of domestic animals, to test the same, and to disseminate the results of said tests in such manner as he may deem best; to purchase and destroy diseased or exposed animals, including poultry, or quarantine the same whenever in his judgment essential to prevent the spread of pleuropneumonia, tuberculosis, contagious poultry diseases, or other diseases of animals from one State to another, as follows (U. S. C., title 5, secs. 511, 512; title 7, secs. 181-229, 391; title 21, secs. 101-105, 111-127, 130, 151-158; title 45, secs. 71-76; U. S. C., Supp. V, title 7, secs. 205, 231; act July 7, 1932, 47 Stat., pp. 617-621):

General administrative expenses: For necessary expenses for general administrative purposes, including the salary of chief of bureau and other personal services in the District of Columbia, **[\$184,025.] \$170,915** (U. S. C., title 5, secs. 511, 512; title 7, secs. 181-229, 391; title 21, secs. 101-105, 111-128, 130, 151-158; title 45, secs. 71-76; U. S. Used by agronomist.
Citrus canker eradication.....	2	do.....		To conduct physiological and breeding experiments with grain sorghums; confer with cooperating experiment station officials in the States of Kansas, Oklahoma, Texas, New Mexico, Arizona, Utah, Colorado, and Nebraska. Used by senior agronomist.
Cotton production and diseases.....	1	Touring.....	250	Used by agents in citrus canker eradication work in Louisiana. State pays all operating costs. This machine is the property of the Indian Bureau of the Department of the Interior and is allotted to the Bureau of Plant Industry for use in connection with the acclimatization and adaptation investigations in cooperation with the Indian Bureau at the U. S. field station, Sacaton, Ariz. It is in constant use and greatly facilitates the experimental work by providing a means of getting about the country at a saving of time and expense, as the station is on an Indian reservation, 45 miles from Phoenix, Ariz. Used by 1 agronomist, 1 junior horticulturist, 1 junior pathologist, 2 scientific aides, and other employees of the Department of Agriculture working in that territory.
Do.....	1	Sedan.....	200	Used in cooperative cotton work conducted from the United States cotton field station, 2 miles from Shafter, Calif., transporting Government employees on work in the San Joaquin Valley and other irrigated valleys in California in which cotton work is under way, where travel by auto is most economical. Used by 1 principal scientific aide, 1 senior scientific aide, 1 assistant scientific aide, 1 agent, and other employees of the Department of Agriculture working in that territory.
Do.....	1	do.....	400	Used in work conducted from the United States cotton breeding field station, 5 miles from Greenville, Tex., in reaching cooperative cotton plantings in northern and central Texas, and in adjacent portions of Oklahoma and Arkansas in instances where travel by automobile is more economical than by other means. Used by 1 associate agronomist, 1 senior pathologist, 1 assistant pomologist, 1 junior agronomist, 2 assistant scientific aides, and other employees of the Department of Agriculture working in north Texas and adjacent territory in near-by States.
Do.....	1	do.....	350	Used in cotton and other acclimatization studies conducted from U. S. acclimatization garden, Bard Mesa, Calif., 17 miles from Yuma, Ariz., in reaching cooperative experimental work in the vicinity of the station and elsewhere in irrigated valleys of southern Arizona and California where travel by auto is the only practical method. Used by 1 principal scientific aide, 1 assistant scientific aide, 2 under scientific helpers, and other employees in southern California.
Cotton production and diseases, (Egyptian cotton breeding.).....	1	do.....	200	Used in connection with Egyptian cotton breeding investigations at the Rubidoux Laboratory, Riverside, Calif., and at other points in California. Used by 1 associate cytologist.
Do.....	1	do.....	200	Used in connection with Egyptian cotton breeding investigations at the U. S. field station, Sacaton, Ariz., and other points in Arizona, by 1 associate agronomist.
Dry-land agriculture.....	1	Touring.....	75	Mandan, N. Dak., for use in making official trips between field station and town and station projects. Car 6 years old and so badly worn it can be used only in light duties. Used by superintendent and assistants.
Do.....	1	Roadster.....	190	Mandan, N. Dak., for use in making inspection trips to cooperatives in the States of Montana, North Dakota, South Dakota, and Wyoming, in connection with shelter-belt work, by inspection force.
Do.....	1	do.....	190	Do.
Do.....	1	Coach.....	190	For use at Woodward, Okla., field station in connection with cooperative shelter-belt investigations, in making inspection trips to cooperatives in several States in the southern Great Plains, by inspection force.
Do.....	1	do.....	75	Woodward, Okla., for use in making official trips between field station and town and station projects. Car purchased Nov. 11, 1930, and has been used for inspection trips in several States. Another 12 months' use and its condition will be such that it can only be utilized for light work on station as indicated during 1934. Used by superintendent and assistants.
Do.....	1	Coupé.....	175	Sheridan, Wyo., for use in making official trips between field station and town, upon station projects, and to farmers located near station, by superintendent and assistants.
Do.....	1	Coach.....	175	Dalhart, Tex., for use in making official trips between field station and town, upon station projects, and to farmers located near station, by superintendent and assistants.
Forest pathology.....	1	Roadster.....	150	Wooster, Ohio, scouting for the Dutch elm disease and other tree diseases in the State of Ohio, by agent.
Do.....	1	Coach.....	250	Albuquerque, N. Mex., devising methods of control of forest-tree diseases in district 3 of the national forests; transporting workers from place to place in connection with the investigations of forest and ornamental tree diseases, by senior pathologist.

Permanent indefinite appropriation:

Refunds to Depositors, Excess of Deposits, National Forests Fund—

All money received, by or on account of the Forest Service for timber, or from any other source of forest-reservation revenue, is covered into the Treasury of the United States as a miscellaneous receipt; and there is appropriated so much as may be necessary to make refunds to depositors of money deposited by them in excess of amounts found actually due from them to the United States, and so much as may be necessary to refund to the rightful claimants such sums as may be found to have been erroneously collected for the use of lands, or for timber or other resources sold from lands located within, but not a part of, the national forests, or for alleged illegal acts done upon such lands, which acts are subsequently found to have been proper and legal (*U. S. C., title 16, sec. 499*).

Payments to States and Territories from the National Forests Fund—

Twenty-five per cent of all money received from each forest reserve during any fiscal year is paid at the end thereof by the Secretary of the Treasury to the State or Territory in which the reserve is situated, to be expended as the State or Territorial legislature may prescribe for the benefit of the public schools and public roads of the county or counties in which the forest reserve is situated. When any forest reserve is in more than one State or Territory or county, the distributive share to each from the proceeds of the reserve is proportional to its area therein (*U. S. C., title 16, sec. 500*).
