Federal-Aid Highway System, Advances to States: Emergency Construction—

For expenditure in emergency construction on the Federal-aid highway system, \$120,000,000. Such sum shall be apportioned by the Secretary of Agriculture to the several States by the method provided in section 21 of the Federal Highway Act, as amended and supplemented (U. S. C., title 23, sec. 21). The amounts apportioned to the States shall be available as a temporary advance of funds to meet the provisions of such Act as to State funds. The amount apportioned to any State under this paragraph may be used to match the regular annual Federal-aid apportionments made to such State (including the one for the fiscal year ending June 30, 1933), and when so used such amount shall be available for expenditure in paying the share of such State in the cost of Federal-aid projects. No amounts apportioned under this paragraph shall be advanced except for work on the Federal-aid highway system performed before July 1, 1933: *Provided*, That the amounts so advanced shall be reimbursed to the Federal Government over a period of ten years, commencing with the fiscal year 1938, by making annual deductions from regular apportionments made from future authorizations for carrying out the provisions of such Act, as amended and supplemented: *Provided further*, That all contracts involving the expenditure of such amounts shall contain provisions establishing minimum rates of wages, to be predetermined by the State highway department, which contractors shall pay to skilled and unskilled labor, and such minimum rates shall be stated in the invitation for bids and shall be included in proposals or bids for the work: *And provided further*, That in the expenditure of such amounts, the limitations in the Federal Highway Act, as amended and supplemented, upon highway construction, reconstruction, and bridges within municipalities and upon payments per mile which may be made from Federal funds, shall not apply. As used in this paragraph, the term "State" includes the Territory of Hawaii. The term "highway," as defined in the Federal Highway Act, approved November 9, 1921, as amended and supplemented, for the purposes of this paragraph only, shall be deemed to include such main State parkways as may be designated by the State and approved by the Secretary of Agriculture as part of the Federal-aid highway system] (act July 21, 1932, 47 Stat., p. 716).

S. C., title 23, secs. 21 and 23), not to exceed \$50,000 for the purchase of motor-propelled passenger-carrying vehicles for use in the construction and maintenance of national-forest roads or other roads constructed under the supervision of the Department of Agriculture, including the replacement of not to exceed one such vehicle for use in the administrative work of the Bureau of Public Roads in the District of Columbia:] *Provided further*, That the limitation on expenditures for purchase of passenger-carrying vehicles in the field service shall be interchangeable between the various bureaus and offices of the department, to such extent as the exigencies of the service may require: *Provided further*, That appropriations contained in this Act shall be available for the maintenance, operation, and repair of motor-propelled and horse-drawn passenger-carrying vehicles, but expenditures for that purpose, exclusive of garage rent, pay of operator, tires, fuel, and lubricants, on any one motor-propelled passenger-carrying vehicle except a bus, used by the Department of Agriculture shall not exceed one-third of the market price of a new vehicle of the same make or class, and in any case not more than \$500: *Provided further*, That not more than one such vehicle shall be maintained for use in the administrative work of the Bureau of Public Roads in the District of Columbia: *Provided further*, That the Secretary of Agriculture may exchange motor-propelled and horse-drawn vehicles, tractors, road equipment, and boats, and parts, accessories, tires, or equipment thereof, in whole or in part payment for vehicles, tractors, road equipment, or boats, or parts, accessories, tires, or equipment of such vehicles, tractors, road equipment, or boats purchased by him: *Provided further*, That no part of any money appropriated by this Act shall be used

for purchasing any motor-propelled passenger-carrying vehicle (except busses and station wagons) at a cost, completely equipped for operation, in excess of \$750, except where, in the judgment of the department, special requirements can not thus be efficiently met, such exceptions, however, to be limited to not to exceed 10 per centum of the total expenditures for such motor vehicles purchased during the fiscal year; including the value of a vehicle exchanged where exchange is involved; nor shall any money appropriated herein be used for maintaining, driving, or operating any Government-owned motor-propelled passenger-carrying vehicle not used exclusively for official purposes; and "official purposes" shall not include the transportation of officers and employees between their domiciles and places of employment except in cases of officers and employees engaged in field work the character of whose duties makes such transportation necessary and then only when the same is approved by the head of the department. The limitations of this proviso shall not apply to any motor vehicle for official use of the Secretary of Agriculture (U. S. C., title 5, sec. 78; title 23, secs. 21, 23; act July 7, 1932, 47 Stat., pp. 643-644).

The Secretary of the Treasury shall transfer on the books of the Treasury Department any sums which may be authorized hereunder, and such amounts shall be placed to the credit of the Geological Survey for the performance of work for the department or establishment from which the transfer is made: *Provided*, That any sums transferred by any department or independent establishment of the Government to the Geological Survey for cooperative work in connection with this appropriation may be expended in the same manner as sums appropriated herein may be expended: *Provided further*, That any funds herein appropriated for the Geological Survey for cooperative work may be utilized prior to July 1, [1932] 1933, as required to enable the Geological Survey to continue its cooperative work pending reimbursement from cooperative agencies, the amount so utilized to be repaid to the appropriation from which advanced;
