GENERAL PROVISIONS—MILITARY FUNCTIONS, DEPARTMENT OF THEJARMY

[SEC. 1. The foregoing appropriations for "Quartermaster Service, Army", "Signal Service of the Army", "Department of the Air Force", "Medical and Hospital Department", "Engineer Service, Army", "Ordnance Service and Supplies", and "Chemical Service, Army" shall each be available for the pay and allowances, including travel allowances, of such Reserve officers as the President may, with their consent, order to active duty for such periods, not in excess of two years, as their service may be required in the procurement or production of equipment therein appropriated for, or on duty pertaining to aviation.]

SEC. [2] *1.* Appropriations for the Department of the Army for the *current* fiscal year [1949] shall be available for carrying out the purposes of Executive Order 9112 of March 26, 1942; for [such] printing and binding [, communication and other services and supplies as may be necessary to carry out the purposes of the Act]; for expenses in connection with the administration by the Army of occupied areas; for expenses of conducting investigations in foreign countries incident to matters relating strictly to the Department of the Army, without regard to section 3648, Revised Statutes, including such compensation, expenses, and allowances of witnesses, cost of procuring and transcribing evidence, documents, and testimony, and other miscellaneous and incidental expenses as may be determined by the investigating officer to be necessary and in accord with local custom; *for insurance of official motor vehicles in foreign countries when required by laws of such countries;* for carrying into effect the provisions of the Act entitled "An Act to govern distribution of war trophies and devices", approved July 16, 1946 (5 U. S. C. 207a-i); for actual and necessary expenses or per diem in lieu thereof authorized by section 12 of the Pay Readjustment Act of 1942, as amended; [for per diem allowances authorized by section 4 of the Act approved August 2, 1946 (Public Law 600);] for [providing] primary and secondary schooling for dependents of military and civilian personnel *of the National Military Establishment* residing on military installations in amounts not exceeding [$120] *$140* per child when the Secretary of the Army finds that the schools, if any, available in the locality, are unable to provide adequately for the education of such dependents; and for health programs authorized by law (5 U. S. C. 150).

SEC. [3] *2.* No part of any appropriation made by this Act shall be used in any way to pay any expense in connection with the conduct, operation, or management of any post exchange, branch exchange, or sub-exchange within any State, Territory, or the District of Columbia, save and except for real assistance and convenience under such regulations as the Secretary of the Army may prescribe, to such personnel as are now or may be hereafter authorized by law and regulation to purchase subsistence stores or other Quartermaster supplies and to civilians employed or serving at military posts in supplying them with articles of small personal needs, not similar to those furnished by the Government: *Provided,* That the commanding officer of the post at which any such exchange is situated shall certify on the monthly report of the post exchange council that such exchange was, during the period covered by such report, operated in compliance with this section: *Provided further.* That at posts isolated from a convenient market the Secretary of the Army may broaden the nature of the articles to be sold.

[SEC. 4. No part of any appropriation contained in this Act shall be used directly or indirectly, except for temporary employment in case of emergency, for the payment of any civilian for services rendered by him on the Canal Zone while occupying a skilled, technical, clerical, administrative, executive, or supervisory position unless such person is a citizen of the United States of America or of the Republic of Panama: *Provided, however,* (1) That, notwithstanding the provision in the Act approved August 11, 1939 (53 Stat. 1409), limiting employment in the above-mentioned positions to citizens of the United States from and after the date of the approval of said Act, citizens of Panama may be employed in such positions; (2) that at no time shall the number of Panamanian citizens employed in the above-mentioned positions exceed the number of citizens of the United States so employed, if United States citizens are available in continental United States or on the Canal Zone; (3) that nothing in this Act shall prohibit the continued employment of any person who shall have rendered fifteen or more years of faithful and honorable service on the Canal Zone; (4) that in the selection of personnel for skilled, technical, administrative, clerical, supervisory, or executive positions, the controlling factors in filling these positions shall be efficiency, experience, training, and education; (5) that all citizens of Panama and the United States rendering skilled, technical, clerical, administrative, executive, or supervisory service on the Canal Zone under the terms of this Act (a) shall normally be employed not more than forty hours per week, (b) may receive as compensation equal rates of pay based upon rates paid for similar employment in continental United States plus 25 per centum; (6) this entire section shall apply only to persons employed in skilled, technical, clerical, administrative, executive, or supervisory positions on the Canal Zone directly or indirectly by any branch of the United States Government or by any corporation or company whose stock is owned wholly or in part by the United States Government: *Provided further,* That the President may suspend from time to time in whole or in part compliance with this section in time of war or national emergency if he should deem such course to be in the public interest: *Provided further,* That the President may, if he finds it necessary because of a shortage of housing, suspend, for the fiscal year 1949, the application of those portions of this section which require the employment of citizens of the Republic of Panama or of the United States in skilled, technical, clerical, administrative, executive or supervisory positions.]

SEC. [5] *3.* Appropriations for the Department of the Army for the *current* fiscal year [1949] shall be available for all necessary expenses in connection with the instruction and training, including

tuition, not otherwise provided for, of civilian employees in and under the Department of the Army.

SEC. [6] *4.* Whenever, during the *current* fiscal year [ending June 30, 1949], the Secretary of the Army should deem it to be advantageous to the national defense, and if in his opinion the existing facilities of the Department of the Army are inadequate, he is hereby authorized to procure services as authorized by section 15 of the Act of August 2, 1946 (5 U. S. C. 55a), [which supersedes the provisions of section 5 of the Act of April 6, 1914 (5 U. S. C. 55),] at rates not in excess of $50 per day for individuals, and to pay in connection therewith travel expenses of individuals [, including actual transportation and per diem in lieu of subsistence while traveling from their homes or places of business to official duty station and return as may be authorized in travel orders or letters of appointment].

SEC. [7] *5.* Section 3648, Revised Statutes (31 U. S. C. 529), shall not apply to payments made from appropriations contained in this Act in compliance with the laws of foreign countries or their ministerial regulations, to payments for rent in such countries for such periods as may be necessary to accord with local custom, or to payments made for tuition.

SEC. [8] *6.* No part of any appropriation contained in this Act shall be used to pay the salary or wages of any person who engages in a strike against the Government of the United States or who is a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided,* That for the purposes hereof an affidavit shall be considered prima facie evidence that the person making the affidavit has not contrary to the provisions of this section engaged in a strike against the Government of the United States, is not a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or that such person does not advocate, and is not a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided further,* That any person who engages in a strike against the Government of the United States or who is a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence and accepts employment the salary or wages for which are paid from any appropriation in this Act shall be guilty of a felony and, upon conviction, shall be fined not more than $1,000 or imprisoned for not more than one year, or both: *Provided further,* That the above penalty clause shall be in addition to, and not in substitution for, any other provisions of existing law.

SEC. [9] 7. No part of any money appropriated herein or included under any contract authority herein granted shall be expended for the payment of any commission on any land purchase contract in excess of 2 per centum of the purchase price.

SEC. [10. No part of any appropriation contained in this Act may be obligated for the construction of quarters, including heating and plumbing apparatus, wiring and fixtures, in continental United States, except in Alaska, for greater amounts per unit than follow:]

[Permanent construction:]

[For commissioned officer, $10,000.]

[For commissioned warrant or warrant officer, $7,500.]

[For enlisted man, $6,000.]

[Temporary construction:]

[For commissioned officer, $7,500.]

[For commissioned warrant or warrant officer, $5,000.]

[For enlisted man, $3,500] *8. During the current fiscal year, appropriations for the Army shall not be obligated for construction of family quarters for personnel at a cost per family unit in excess of $14,040, except that when such units are constructed outside the continental United States, the average cost per unit of all such units shall not exceed $25,850.*

SEC. [11] *9.* The Secretary of the Army is authorized to utilize any appropriation available for the Department of the Army, under such regulations as he may prescribe, for expenses incident to the maintenance, pay, and allowances of prisoners of war, other persons in Army custody whose status is determined by the Secretary of the Army to be similar to prisoners of war, and persons detained in Army custody pursuant to Presidential proclamation.

SEC. [12] *10.* The appropriations contained in this Act which are available for the procurement or manufacture of munitions of war of special or technical design may be used for the development and procurement of gages, dies, jigs, and other special aids and appliances, production studies, factory plans, and other production data, including specifications and detailed drawings, in accordance with the provisions of sections 120 and 123 of the National Defense Act, as amended. Such appropriations may also be used for the purchase of letters patent, applications for letters patent, and licenses under letters patent and applications for letters patent that pertain to such equipment or material for which the appropriations are made.

[SEC. 13. None of the moneys appropriated by this or any other Act shall be available to the Department of the Army for audit work for the purpose of reconciling family allowance pay-roll deductions made by disbursing officers in the field with family allowance payments to dependents of military personnel under the provisions of the Servicemen's Dependents Allowance Act of 1942.]

SEC. [14. During the] *11. After June 30, 1949, no appropriation in this or any other Act shall be available for the payment of rental or quarters allowances to personnel of the services mentioned in the title of the Pay Readjustment Act of 194% for any periods during which they occupy, with their dependents, if any, quarters under the jurisdiction (for rental purposes) of any of such services, except that during the current* fiscal year [1949], paid occupancy of the hotel on the grounds of the United States Military Academy on a rental basis by *such* personnel [of the services mentioned in the title of the Pay Readjustment Act of 1942] or by their dependents shall not deprive such personnel of money allowances for rental of quarters.

SEC. [15. The limitation imposed by section 14 of the Act of May 24, 1946 (60 Stat. 219), with respect to Department of the Army personnel, shall not apply to the Department of the Army with respect to employment of and payment to personnel engaged on orders and work received from and financed by the Navy Department or other Federal agencies if such personnel is charged to a ceiling determination for another agency under 607 (g) (1) of the Federal Employees Pay Act of 1945, as amended, or the National Guard, and Organized Reserves of the Army or to employee personnel engaged in demilitarization of ammunition and materiel] *12. During the current fiscal year, the limitation imposed by section 14 of the Federal Employees Pay Act of 1946 (5 U. S. C. 947g) shall not apply to the Department of the Army.*

SEC. [16] *13.* Provisions of this Act granting authority to the Department of the Army or the Secretary of the Army, or referring to military or civilian personnel of the Department of the Army, shall be applicable to the Department of the Air Force, the Secretary of the Air Force, and military or civilian personnel of the Department of the Air Force with respect to funds allocated or otherwise made available *from Army appropriations* to or for the Department of the Air Force or personnel thereof: *Provided,* That amounts transferred to the Department of the Air Force under section 306 of the National Security Act of 1947 (Public Law 253, approved July 26, 1947), shall be available for personal services at the seat of government without regard to the availability of such funds for that purpose under applicable provisions and restrictions of this Act.

[SEC. 17. Funds appropriated for the agencies of the National Military Establishment for the fiscal year 1949 shall be available, contingent upon the enactment into law by the Eightieth Congress of S. 2655 or similar authorization for the voluntary enlistment of persons between the ages of eighteen and nineteen years, and subject to the approval of the Director of the Bureau of the Budget, for all expenses necessary for and incident to the recruitment and service of such persons, pending and in anticipation of a supplemental appropriation by the Congress to provide funds for such expenses.]

Sec. 14- After June SO, 1949, (1) services, work, supplies, materials, and equipment may be rendered or supplied by one department or organization within the National Military Establishment to another such department or organization without reimbursement or transfer of funds; and (2) the pay and allowances, including transportation of dependents and household goods on a reimbursable or other basis, as authorized by law, of military, naval, or civilian personnel of one department or organization of such establishment detailed or assigned to duty with another such department or organization, may be charged to the appropriations otherwise available for such purposes to the department or organization to which detailed or assigned. CORPS OF ENGINEERS

EIVERS AND HARBORS AND FLOOD CONTROL

To be immediately available and to be expended under the direction of the Secretary of the Army and the supervision of the Chief of Engineers, and to remain available until expended: *Provided*, That the services of such additional technical and clerical personnel as the Secretary of the Army may deem necessary may be employed only in the Office of the Chief of Engineers, to carry into effect the various appropriations for rivers and harbors and flood control, surveys, and preparation for and the consideration of river and harbor and flood-control estimates and bills, to be paid from such appropriations: *Provided further*, That the expenditures on this account for the *current* fiscal year [1949] shall not exceed [$1,250,0001 *$1,450,000*, and the Secretary of the Army shall each year, in the Budget, report to Congress the number of persons so employed, their duties, and the amount paid to each: *Provided further*, That the various appropriations for rivers and harbors and flood control may be used for the purchase, in the *current* fiscal year [1949], of [five] *six* hundred *and forty-one* passenger motor vehicles (of which [three] *four* hundred and [fifty] *eighty-six* shall be for replacement only) and [ten] *thirteen* motorboats, and the purchase (not to exceed [seven] *five)*, maintenance, repair, and operation of aircraft[: *Provided further*, That not to exceed $16,000 of the sums appropriated herein may be used to pay the expenses of Corps of Engineers representatives to three international engineering conferences to be held in Europe during the calendar year 1948].

RIVERS AND HARBORS

Maintenance and Improvement of Existing River and Harbor Works-

Maintenance and improvement of existing river and harbor works: For the preservation and maintenance of existing river and harbor works, and for the prosecution of such projects heretofore authorized as may be most desirable in the interests of commerce and navigation; for survey of northern and northwestern lakes and other boundary and connecting waters as heretofore authorized, including the preparation, correction, printing, and issuing of charts and bulletins, and the investigation of lake levels; for prevention of obstructive and injurious deposits within the harbor and adjacent waters of New York City; for expenses of the California D6bris Commission in carrying on the work authorized by the Act approved March 1, 1893, as amended (33 U. S. C. 661, 678, and 683); for removing sunken vessels or craft obstructing or endangering navigation as authorized by law; for operating and maintaining, keeping in repair, and continuing in use without interruption any lock, canal (except the Panama Canal), canalized river, or other public works for the use and benefit of navigation belonging to the United States; for payment annually of tuition fees of not to exceed one hundred student officers of the Corps of Engineers at civil technical institutions under the provisions of section 127a of the National Defense Act, as amended (10 U. S. C. 535); for examinations, surveys, and contingencies of rivers and harbors; for the execution of detailed investigations and the preparation of plans and specifications for projects heretofore or hereafter authorized; for printing and binding and office supplies and equipment required in the Office of the Chief of Engineers to carry out the purposes of this appropriation, including such printing, either during a recess or session of Congress, of surveys authorized by law, and such surveys as may be printed during a recess of Congress shall be printed, with illustrations, as documents of the next succeeding session of Congress: *Provided*, That no part of this appropriation shall be expended for any preliminary examination, survey, project, or estimate not authorized by law; [$166,989,100] *$229,174,100: Provided further*, That from this appropriation the Secretary of the Army may, in his discretion and on the recommendation of the Chief of Engineers based on the recommendation by the Board of Rivers and Harbors in the review of a report or reports authorized by law, expend such sums as may be necessary for the maintenance of harbor channels provided by a State, municipality, or other public agency, outside of harbor lines and serving essential needs of general commerce and navigation, such work to be subject to the conditions recommended by the Chief of Engineers in his report or reports thereon: *Provided further*, That not to exceed [$3,000] *$5,000* of the amount herein appropriated shall be available for the support and maintenance of the Permanent International Commission of the Congresses of Navigation and for the payment of the expenses of the properly accredited delegates of the United States to the meeting of the Congresses and of the Commission: *Provided further*, That from this appropriation not to exceed [$1,000,000] *$1,600,000* shall be available for transfer to the Secretary of the Interior for expenditure for the purposes of and in accordance with the provisions of the Act of August 8, 1946 (60 Stat. 932), and the Act of August 14, 1946 (60 Stat. 1080): *Provided further, That all land owned by the United States described as parcels 10, 16, 17, and 36 on the War Assets Administration tract map of Marinship yard containing approximately 60 acres, together with the buildings, improvements, and facilities thereon, which comprise part of the Marinship facilities, Marin County, California, and now under the control and jurisdiction of the War Assets Administration, is hereby transferred, without reimbursement of funds, to the jurisdiction of the Department of the Army for use by the Corps of Engineers of that Department. Maintenance and Operation of Dams and Other Improvements of Navigable Waters—

By the act of June 10, 1920, 41 Stat. 1072, 50 percent of the proceeds of certain licenses issued by the Federal Power Commission for constructing, operating, and maintaining dams, conduits, reservoirs, etc. (exclusive of proceeds from Indian reservations), was appropriated for maintenance and operation of dams and other navigation structures owned by the United States, and for other improvements of navigable waters. Such appropriation was repealed by the act of June 26, 1934, but was reestablished by the act of August 26, 1935, 49 Stat. 845. Moneys derived from such appropriations each year are available until expended (16 U. S. C. 810; 31 U. S. C. 725c).

GOVERNMENT AND RELIEF IN OCCUPIED AREAS

Government and Relief in Occupied Areas, Department of the Army—

[For expenses, not otherwise provided for, necessary to meet the responsibilities and obligations of the United States in connection with the government or occupation of certain foreign areas, including personal services in the District of Columbia and elsewhere and, subject to such authorization and limitations as the Secretary of the Army may prescribe, not to exceed $220,000 may be available for tuition, personal allowances (not to exceed $10 per day), travel expenses (not to exceed those authorized for like United States military or civilian personnel), and fees incident to instruction in the United States or elsewhere of such persons as may be required to carry out the provisions of this appropriation; travel expenses and transportation; services as authorized by section 15 of the Act of August 2, 1946 (5 U. S. C. 55a), at rates not in excess of $50 per day and travel expenses for individuals; translation rights, photographic work, educational exhibits, and dissemination of information, including preview and review expenses incident thereto; expenses incident to the operation of schools for American children; printing and binding; hire of passenger motor vehicles and aircraft; repair and maintenance of buildings, utilities, facilities, and appurtenances; contingencies for the United States commanders of foreign areas, to be expended in their respective discretions (not exceeding amounts authorized or approved by the Secretary of the Army); such minimum supplies for the civilian populations of such areas as may be essential to prevent starvation, disease, or unrest, prejudicial to the objectives sought to be accomplished, and such supplies, commodities, and equipment as may be essential to carry out the purposes of this appropriation; $1,300,000,000, of which not to exceed $55,000,000 shall be available for administrative expenses: *Provided*, That when military personnel of the Department of the Army are employed primarily for the purposes of this appropriation, the mileage and other travel allowances to which they may be entitled shall be paid herefrom: *Provided further*, That the general provisions of the appropriation Act for the fiscal year 1949 for the military functions of the Department of the Army shall apply to this appropriation: *Provided further*, That expenditures from this appropriation may be made outside continental United States, when necessary to carry out its purposes, without regard to sections 355, 1136, 3648, and 3734, Revised Statutes, as amended, civil-service or classification laws, or provisions of law prohibiting payment of any person not a citizen of the United States: *Provided further*, That expenditures from this appropriation may be made, when necessary to carry out its purposes, without regard to section 3709, Revised Statutes, as amended, and the Armed Services Procurement Act of 1947 (Public Law 413, Eightieth Congress): *Provided further*, That expenditures may be made hereunder for the purposes of economic rehabilitation in Japan, Korea, and the Ryukyus in such manner as to be consistent with the general objectives of the Economic Cooperation Act of 1948: *Provided further*, That funds appropriated hereunder and unexpended at the time of the termination of occupation by the United States, of any area for which such funds are made available, may be expended by the President for the procurement of such commodities and technical services, and commodities procured from funds herein or heretofore appropriated for government and relief in occupied areas and not delivered to such an area prior to the time of the termination of occupation, may be utilized by the President, as may be necessary to assist in the maintenance of the political and economic stability of such areas: *Provided further*, That before any such assistance is made available, an agreement shall be entered into between the United States and the recognized government or authority with respect to such area containing such undertakings by such government or authority as the President may determine to be necessary in order to assure the efficient use of such assistance in furtherance of such purposes: *Provided further*, That such agreement shall, where applicable, include requirements and undertakings corresponding to the requirements and undertakings specified in sections 5, 6, and 7 of the Foreign Aid Act of 1947 (Public Law 389, 80th Congress): *Provided further*, That funds appropriated hereunder may be used, insofar as practicable, and under such rules and regulations as prescribed by the Secretary of the Army, to pay ocean transportation charges from United States ports, including territorial ports, to ports in Japan, Korea, and the Ryukyus for the movement of supplies donated to, or purchased by, United States voluntary nonprofit relief agencies registered with and recommended by the Advisory Committee on Voluntary Foreign Aid or of relief packages consigned to individuals residing in such countries: *Provided further*, That under the rules and regulations to be prescribed, the Secretary of the Army shall fix and pay a uniform rate per pound for the ocean transportation of all relief packages of food or other general classification of commodities shipped to Japan, Korea, or the Ryukyus regardless of methods of shipment and higher rates charged by particular agencies of transportation, but this proviso shall not apply to shipments made by individuals to individuals: *'And provided further*, That the Joint Committee on Foreign Economic Cooperation established pursuant to provisions of section 124 (a) of the Economic Cooperation Act of 1948 shall have the same duties, powers, and responsibilities with respect to programs carried out by appropriations for Government and Relief in Occupied Areas as it has with respect to programs under the Economic Cooperation Act of 1948.] *{Foreign Aid Appropriation Act, 1949.)*

i Ranges established under Executive Order 1888, Feb. 2, 1914, by authority of the act of Aug. 24, 1912 (37 Stat. 561), as amended by act of July 9, 1937 (50 Stat. 487).

Municipal Works, Panama and Colon—

Pursuant of Article VII of the 1903 Treaty with the Republic of Panama, contract was entered into in 1907 between the Isthmian Canal Commission (Panama Canal) and the Republic of Panama, under which the Commission constructed the water distribution and sewer systems, as well as some paving in the cities of Panama and Colon, in order to provide necessary utilities for those cities. The Panama Canal has maintained the water and sewer systems and pavements, and extends and improves them on properly authorized and approved requests by the Republic of Panama. The Canal has collected the water rentals from the water consumers and applies the proceeds thereof to cover the cost of the water; maintenance, extension, and improvement of the systems; amortization of the investment; and interest at the rate of 2 percent on the unamortized balance. In accordance with the joint resolution approved May 3, 1943 (57 Stat. 74), and in conformity with Executive Order 9551 of May 16, 1945, the transfer of the water and sewer systems in Panama and Colon has been negotiated and covered in the instrument of transfer to the Republic of Panama of the water and sewer systems in the cities of Panama and Colon and agreement respecting incidental and related matters, between the Governor, The Panama Canal, and the Minister of Foreign Relations of the Republic of Panama, under date of December 28, 1945. The effective date of the transfer was January 1, 1946, and interest on and amortization of the original investment ceased to accrue to the United States as of that date. The schedule below under the heading of "Surplus account" is based on the transfer effected as of January 1, 1946, and indicates the estimated obligation of the accrued surplus to undertake any requested and approved extensions and improvements to the water and sewer systems and the pavements in the cities of Panama and Colon.

Coincidental with the accomplishment of the instrument of transfer there was entered into a contract covering the management of the water and sewer systems and the paving of the streets of the cities of Panama and Colon by The Panama Canal for the account of the Republic of Panama. The schedule below under the heading of " Management account" indicates the obligations, receipts, and payment to the Republic of Panama as provided for in the management agreement.

GENERAL PROVISIONS

SEC. 2. **[No** part of any appropriation contained in this Act shall be used directly or indirectly, except for temporary employment^in case of emergency, for the payment of any civilian for services rendered by him on the Canal Zone while occupying a skilled, technical, clerical, administrative, executive, or supervisory position unless such person is a citizen of the United States of America or of the Republic of Panama: *Provided, however,* (1) That, notwithstanding the provision in the Act approved August 11, 1939 (53 Stat. 1409), limiting employment in the above-mentioned positions to citizens of the United States from and after the date of the approval of said Act, citizens of Panama may be employed in such positions; (2) that at no time shall the number of Panamanian citizens employed in the above-mentioned positions exceed the number of citizens of the United States so employed, if United States citizens are available in continental United States or on the Canal Zone; (3) that nothing in this Act shall prohibit the continued employment of any person who shall have rendered fifteen or more years of faithful and honorable service on the Canal Zone; (4) that in the selection of personnel for skilled, technical, administrative, clerical, supervisory, or executive positions, the controlling factors in filling these positions shall be efficiency, experience, training, and education; (5) that all citizens of Panama and the United States rendering skilled, technical, clerical, administrative, executive, or supervisory service on the Canal Zone under the terms of this Act (a) shall normally be employed not more than forty hours per week, (b) may receive as compensation equal rates of pay based upon rates paid for similar employment in continental United States plus 25 per centum; (6) this entire section shall apply only to persons employed in skilled, technical, clerical, administrative, executive, or supervisory positions on the Canal Zone directly or indirectly by any branch of the United States Government or by any corporation or company whose stock is owned wholly or in part by the United States Government: *Provided further,* That the President may suspend from time to time in whole or in part compliance with this section in time of war or national emergency if he should deem such course to be in the public interest: *Provided further,* That the President may, if he finds it necessary because of a shortage of housing, suspend, for the fiscal year 1949, the application of those portions of this section which require the employment of citizens of the Republic of Panama or of the United States in skilled, technical, clerical, administrative, executive, or supervisory positions.] *Notwithstanding the provisions in the Act approved August 11, 1939 (53 Stat. 1409), limiting employment in certain positions to citizens of the United States, citizens of Panama may be employed in such positions.*

SEC. 3. No part of any appropriation contained in this Act shall be used to pay the salary or wages of any person who engages in a strike against the Government of the United States or who is a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided,* That for the purposes hereof an affidavit shall be considered prima facie evidence that the person making the affidavit has not contrary to the provisions of this section engaged in a strike against the Government of the United States, is not a member of an organization of Government employees that asserts the right to strike against the Government of the United States or that such person does not advocate, and is not a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided further,* That any person who engages in a strike against the Government of the United States or who is a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence and accepts employment the salary or wages for which are paid from any appropriation in this Act shall be guilty of a felony and, upon conviction, shall be fined not more than $1,000 or imprisoned for not more than one year, or both: *Provided further,* That the above penalty clause shall be in addition to, and not in substitution for, any other provisions of existing law.

SEC. 4. The Governor of the Panama Canal and the Chief of Engineers, Department of the Army, are authorized to employ services as authorized by section 15 of the Act of August 2, 1946 (5 U. S. C. 55a), but at rates not exceeding $100 per diem for individuals.

SEC. 5. Appropriations for the Department of the Army and for civil functions administered by the Department of the Army may be used for the payment of claims under the Act of July 3, 1943, and section 403 of the Federal Tort Claims Act (28 U. S. C. **[921]** *2672),* and for health programs as authorized by law (5 U. S. C. 150). *(Civil Functions Appropriation Act, 1949.)*

BUREAU OF SUPPLIES AND ACCOUNTS

PAY AND SUBSISTENCE OF NAVAL PERSONNEL

Pay and Subsistence of Naval Personnel—

For pay, allowances, subsistence and quarters prescribed by law for naval personnel, including reserves on active duty, *to be disbursed and accounted for in accordance with existing law and to constitute one fund*—

Pay and allowances: Officers, active duty, no part of which shall be available for increased pay for making aerial flights, by more than eighty-five officers above the rank of captain nor by nonflying officers or observers at rates in excess of those prescribed by law for the [Army] *Air Force*, which shall be the legal maximum rates as to such nonflying officers or observers; midshipmen; enlisted personnel, active, including cash prizes for men for excellence in gunnery, target practice, communication, and engineering competition; men of the Fleet Reserve, inactive; nurses, female, active; six months' death gratuity, officers, nurses, and enlisted personnel; cash allowances for uniforms for officers; clothing furnished annually to enlisted personnel or cash in lieu thereof; civilian clothing, including an overcoat when necessary, the cost of all not to exceed $30 per person to enlisted personnel given discharges for bad conduct, undesirability, unsuitability, or inaptitude; purchase of medals, crosses, bars, emblems, and other insignia; miscellaneous items, including interest on deposits by enlisted personnel; payments in settlement of claims under the Act of January 2, 1942 (31 U. S. C. 224d); commuted rations; money allowances for subsistence and quarters of enlisted personnel when not furnished quarters or subsistence in kind, and for enlisted personnel absent from messes on temporary duty not involving travel (during which time all other subsistence shall be stopped); *$1,076,823,000: Provided*, That, except in the case of those who have specifically enlisted for such duty, *those performing service in the quarters of female officers, and those performing service in the residence or quarters of naval attache's abroad as authorized by the Secretary*, no appropriation contained in this Act shall be available for the pay, allowances, or other expenses of any enlisted [man] *person* or civilian employee performing service in the residence or quarters of an officer or officers on shore as a cook, waiter, or other work of a character performed by a household servant, but nothing herein shall be construed as preventing the voluntary employment in any such capacity of a retired enlisted man or a transferred member of the Fleet Reserve without additional expense to the Government, nor the sale of meals to officers by general messes on shore as regulated by detailed instructions from the Navy Department[; total, pay and allowances, $1,111,116,000].

Subsistence: For provisions for messes, subsistence in messes, and other subsistence in kind as authorized by law; [$104,796,000] *$110,814,000.*

[In all, for pay and subsistence of naval personnel, $1,215,912,000, and the money herein specifically appropriated for "Pay and subsistence, Navy", shall be disbursed and accounted for in accordance with existing law and shall constitute one fund.] *(84 U. S. C. 857, 901a; Department of the Navy Appropriation Act, 1949.)*

Clothing and Small Stores Fund —

NOTE.—A revolving fund created by the act of June 30,1890, for the purpose of making available to enlisted personnel of the Navy clothing and individual items of small stores. The fund finances the maintenance of clothing and small stores inventories through purchase or manufacture. Receipts to the fund are derived from sale of such items (including condemned and surplus stores) and from issues charged to an appropriation or fund(3lU.S.C.64O).

Naval Procurement Fund—

NOTE.—Established by the act of July 3,1942, as a means of financing the procurement of services, equipment, and supplies of a nature not suitable for procurement through the naval stock fund. In addition to operations within the $1,000,000 working capital, advances are made by bureaus and offices from their respective appropriations to finance the program involved (31 U. S. C. 645a).

Naval Stock Fund—

NOTE.—Established by the act of Mar. 1,1921, as a revolving fund for the purchase or manufacture of stores and materials for the Naval Establishment. The fund is also used for procurement of certain special material and as an accounting medium in miscellaneous supply and service transactions. The fund is charged with expenditures for stores and materials and credited with receipts on account of issues and sales, including sales of condemned materials (31 U. S. C. 644).

GENERAL PROVISIONS—DEPARTMENT OF THE NAVY

SEC. 102. No part of any appropriation made for the Navy shall be expended for any of the purposes herein provided for on account of the Navy Department at the seat of government, including personal services of civilians, except as expressly authorized by law.

[SEC. 103. No part of any appropriation contained in this Act shall be used directly or indirectly, except for temporary employmen t in case of emergency, for the payment of any civilian for services rendered by him on the Canal Zone while occupying a skilled, technical, clerical, administrative, executive, or supervisory position unless such person is a citizen of the United States of America or of the Republic of Panama: *Provided, however,* (1) That, notwithstanding the provision in the Act approved August 11, 1939 (53 Stat. 1409), limiting employment in the above-mentioned positions to citizens of the United States from and after the date of the approval of said Act, citizens of Panama may be employed in such positions; (2) that at no time shall the number of Panamanian citizens employed in the above-mentioned positions exceed the number of citizens of the United States so employed, if United States citizens are available in continental United States or on the Canal Zone; (3) that nothing in this Act shall prohibit the continued employment of any person who shall have rendered fifteen or more years of faithful and honorable service on the Canal Zone; (4) that in the selection of personnel for skilled, technical, administrative, clerical, supervisory, or executive positions, the controlling factors in filling these positions shall be efficiency, experience, training, and education; (5) that all citizens of Panama and the United States rendering skilled, technical, clerical, administrative, executive, or supervisory service on the Canal Zone under the terms of this Act (a) shall normally be employed not more than forty hours per week; (b) may receive as compensation equal rates of pay based upon rates paid for similar employment in continental United States plus 25 per centum; (6) this entire section shall apply only to persons employed in skilled, technical, clerical, administrative, executive, or supervisory positions on the Canal Zone directly or indirectly by any branch of the United States Government or by any corporation or company whose stock is owned wholly or in part by the United States Government: *Provided further,* That the President may suspend, from time to time in whole or in part, compliance with this section in time of war or national emergency if he should deem such course to be in the public interest: *Provided further,* That the President may, if he finds it necessary because of a shortage of housing, suspend, for the fiscal year 1949, the application of those portions of this section which require the employment of citizens of the Republic of Panama or of the United States in skilled, technical, clerical, administrative, executive, or supervisory positions.]

SEC. [104] *103.* No part of any appropriation contained in this Act shall be used to pay the salary or wages of any person who engages in a strike against the Government of the United States or who is a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or who advocates, or is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided,* That for the purposes hereof an affidavit shall be considered prima facie evidence that the person making the affidavit has not contrary to the provisions of this section engaged in a strike against the Government of the United States, is not a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or that such person does not advocate, and is not a member of an organization that advocates, the overthrow of the Government of the United States by force or violence: *Provided further,* That any person who engages in a strike against the Government of the United States or who is a member of an organization of Government employees that asserts the right to strike against the Government of the United States, or who advocates, or who is a member of an organization that advocates, the overthrow of the Government of the United States by force or violence and accepts employment the salary or wages for which are paid from any appropriation contained in this Act shall be guilty of a felony and, upon conviction, shall be fined not more than $1,000 or imprisoned for not more than one year, or both: *Provided further,* That the above penalty clause shall be in addition to, and not in substitution for, any other provisions of existing law.

SEC. [105] *104.* No part of any money appropriated herein or included under any contract authority herein granted shall be expended for the payment of any commission on any land purchase contract in excess of 2 per centum of the purchase price.

SEC. [106] *105.* The appropriations [for the Naval Establishment] *in this Act* for the *current* fiscal year **[1949]** *except those which are for military pay and allowances, or retired pay,* shall be available for providing transportation of naval and civilian personnel between their domiciles and places of employment as authorized by law; health service program as authorized by law (5 U. of the President, and the Secretary of the Navy may designate any naval appropriation to be charged with such expenses, proper adjustments to be made on the basis of final costs between applicable appropriations; payment of rewards, as authorized by law, for information leading to the discovery of missing naval property or the recovery thereof; *and printing and binding for the Navy Department and the Naval Establishment.*

SEC. [107] *106.* Appropriations in this Act shall be available for the pay of missing or captured civilian or naval personnel under the provisions of [Public Law 490, approved March 7, 1942, as amended] *the Act of March 7, 1942, as amended (50 U. S. C. 1001-1015),* and for that which accrued during prior years and was not paid, including accruals of pay authorized by law for retired and reserve officers, nurses, enlisted personnel, and family allowances.

SEC. [108] *107.* During the *current* fiscal year [1949] the Secretary of the Navy is authorized to procure services in accordance with section 15 of the Act of August 2, 1946 (5 U. S. C. 55a), but at rates for individuals not in excess of $50 per day.

SEC. [109] *108.* Provisions of law prohibiting the payment of compensation to or employment, of any person not a citizen of the United States shall not apply to personnel under the Naval Establishment during the *current* fiscal year [ending June 30, 1949].

SEC. [110] *109.* The appropriations for the Department of the Navy and the naval service for the *current* fiscal year [ending June 30, 1949,] shall be available for expenses in connection with the transfer to the United States of foreign vessels, including pay, subsistence, transportation, and repatriation of alien crews.

[SEC. 111. None of the funds appropriated in this Act for the fiscal year ending June 30, 1949, other than funds for which reimbursement is made hereunder, shall be available for any expenses for care, upkeep, repair, handling, and assistance in the sale of any property, material, or equipment subsequent to the date of a declaration of surplus covering such property to a disposal agency, or, if procedures are prescribed whereby declarations of surplus are made at approximately the time of disposal or removal, subsequent to the date of notice by the owning agency to the disposal agency that property has been determined to be surplus and is subject to such procedures. With respect to all such expenses, disposal agencies shall provide reimbursement to the Navy, for credit to the appropriations from which such expenses would be normally paid and the Navy is authorized to apportion, obligate, and expend funds from the several appropriations involved in advance of the reimbursement thereto: *Provided,* That reimbursement shall not be made for pay and allowances and subsistence of naval and Marine Corps personnel within the numbers appropriated for: *Provided further,* That advance payments based on the estimated expenses of the Department of the Navy may be made by any disposal agency: *Provided further,* That in lieu of ascertaining the direct expenses and the applicable portion of the indirect expenses, the Department of the Navy and the disposal agencies may agree on any basis for determining such expenses as will equitably accomplish the purpose of this section.]

SEC. [112] *110.* No part of the appropriations made in this Act shall be available for contracts with any person, firm, or corporation to make or cause to be made with a stop watch or other time-measuring device a time study of any job of any employee within the Navy; nor shall any part of the appropriations made in this Act be available to pay any premiums or bonus or cash reward to any employee in addition to his regular wages, except for suggestions resulting in improvements or economy in the operation of any Government plant; and no moneys herein appropriated for the Naval Establishment or made available therefor shall be used or expended under contracts hereafter made for the repair, purchase, or acquirement, by or from any private contractor, of any naval vessel, machinery, article, or articles that at the time of the proposed repair, purchase, or acquirement can be repaired, manufactured, or produced in each or any of the Government naval shipyards or arsenals of the United States, when time and facilities permit, and when in the judgment of the Secretary, such repair, purchase, acquirement, or production would not involve an appreciable increase in cost to the Government, except when the repair, purchase, or acquirement, by or from any private contractor, would, in the opinion of the Secretary, be advantageous to the national defense.

SEC. 111. Naval appropriations in this Act for the current fiscal year shall be available for all necessary expenses in connection with the instruction and training, including tuition, not otherwise provided for, of civilian employees, as authorized by the Secretary.

SEC. 112. During the current fiscal year, the limitation imposed by section 14 of the Federal Employees Pay Act of 1946 (5 U. S. C. 947 g) shall not apply to the Department of the Navy.

SEC. 113. After June 30, 1949, no appropriation contained in this or any other Act shall be available for payment of rental or quarters allowances to personnel of the services mentioned in the title of the Pay Readjustment Act of 1942 for any periods during which they occupy, with their dependents, if any, quarters under the jurisdiction (for rental purposes) of any such services.

SEC. 114. During the current fiscal year the maximum amount provided in section 26 of the Act of August 2, 1946 (34 U. S. C. 559), for the cost of projects authorized thereunder, is increased from "$20,000" to "$30,000."

EXPLANATORY STATEMENT

INTRODUCTION

In order to provide a more comprehensive comparison of the financing of postal service operations as it relates to the use of the postal and general revenues the above table includes a section on "Annual appropriation out of the general fund of the Treasury." The amounts set forth in that section of the table are supported by a schedule called "Deficiency in postal revenues," following the part of this chapter devoted to appropriations out of postal revenues.

PROGRAM

Increasing volume in all classes of mail, especially in the amount and bulk of parcel post due to the difference between express charges and the low rates offered by the postal service, has prevented complete restoration of services to prewar standards. At the present time mail-handling facilities and building space are inadequate to meet the demands upon the postal service. The Department is receiving delivery on new trucks, but with the continued increase in mail volume it has been impossible to retire old trucks. The purchase program provided for mail bags and similar equipment will restore the supply to a level sufficient to meet service demands.

The Department, in addition to its own planning program, has reviewed and considered suggestions contained in reports published by committees of the House of Representatives. Plans are progressing for an exploration of the practicability of mechanical mail sorting, and the use of other devices and systems to expedite mail handling and administrative procedures connected with postal operations. As these new improvements are installed and more adequate facilities become available, it is anticipated that manpower production will gradually increase and the costs of mail-handling operations will be accordingly reduced.

MAIL VOLUME AND POSTAL EXPENDITURES

The estimates of mail volume, which form the bases for these budget estimates, forecast a 6.94 percent increase in volume of pieces in the fiscal year 1949 compared with 1948, and an additional rise of 4.63 percent in 1950 over 1949. A study of the relationship of mail volume to productive man-hours since 1938 shows an increasing production rate in the operation of the postal service.

Due to the increased expenditures necessitated by the following legislation, that is, "Postal Rate Revision and Federal Employees Salary Act of 1948" (Public Law 900),

the revision of the star route legislation (Public Law 669), increase in travel allowance of railway postal clerks (Public Law 687), and the continued expansion of mail volume, the estimated expenditures for the operation of the postal service in 1949 have been revised upward to $2,067,357,972, or $313,030,147 in excess of the amount appropriated to date. This total and the estimate for 1950 of $2,079,672,300 may prove to be an understatement of requirements if the mail volume increases substantially over the amounts on which these estimates are based.

The estimates of appropriation for transporting the mails have been fixed at rates now in effect as established by the Interstate Commerce Commission and the Civil Aeronautics Board. There are pending before the Interstate Commerce Commission petitions filed by over 200 railroad companies requesting increases aggregating 65 percent in rates of pay for mail transportation. Twenty-five percent has been granted on a temporary basis, which has been included in these estimates. However, with the settlement of the case the increases granted will become retroactive to the dates of application. While no amount in excess of the temporary 25 percent rate increase has been included in 1950 to care for transportation rate increases, if the rates requested by the railroads are authorized, it is estimated that the additional cost in 1950 will be at least $60,000,000. Further, as the rates of payments to domestic and foreign air carriers for the transportation of mails are increased and made permanent, costs will be greatly increased.

DEFICIENCY IN POSTAL REVENUE

Estimated postal revenue for 1949 has been revised upward to $1,540,916,000, and at that amount it will be insufficient to meet postal expenditures by $526,441,972. Postal revenue as now estimated for 1949 is 9.28 percent over 1948. For 1950 the Department estimated $1,676,-000,000, an 8.77 percent increase over 1949, and a deficit of $403,672,300. If Congress approves the-proposed new postage rate legislation estimated to produce $250,000,000, 1950 revenue will be approximately $1,926,000,000, an increase of 24.99 percent over 1949. This would reduce the estimated deficit to about $153,000,000.

EXPLANATORY STATEMENT

GENERAL STATEMENT

The Department of State is responsible to the President for the formulation and execution of policies pertaining to international relations. The Department operates through normal diplomatic channels and international organizations and maintains other social, economic, and political relationships. In carrying out its responsibilities the Department formally participates in the work of the United Nations and other international bodies, develops measures for the protection of American citizens and interests abroad, and generally promotes solidarity and friendly relations between the United States and other nations.

This Nation's present policy requires increasingly active participation in international organizations established to promote peace and economic recovery. Information and reciprocal education programs will continue to play an important part in the accomplishment of foreign policy objectives.

ESTIMATES OF APPROPRIATION FOR 1950

Five appropriations for foreign service and departmental activities have been consolidated in the estimates for 1950 in accordance with the Presidential policy of placing in the several Secretaries authority for the management of their Departments commensurate with the responsibilities involved. This step will provide the Secretary of State with greater flexibility in the use of foreign service and civil service personnel in departmental and field assignments.

The estimates for the Department for general and special appropriations under existing legislation approximate $281.7 million, which is $66.2 million less than those estimated under 1949 appropriations. This decrease is primarily due to a nonrecurring item of $65 million in 1949 for the United Nations building fund.

Other principal deviations from 1949 appropriations are: (1) An increase of $2.5 million in regular departmental and foreign service operations; (2) a reduction of $10 million in the foreign buildings program; (3) an increase of $1.8 million for emergencies arising in the diplomatic and consular service; (4) an increase of $1.5 million in activities of the International Boundary and Water Commission, United States and Mexico; (5) a decrease of $1.2 million in the Philippine rehabilitation program; and (6) an increase of $4.5 million in the international information and educational exchange program.

The amount of $36 million is included in the estimates for an international information and educational exchange program designed (1) to disseminate abroad information about the United States, its people and policies; and (2) to promote an educational exchange service to cooperate with other nations in the interchange of persons, knowledge, and skills; to render technical and other services; and to interchange developments in the field of education, the arts, and sciences. This program includes activities financed in previous years from the appropriation " Cooperation with the American Republics" expanded for 1950 under authority of the Smith-Mundt Act to include the Eastern Hemisphere as well. The major items covered by the appropriation estimate are $15.5 million for information and educational exchange activities overseas; approximately $14.9 million for domestic media facilities and services, such as radio broadcasts in foreign languages, the preparation of news material for publication in foreign press, the preparation of pamphlets, magazines, and foreign language films for distribution overseas; approximately $1.6 million for radio broadcasting facilities and operation of overseas radio relay bases; $1 million for repayment of 1949 construction contract authorizations; and $3 million for the expenses of administration in the United States and overseas.

An estimate of $20.1 million for the Philippine rehabilitation program includes the sum of $4 million to be applied to the existing contract authority of $14 million and $12.4 million to cover in full, existing obligation authority. This contract and obligation authority had been authorized for the programs for reconstruction of public roads and public buildings in the Philippines.

Costs of United States participation in international organizations, including our contributions to these organizations and the cost of United States representation at the organizations is estimated at $100.8 million. Included in this total is $70.5 million for participation in the International Kefugee Organization. No provision is being made at this time for the joint support program under the International Civil Aviation Organization, although a total of $3.8 million was provided for this purpose in 1949. Detailed estimates for this latter item are being deferred until more specific information relative to contemplated programs becomes available and, in the meantime, provision is made for it in the allowance for additional items to be submitted later.

The sum of $4 million is estimated for the work of the International Boundary and Water Commission, including continuing engineering and maintenance activities and expanded construction under international treaties with Mexico.

Estimated supplemental for 1949 under proposed legislation include $16 million for the United Nations Arab refugee program, $17 million for Swiss war damage claims, and $589,400 for foreign service pay increases. Estimates for 1950 under proposed legislation include $1,000,000 for participation in the International Trade Organization, $1,647,100 for foreign service pay increases, $15,000 for collecting and editing official papers of Territories of the United States, and $7 million for United States assistance in the construction of a permanent headquarters for the Food and Agricultural Organization of the United Nations.

EXPLANATORY STATEMENT

ANNUAL APPROPRIATIONS

The Treasury Department's estimates of appropriation for the fiscal year 1950 under annual appropriations, general account, aggregate $1,092,994,450 as compared with appropriations and estimated supplemental appropriations for similar purposes of $864,135,152 for 1949, or a net increase of $228,859,298. This net increase results primarily from added requirements for strategic and critical materials, additional capital for the general supply fund, and increased operating expenses for certain of the bureaus in the Department. These items of increase are partially offset by decreases in the amounts required for operating expenses of the Fiscal Service, the elimination of the penalty-mail estimate and changing certain annual items to permanent indefinites for the Bureau of Accounts and the Bureau of Customs.

The $73,070,297 forecast for supplemental estimates in 1949 includes $26,237,707 for the cost of Public Law 900. Of the remainder, $40,000,000 is for strategic and critical materials, and $6,832,590 represents increased operating costs for the several bureaus and offices of the Department.

PERMANENT APPROPRIATIONS

In addition to the regular annual appropriations, permanent appropriations aggregating $7,631,618,583 are recommended for the fiscal year 1950 as compared with $8,098,784,101 for fiscal year 1949. This net decrease is caused by a reduction of $610,000,000 in the requirements for internal-revenue refunds and $665,518 for interest on deposits of public moneys of the Government of the Philippine Islands. These decreases are partially offset by increases of $125,000,000 for interest on the public debt and by the inclusion of new permanent indefinite appropriations in the amount of $18,500,000. These new items are for "Refund of moneys erroneously received and covered," "Payment of certified claims," and "Refunds and draw-backs, Customs," the amounts of which are not subject to administrative control.

STATUTORY PUBLIC DEBT RETIREMENTS

The $629,191,100 estimated to be appropriated for 1950 is $37,690,089 less than was appropriated for 1949, due primarily to a reduction in the requirements for "Redemption of bonds, etc., from deposits of excess capital of Commodity Credit Corporation."

TRUST APPROPRIATIONS

The estimates of appropriation for trust accounts for 1950 indicate a net increase of $730,510,468 over the amount required for 1949. This is due almost entirely to increased deposits to the Federal old-age and survivors trust fund.

DEPARTMENTAL ADMINISTRATION

The administrative offices of the Secretary are composed of *(a)* the Secretary, the under secretary, assistant secretaries, and other policy staff and aides who comprise the Office of the Secretary, and (6) the Division of Tax Research, the Office of General Counsel, and the Office of Administrative Services. The annual estimates of appropriation for 1950 for this group of offices amount to $5,064,200 as compared with $10,326,612 required for 1949, or a net reduction of $5,262,412. This net reduction is caused by the elimination of $5,900,000 previously required for penalty mail, which is partially offset by increased requirements in 1950 for the operating expenses of the several administrative offices in the amount of $637,588. Of this latter amount of increase, $384,038 is caused by the inclusion of certain personnel in the 1950 estimates who are currently detailed from other offices and bureaus, whose estimates have been reduced accordingly.

MANAGEMENT OF THE PUBLIC DEBT

The Bureau of the Public Debt has supervision over the issue, servicing, and retirement of obligations of the United States Government. The annual estimates of appropriation for 1950 for this Bureau, aggregating $54,111,250 constitute a reduction of $2,532,590 under the amount required for the fiscal year 1949. Funds have again been included in the estimates for accelerated operations in connection with the promotion of the sale of United States savings bonds as a part of the general plan to combat inflation. The anticipated work load for 1950 in terms of sales and redemptions will continue at approximately the 1949 level. Reductions resulting from a decrease in the backlog of work at Chicago in connection with the processing of savings-bond records are partially offset by increases in the cost of the sale of bonds by the Post Office Department, provision in the estimate for the cost of redeeming armed service leave bonds, and additional requirements for paper used in the production of currency.

RECEIPT, CUSTODY, DISBURSEMENT OF, AND ACCOUNTING FOR PUBLIC MONEYS

The Bureau of Accounts and the Office of the Treasurer of the United States are responsible for the receipt, safekeeping, and disbursement of Government funds and related accounting functions. The annual estimates of appropriation recommended for these organizations for the fiscal year 1950 total $18,815,000 as compared with $23,554,647 required for the current year, or a reduction of $4,739,647. Of this latter amount, $4,300,000 pertains to "Refund of moneys erroneously received and covered" and "Payment of certified claims," which are recommended as permanent appropriations in 1950. The remaining net reduction of $439,647 results from a decrease in operating requirements of $739,647, which is partially offset by the inclusion in 1950 of an estimate of $200,000 for "Payment of Government losses in shipment," and an increased requirement of $100,000 for "Contingent expenses, public moneys." The work loads for these organizations in 1949 include the issuance, clearance, and reconciliation of approximately 10 million checks for refunding internal-revenue collections which are nonrecurring.

COLLECTION OF REVENUE

The Bureau of Internal Revenue along with the Bureau of Customs is responsible for collecting nearly all of the revenue of the Government. The annual appropriation recommended for the Bureau of Internal Revenue for the

fiscal year 1950 totals $232,778,000 as compared with estimated requirements of $211,078,905 for 1949, or an increase of $21,699,095. The major portion of this increase is attributable to an increased enforcement program in the field with lesser amounts for expediting the mechanization program in collectors' offices.

This program is in accord with the recommendations of the advisory group of the Joint Committee on Internal Revenue Taxation, which, upon investigation, recommended that a recruitment and training program designed to strengthen enforcement personnel in numbers and competence be put into operation as soon as practicable. The advisory group further recommended a reorganization of Bureau management with a view to greater economy and efficiency of operation and to more effective utilization of enforcement expenditures. To this end, the Secretary of the Treasury has appointed a committee to direct management studies of the Bureau.

The estimates of appropriations for fiscal year 1950 for the Bureau of Customs aggregate $35,950,000, a decrease of $17,119,000 from the amount needed for 1949. However, this net decrease is offset by the new permanent indefinite appropriation of $16,000,000 for refunds and draw-backs, which is $2,000,000 less than the amount appropriated for this purpose in 1949. Thus, the total operating appropriation estimates for 1950 actually reflect an increase of $881,000 over 1949 requirements. The proposed reorganization of the Washington headquarters office reflected in the schedules is part of the Bureau-wide implementation of the McKinsey & Co. management survey which will be the subject of further study in 1950.

MANUFACTURE OF CURRENCY AND COIN

The Bureau of Engraving and Printing designs, engraves, and prints United States currency, bonds, checks, stamps, etc., and the Bureau of the Mint designs and manufactures coins.

The 1950 appropriation estimate of $17,000,000 for the Bureau of Engraving and Printing is an increase of $840,000 over 1949 requirements. Because of the anticipated high rate of redemptions of used currency, approximately 110 million sheets of United States currency will be printed in 1950, an increase of 4 million sheets over the 1949 production.

The estimates of appropriations for the Bureau of the Mint for 1950 total $4,942,000, as compared with 1949 requirements of $4,771,200, an increase of $170,800. This net increase results from a proposed acceleration of production and a wage board increase for hourly employees, partially offset by savings from improved work methods, reduced protection costs, and reduction of equipment purchases. It is planned to produce 850 million coins in 1950, or 100 million more than the estimated production for the current year.

PROTECTION OF UNITED STATES SECURITIES AND NEGOTIABLE INSTRUMENTS

The Secret Service is charged with protecting the President and his family, suppressing counterfeiting, the apprehension of forgers of United States checks and securities, and the detection of other crimes in violation of related laws pertaining to the Treasury Department. The estimates of appropriations for the fiscal year 1950 amount to $3,165,000 as compared with the requirements in 1949 of $3,002,518, or an increase of $162,482. Counterfeiting increased during 1948 when 51 new notes appeared and over $3,000,000 in representative value was confiscated, as compared to 31 new notes and $246,000 in 1947. The cases closed during 1948, principally check and bond cases, numbered 45,621 during which time 48,831 new cases were opened. It is expected that cases opened in 1949 will exceed cases closed, but it is contemplated that, in 1950, a small reduction will be realized in the backlog of cases.

FEDERAL NARCOTIC CONTROL

The Bureau of Narcotics is responsible for the enforcement of Federal narcotic laws. The annual estimate of appropriation for 1950 totals $1,560,000 as compared with $1,542,275 required for the same purposes in 1949.

PROCUREMENT

The Bureau of Federal Supply is responsible for the procurement, custody, and distribution of supplies, materials, and equipment for Federal agencies. Under the provisions of Public Law 862, Eightieth Congress, the Bureau is now charged with important responsibilities in connection with the disposal of surplus property. The estimates recommended for this Bureau for 1950 amount to $570,042,000 as compared with $343,267,400 required for 1949, or a net increase of $226,774,600. Of this net increase, $224,000,000 is required for the purpose of accelerating the strategic and critical materials program. The remaining increase results primarily from increased operations to handle surplus property, the Federal catalog project, net renegotiation rebates under the Renegotiation Act, and an increase in the capital of the general supply fund. In addition to the appropriations required for strategic and critical materials, new contract authority in the amount of $211,000,000 will be required in 1950 as compared with $570,000,000 in 1949.

PROTECTION OF LIFE AND PROPERTY

The Coast Guard operates aids to navigation, makes safety inspection of merchant vessels, maintains lifesaving stations, renders assistance in the event of marine disasters, and enforces certain maritime laws. The estimates of appropriations for the fiscal year 1950 amount to $149,567,000 as compared with the requirements in 1949 of $140,718,755, or an increase of $8,848,245. Because of limited funds, a restricted program was carried on in 1948 pending a study which was made by Ebasco Services, Inc., of administrative management and fiscal policies and procedures and the enactment of certain authorizing legislation. During that year aids to navigation, including loran, were maintained, but ocean weather-station operation and certain other activities were curtailed considerably. After the report of Ebasco Services, Inc., had been submitted, funds were provided for an expanded program in 1949, and the activities will be increased to a level which will be stabilized in 1950. The full program of ocean weather-station operation will be realized, other segments of the Coast Guard program will be operating to a fuller extent, and considerable progress can be made in rehabilitating the physical plant.

Currently, recruiting for the Coast Guard is considerably easier due to the operation of the selective-service law.

Federal Old-Age and Survivors Insurance Trust Fund—

Under the provisions of section 201, title II, of the Social Security Act amendments of 1939, approved August 10, 1939, there was created on the books of the Treasury of the United States a trust fund known as the " Federal old-age and survivors insurance trust fund," consisting of the securities held by the Secretary of the Treasury for the "Old age reserve account" and the amount standing to the credit of the "Old age reserve account" on the books of the Treasury on January 1, 1940, and, in addition, such amounts as may be appropriated to the trust fund as provided in the act. The act appropriates to the trust fund for the fiscal year ending June 30, 1941, and for each fiscal year thereafter, amounts equivalent to 100 percent of the taxes (including interest, penalties, and additions to the taxes) received under the Federal Insurance Contributions Act and covered into the Treasury, with the further provision that the trust fund shall repay to the general fund of the Treasury the amount required by the Social Security Board and the Treasury Department to administer title II and title VIII of the act and the Federal Insurance Contributions Act (42 U. S. C. 401).

[Repairs to typewriting machines (except bookkeeping and billing machines) in the Government service in the District of Columbia and areas adjacent thereto may be made at cost by the Bureau of Federal Supply, payment therefor to be effected by charging the proper appropriation and crediting the general supply fund.]

No part of any money appropriated by this or any other Act shall be used during the *current* fiscal year [1949] for the purchase, within the continental limits of the United States *{excluding Alaska and the Canal Zone)*, of any typewriting machines (except bookkeeping and billing machines and typewriting machines for veterans under public laws administered by the Veterans Administration).

Each agency in the executive branch of the Government (which shall include all departments, independent establishments, and wholly owned Government corporations) is authorized and directed [(1) to report within thirty days after the enactment of this Act, or by July 1, 1948, whichever is the later, to the Director of the Bureau of Federal Supply the total number of typewriting machines in the possession or custody of such agency and the number thereof surplus to its requirements, and (2)] to surrender and ship such surplus typewriting machines as the Director of the Bureau of Federal Supply may direct. Costs of packing [and], shipping, *and handling* [hereunder] shall be charged to the general supply fund. Each agency shall furnish the Director of the Bureau of Federal Supply such information regarding typewriting machines, *wherever located*, as he may from time to time request. The Bureau of Federal Supply is authorized and directed to receive [and hold all], *hold, sell, or exchange* typewriting machines surrendered to it hereunder [and] *or* to distribute same to any of such agencies as the Director of the Bureau of Federal Supply may determine, *including the government of the District of Columbia.*

Notwithstanding the foregoing paragraphs, in the event the Director of the Bureau of Federal Supply is unable to furnish any

such agency with suitable typewriters out of stock on hand, he may purchase typewriters for the account of such agency *on a reimbursable basis: Provided,* That the price paid during any quarter of the fiscal year for such typewriters *or the afore-mentioned typewriting machines for veterans* shall not exceed ninety per centum of the lowest net cash price, plus applicable Federal excise taxes, accorded the most favored customer (other than the Government [of the United States, or any agency thereof], *the American National Red Cross,* and *the* purchasers of typewriters for educational instruction purposes only) of the manufacturer of such machines during the six-month period immediately preceding such quarter.

The Director of the Bureau of Federal Supply is authorized and directed at such times as he may determine to be necessary to survey and determine the number and kinds of typewriters *located in said continental United States* which are at any time surplus to the requirements of any agency. Upon such determination the Director of the Bureau of Federal Supply is authorized to direct, upon such notice and in such manner as he may prescribe, the head of any agency to surrender to the Bureau of Federal Supply any and all typewriting machines, surplus to its requirements, and such determination and direction by the Director of the Bureau of Federal Supply shall be final and conclusive upon all agencies, officers, and employees of the executive branch of the Government of the United States.

The Director of the Bureau of Federal Supply is authorized to charge each agency to which typewriting machines are supplied hereunder amounts equal to the fair value thereof, as determined by him, and such amounts shall be credited to the general supply fund.

[The unexpended balances of the funds advanced to the Bureau of Federal Supply from the appropriation for "Salaries and expenses" of the Office of Scientific Research and Development in the National War Agencies Appropriation Act, 1946, for furnishing summary technical reports, shall remain available during the fiscal year 1949 for the liquidation of obligations incurred prior to July 1, 1948.] *(Treasury and Post Office Departments Appropriation Act, 1949.)*

The Secretary of the Treasury may transfer funds between the foregoing appropriations for [salaries and expenses **of]** the Coast Guard, but no appropriation shall be either increased or decreased more than 5 per centum by such transfers.

The capital of the Coast Guard supply fund shall be increased by the value of commissary provisions and uniform clothing on hand on July 1, 1949, and thereafter, under regulations prescribed by the Secretary, the Coast Guard supply fund shall be charged with the cost of procurement and credited with the value of provisions consumed or sold, and the value of issues and sales of clothing, such values to be determined on a basis which will not increase the capital of the fund. (The Supplemental Treasury and Post Office Departments Appropriation Act, 1949.)

EXPLANATORY STATEMENT

GENERAL STATEMENT

The District of Columbia constitutes a political entity in which are exercised not only municipal but also county and State functions, such as public education, administration of justice, maintenance of a unit of the National Guard, promotion of family welfare, care of the indigent, custody of mental defectives and delinquents, protection of the interests of labor, metropolitan area planning, etc. While the municipal functions are administered principally by the Board of Commissioners, District of Columbia, most of the county and State functions are carried on by other agencies, some local and some Federal in character.

In contrast to this diversity in the administration of District functions under the Constitution, Congress is empowered "to exercise exclusive legislation in all cases whatsoever" on behalf of the District of Columbia as the seat of government of the United States. Congress acts in municipal matters as a city council, and in dealing with the broader aspects of the local government, as a county board and a State legislature. In this connection, Congress enacts the District's revenue measures and appropriates the money thus raised to carry on the government of the District of Columbia. District revenues from all sources are covered into the United States Treasury and credited either to the general fund, the highway fund, the water fund, or a trust fund, and no expenditure can be made from any of these funds, other than trust funds, without specific appropriation by Congress.

Under the law, the District estimates of appropriation are submitted to the Bureau of the Budget for incorporation in the Budget of the United States. The Bureau, however, does not examine the estimates of the District in minute detail, but confines its attention more to matters of policy which concern the Federal Government and present and proposed revenue measures required to balance the District budget.

The estimates of revenues for the general, highway, water, and trust funds are found in supporting statement No. 1. Estimates of appropriations for the same funds are shown in supporting statement No. 2. Attention is also directed to the summary table at the beginning of this chapter.

GENERAL FUND

Revenues accruing to the general fund of the District of Columbia are used to finance the administrative offices, schools, libraries, health, recreation, sanitation, welfare, corrections, certain public works, and other operating activities. These revenues are realized from real, personal, and other property taxes; sales and gross receipts; taxes on alcoholic beverages, business privileges, insurance, public utilities, and other business; licenses and permits; individual and corporation income taxes; inheritance and estate taxes; certain earnings and miscellaneous revenues; and the Federal payment. The largest item of revenue in the general fund comes from realty and personal property taxes and, including proposed new taxes, amounts to approximately 42 percent of the total. The levy is based on an estimated assessed valuation of $1,906,800,000, taxed at the rate of $2 per $100. The estimated valuation is $25 million higher in 1950 than for the current year. The Federal payment is estimated at $12 million, which is the same amount as was appropriated in fiscal year 1949. Of this amount, $11 million is credited to the general fund and $1 million to the water fund.

The estimate of general-fund revenues on the present tax base for the fiscal year 1950, including the Federal payment of $11 million, totals $80,650,000, which amount is $8,077,627 less than the estimated obligations for 1950. The District Commissioners are proposing that further consideration be given to the enactment of sales tax legislation similar to that introduced in the Eightieth Congress. It is estimated this legislation will increase general fund revenues by $10 million in the fiscal year 1950, if enacted into law by May 1, 1949, and a surplus of $1,922,373 would accrue by the end of 1950. However, it is expected that the new legislation will produce approximately $13.5 million a year when fully effective. The balancing of the general-fund budget for the fiscal year 1950, therefore, depends upon congressional approval of new tax legislation or disapproval of a sizable part of the appropriation requests.

Furthermore, if District employees are granted a pay increase effective July 1, 1949, similar to that enacted for Federal employees under the provisions of Public Law 900, Eightieth Congress, the surplus of $1,922,373 would be eliminated and a deficit of over $3 million would result. If the pay increase were made effective before July 1, 1949, this deficit would increase by approximately $440,000 for each month of operation before that date.

General-fund estimates of appropriation for 1950 show an over-all increase of approximately 2.9 percent over 1949 estimates. This increase is reflected largely in welfare and corrections, health, police, policemen's and firemen's relief, and public works programs. In addition to regular appropriations, a new contract authorization for the Spingarn Senior High School is requested.

HIGHWAY FUND

Highway-fund revenues are realized from a gasoline tax, automotive registration and weight tax, motor-

vehicle fees of various types, and paving assessments. The estimated revenues from these sources for the fiscal year 1950, plus available surpluses, total $9,542,915, which will be $219,115 in excess of the estimated obligations.

Estimates of appropriation chargeable to the highway fund for 1950 show an over-all increase of only 0.4 percent over 1949 estimates. This increase is reflected largely in the Department of Vehicles and Traffic and police control of highway traffic.

WATER FUND

Water-fund revenues are derived from the sale of water to residents of the District of Columbia and to Arlington County, Va.; from the Federal payment of $1 million provided for under the District of Columbia Revenue Act of 1947; from water-main assessments; from interest on investments; and from miscellaneous receipts. Total revenues for the fiscal year 1950, including surplus funds and sales of investment securities, are estimated at $6,270,000, which will balance the total estimated obligations for 1950.

The estimates of appropriation for fiscal year 1950 from the water fund amount to $6,270,000, which are $139,477 below the estimates for the fiscal year 1949, for a decrease of approximately 2.2 percent.

Capita] outlays amounting to $2,743,000 account for approximately 44 percent of the fiscal year 1950 estimates, as compared with 50 percent of the 1949 estimates. These capital outlay projects will provide important improvements in the District water distribution system and the Washington Aqueduct.
